Subject: Re: Final report request: student tech. fee #1117

CeCe,

Good morning.

1. Nate Olson should replace me.
2. I’m afraid that, because there was no TFAC request or budget submitted for the $99,999.92 funding, it won't be possible to fill out the attached status report. That is to say, the funding from this project was provided directly by Bonnie from "contingency" funds, not as a result of a TF proposal. So, no budget breakdown was ever provided. That said, the earlier spreadsheet I sent to you along w/ the extension request that reflects how all of the funds were spent should suffice. It shows the original funds, all expenditures, and the remaining balance.

If you need anything else, please let me know.

Regards,

Galen

Subject: Final report request: student tech. fee #1117

Good morning, Galen,

A couple of questions for you re the $99,999.92 award for this project:
    1. Who will replace you as the project director on the ECI side?
    2. Would you be willing to submit a status report (attached Excel workbook) on this project sometime this week?

We received from Robert Foertsch, CS, a status report on this project relative to the $66,847 award, so a similar status report for your project would bring it totally up to date.
