

NORTH DAKOTA STATE UNIVERSITY IS PLEASED TO SUBMIT FOR CONSIDERATION THIS AGENCY REVIEW AND SUMMARY FOR THE 2015-17 BIENNIAL BUDGET REQUEST.

INTRODUCTION

As the state's land-grant institution, NDSU has a long-standing commitment to bringing educational opportunities and research solutions to the people of North Dakota. Our commitment remains focused on affordable access to a high-quality education for our students and serving state interests in a manner demonstrating sound stewardship and accountability. We are truly a student focused, land-grant, research university.

NDSU's continued success has led to higher national and international visibility, not just for itself but the entire state, and most importantly, more substantial contributions to the success of North Dakota and the nation, at levels never before attained by a North Dakota higher education institution. In fact, NDSU is now the topranked college or university in its five state area of North Dakota, South Dakota, Wyoming, Idaho and Montana. That success is resulting in increased demand from both inand out-of-state students seeking a traditional full-time, residential experience leading to graduation in four years from a rigorous research university environment.

NDSU leads the state in the enrollment of first-time freshmen, and NDSU remains the largest university in the state in terms of overall full-time enrollment. NDSU graduates also enjoy an exceptional job placement rate in their field of study, exhibit a steadily increasing level of residency in the state after graduation, and make record-setting contributions to the state's tax base. From another perspective, the university's success also has led to continued record research and development expenditures, licensing revenues and new business growth, as well as subsequent job creation.

As NDSU continues to evolve and grow, which is projected to continue into the next biennium, we also continue our commitment to affordability, efficiency and productivity. That commitment is reflected in the success of our students, local and service region communities and the statewide economic interests we serve. We look forward and remain committed to addressing the needs and aspirations of North Dakota by building on our land-grant foundation.

AGENCY OVERVIEW

AGENCY STATUTORY AUTHORITY ND CONSTITUTION, SECTION 215, NORTH DAKOTA CENTURY CODE CHAPTER 15-12

AGENCY DESCRIPTION

North Dakota State University (NDSU) has become the first and remains the only North Dakota university ranked in the top tier of the Carnegie Commission on Higher Education and the ranks of the National Science Foundation's top 100 research universities (39th of those without a medical school), with more than \$150.0 million in annual scholarly research activity reported for the most recent national survey. Those rankings have opened up a steady progression of new partnerships and funding opportunities with other leading universities, private entities and federal agencies, never before possible for a North Dakota university.

NDSU is proud of its tradition as the state's student focused, land-grant, research institution. It embraces that

responsibility as a cornerstone of its future productivity, and the contributions it can increasingly provide to North Dakota and the state's residents, as well as the nation's, current and future interests.

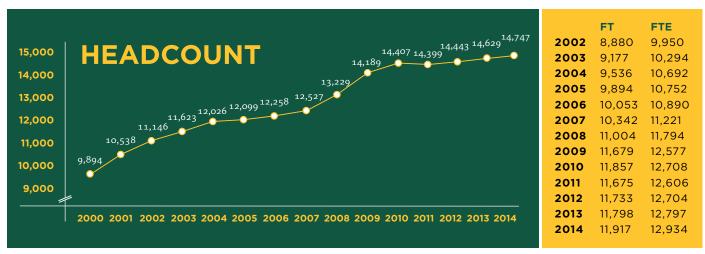

The university hosts a large and diverse student profile and is home for the largest full-time, on-campus enrollment in the states's university system. Located in a vibrant and growing area of the state, and with a growing number of major corporate partners, NDSU has shared a responsibility for creation of an environment that complements and blends the experiences of its students, faculty and staff with the community in which they live while attending the university.

ENROLLMENT OVERVIEW

FALL ENROLLMENT DATA

From 2000 to 2014, student demand has increased by 4,853 additional students, or approximately 49 percent.

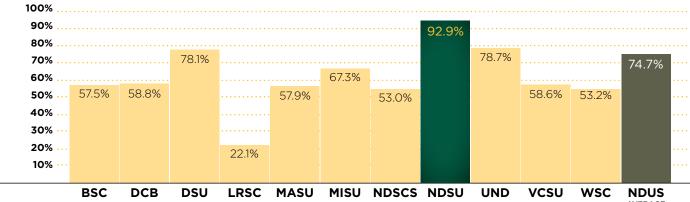

Headcount: All students, regardless of number of credit hours Full-Time (FT): Students enrolled in 12 credit hours or more Full-Time Equivalent: UGRD student credit hours divided by 15 = FTE; GRAD student credit hours divided by 12 = FTE

FACE-TO-FACE FALL 2014 ON-CAMPUS PERCENTAGES

At NDSU, 13,708 of 14,747 students are face-to-face with faculty in traditional classroom settings.

AVERAGE

AGENCY MAJOR ACCOMPLISHMENTS

North Dakota's first and only top ranked research university in the nation based on both the Carnegie Commission on Higher Education and the National Science Foundation. Classified by the Carnegie Commission on Higher Education as "Research University/Very High Research Activity."

Received \$6.4M in equalization funding from the new higher education funding formula which 100% was used to support Academic Affairs.

Initiated construction for a new state-funded STEM Classroom Building to meet student demand in the science, technology, engineering and math disciplines.

Continued demand by prospective undergraduate and graduate students, has been reflected in new full-time student enrollment records every year for the past decade, with the fall of 2014 enrollment more than 14,700 students.

Continued diversity of the NDSU student body — fall 2013 enrollment included 1,101 international students representing 87 countries, and an increasing number of U.S. born students reflecting ethnic, cultural and geographical diversity.

NDSU's out-of-state-students are choosing to stay in North Dakota for their first job after graduation and contribute back above state averages to the tax base.

Student job placement in their major field of study, achieved a record 89% success.

Initiated and continued efforts for student success through improved sense of welcome and support; retention and graduation rates; focus on students from historically underrepresented populations, veterans and others; and addressed high risk behaviors and other student issues.

Completed construction of a major indoor track facility, initiated a renovation of the Sanford Health Athletic Complex.

Expanding academic collaborations include development of undergraduate and graduate programs with Minot State (social work and human development), and NDSCS (the "Pathways" program, and the establishment of a two-year liberal arts preparatory program in the Fargo area).

Systemwide support of academic support functions in IT-based data storage, academic computing (NDSU is the SBHE recognized supercomputing facility for the state), communication, emergency response and support technologies that provide the backbone of many NDUS institutions and the support of their collective academic communities. By blending system resources with the campus-based expertise requisite to major research university environments, NDSU is in many areas best positioned to efficiently provide services to its sister institutions through an increasing number of NDSU shared services.

Continued involvement with the Research and Technology Park and emerging technology firms that have created several thousand new jobs, including employment of over 100 NDSU undergraduate and graduate students.

Solidified NDSU as one of the most successful overall NCAA Division-I athletic programs in the nation. NDSU student-athletes' commitment to excellence helped shine a national spotlight on an athletics program celebrating its 10th year of NCAA Division I competition. NDSU recorded league championships in nine sports, the most recorded in a single year in the storied history of NDSU athletics. The 411 student-athletes at NDSU combined for a 3.13 GPA, which exceeds that of the overall student body, and more than 60 athletes achieved a perfect 4.0 GPA in the spring 2014 semester.

HQC Biosciences Inc.

C2sensor Inc.

Five of these six startups are in North Dakota and located in the NDSU RTP Incubator facility; two more are in negotiation.

BUSINESS STARTUPS FIND SUCCESS

Fargo-based Elinor Specialty Coatings, LLC was selected as a 2014 TechConnect National Innovation Awardee for Aluma45 MgRP, a chromium-free magnesium-rich primer for use on aluminum-alloys and composites in ship, automotive and construction materials manufacturing. The core technologies were initially developed by researchers at NDSU and licensed to the company.

NDSU-related startup and graduate of the NDSU Technology Incubator, Myriad Mobile, has grown to more than 60 employees since started by two NDSU students in 2011. The company designs, develops and consults on mobile applications for business, and was selected by Entrepreneur magazine as a Top 30 StartUps to Watch.

WESTERN NORTH DAKOTA RESEARCH

NDSU announced funding for road dust research in North Dakota's Bakken region, with coverage by the Associated Press and in many national publications, including the Kansas City Star, the Miami Herald and Businessweek. NDSU research on population projections, law enforcement needs, soil conservation and other topics provides community leaders with planning tools amidst unprecedented growth.

AGENCY FUTURE CRITICAL ISSUES

NDSU's productivity and national visibility combined with the attractiveness of the surrounding community and the state's current economic strength have led to over a decade of increases in demand by both undergraduate and graduate students, scholars and entrepreneurs eager to bring their research and business ideas to an environment that supports their success. Our future strategic focus will be toward science, engineering, technology, public health and agricultural fields represented by the STEM disciplines. In order to meet the continued demand, NDSU's future critical issues are:

- Provide resources to support faculty and staffing of academic areas and support functions while meeting the needs of student demand. Maintaining reasonable faculty-to-student ratios, has required an increasing utilization of non-tenured, part-time and other staffing options.
- Provide up to date classroom facilities equipped to meet the educational, technological and physical needs of our students.
- Maintain campus facilities that are increasingly falling behind on even minimal levels of maintenance and renovation as confirmed in the recently completed review of university system facilities by VFA and Paulien & Associates, Inc.
- Continue to provide and maintain a safe and secure environment for students, faculty and staff.

NDSU understands its responsibility to evaluate and purposefully consider opportunities for collaboration and to find efficiencies across its academic programs and all other activities. Over the past three years we have undergone a comprehensive strategic-planning process to evaluate those areas in which it is best positioned to lead, support, collaborate or contribute to the success of its constituencies. Additionally, NDSU has also identified those areas in which it is not best positioned or cannot efficiently lead with excellence in addressing demands of the state and nation, and must support collaboration with or redirection of state necessities to NDUS institutions better positioned to meet such demands.

At the same time, the university has also pursued a number of initiatives ranging from curriculum reviews, and restructuring of tuition, fees and course-load expectations to purposeful collaboration with other state post-secondary institutions. Just a few current examples of such collaboration include development of undergraduate and graduate programs with Minot State (social work and human development), and NDSCS (the "Pathways" program, and the establishment of a two-year liberal arts preparatory program in the Fargo area).

This 2015-17 request is for an increase from an average of 12.7% to an equivalent of 50% of OMB building and infrastructure formulas. Base funding currently received in 2013-15 is \$2,732,244 and the requested increase for 2015-17 is \$11,153,388. NDSU has prioritized a preliminary list of projects, however priorities can change due to unforeseen circumstances and emergencies.

Governors funding model increase

\$11,352,682

OPTIONAL BUDGET REQUEST

\$1,732,589

Base funding: Campus Security and Emergency Preparedness

\$205,500

NDSU requests 1 FTE Emergency Manager Position to develop and implement plans required under SBHE Policy 906 to facilitate appropriate emergency preparedness on campus, which must be tailored to each individual campus and local and regional law enforcement and emergency services. These plans are intended to provide the framework to address the immediate requirements for a major disaster or emergency in which normal operations are interrupted and special measures must be taken to:

- Protect the lives of students, employees and the public
- Provide essential services and operations
- · Manage immediate communications and information regarding emergency operations
- Manage university resources effectively in emergency operations
- Provide and analyze information to support decision-making.

Emergency response is based on the Incident Command System (ICS), the management structure adopted throughout the United States and internationally, and a requirement of the State of North Dakota and various US Department of Homeland Security Presidential Directives and Nation Incident Management Systems (NIMS) guidance.

One-time funding: Campus Security

\$1,120,000

NDSU requests one-time funds for campus security in order to provide security cameras/surveillance equipment \$520,000 and keyless card entry/locking systems \$600,000

One-time funding: 2015-17 Special Assessments installment payments

\$407,089

Estimated special assessment payoff for remaining balance: \$1,591,426.

Estimated savings by paying off balance early: \$1,762,946.

NEW SIX-STORY BUILDING REPLACEMENT - \$45,900,000

- ~106,000 square feet of new construction
- Minimizes research and educational programs having to be off-line during renovation
 - No other facilities on campus contain infrastructure where activities could be moved
- · Consolidates Departments of:
 - > Chemistry and Biochemistry
 - > Geosciences
 - > Center for Protease Research shared CORE laboratories
- Accommodates:
 - Upper-level undergraduate students
 - › Graduate students
 - > Faculty (offices, research)
 - > Improved lab areas
- · Address safety and code concerns
- · Address deferred maintenance
- · Improve undergraduate and graduate experience
 - Provide additional square footage needed to handle current growth of undergraduate students
 - Address the need for space for the growing number of graduate students
 - Update laboratory spaces
 - > Improve ventilations and conditions
 - Create an accessible building
 - Non-ADA compliant building entrances currently need to go through Ladd or Hultz Halls
 - » Necessary for students to walk through labs to access faculty offices
- Match the facility to NDSU's recognition as one of the Top 108 public and private institutions according to Carnegie Commission on Higher Education
- · Address needs for faculty
 - Create facilities to retain and attract top researchers and faculty
 - > Create space for all faculty needing research space
 - > Help fill the nation's need for research in the science field
- · Removal of an inefficient building
 - Proposed demolition of original Dunbar (with substantial deferred maintenance) at the completion of Dunbar II

CAPITAL PROJECT RANKIN	G MATRIX FOR 2015-17 PROJECT PRIORITIZATION
Life Safety	Inadequate/malfunctioning HVAC facilities; general building and fume hood ventilation for safe handling of dangerous chemicals; outdated fire system that does not match chemicals used in building; no central storage system for chemicals; faculty offices access through research labs; undersized research lab spaces with very poor circulation; safety issues more critical because of building's location in center of campus
Statutory Compliance	Fire code standard violations; control areas for hazardous materials; fire separation at control areas; lack of accessibility in research areas; excessive quantities of chemicals stored for laboratory use (reoccurring code violation from City of Fargo Fire Department); sanitary/storm sewer code; ADA - both main entrances are inaccessible
Deferred/Critical Maintenance	Calculated at \sim \$2.3 million in 2008 by Sasaki/JLG; list and inflation has grown since then; facility condition assessment listed Dunbar as one of top three deficient major academic buildings on campus
Program or Accreditation	Insufficient space to hire additional faculty; lack of faculty and adequate space restricts ability to train new graduate students and for current students to continue in their programs; physical separation of faculty also significantly diminishes what can be accomplished in advancing education and resulting research of, by and for students
Partial Legislative Funding	N/A
Significant Outside Support	N/A
High Priority for State	Science field is vital to North Dakota; Chemistry, Biochemistry, Geosciences all important disciplines for energy, biomedical and high-technology manufacturing industries in state
Urgent Infrastructure Need	Definite urgent needs - electrical systems at full capacity, obsolete HVAC systems; life/health/safety, research and education funding, ability to accommodate current operations and future growth
Master Plan Consistency	#1 priority for NDSU; Chemistry is one of the original departments at NDSU; its students have long been vital to NDSU; its research has benefitted state, region, nation for 100+ years; disruptions to research and graduate education by having to stop operations during renovations vs. constructing a new building (or trying to conduct activities in outdated facilities) will severely hinder deliverables for major new grant in Chemistry and Biochemistry
Existing Space Condition	Complex is old, out-of-date, presents significant safety concerns for occupants; safety issues more critical because of building's location in center of campus
Consolidation of Services and Efficiencies	Consolidate Chemistry, Biochemistry, Geoscience, shared core laboratories and resultant equipment, personnel, methods and storage into single building; improved student educational opportunities; modern research laboratories planned for needs in accordance with current IBC standards
Removal of Existing Facilities	Current Dunbar Hall and possibly Geosciences Hall
Space Efficiency	Inadequate amount and quality of space for current level of activity; little to no growth capacity in either research or teaching limits growth in all other accredited STEM-related campus programs that depend heavily on sciences

Life Safety	Adequate space for teaching and research labs in medical health field important for life, health and safety protocols
Statutory Compliance	N/A
Deferred/Critical Maintenance	Project results in ability to address deferred maintenance in existing building
Program or Accreditation	Needed to address ACPE (Pharmacy) accreditation Physical Facilities standard violation; progress report on status of bringing it into full compliance expected within two years of the March 2014 ACPE Focused On-Site Evaluation visit; report stated: "The space available to the College is not keeping pace with its current rate of growth and limits the success of the pharmacy program. Managing growth of the College is the biggest issue facing the program."; failure could result in negative accreditation against Pharmacy program, negative impact in ability to continue current and future research growth, funding, quality of education and training for health profession students North Dakota Board of Nursing expects quality improvements in NDSU's program, including provision of appropriate space for simulation education, to satisfy Board of Nursing standards and criteria for continued program approval
Partial Legislative Funding	N/A
Significant Outside Support	N/A
High Priority for State	Only Pharmacy program in state; supplies 90% of current practicing pharmacists in North Dakota serving citizens' health care needs; 70-85% of Nursing graduates remain in state to practice nursing
Urgent Infrastructure Need	N/A
Master Plan Consistency	PNAS exemplifies three principal responsibilities of a land-grant university — Teaching, Research, Public Service; serves state, region, nation through programs providing education, research, patient care and public service; project essential to address goals of program expansion, growth in Nursing, Master of Public Health (MPH), two-way distance ed with Bismarck, new interprofessional education training requirements and new programs in Master of Health Administration (MHA), international nursing partnerships, nursing genetic counseling
Existing Space Condition	Recent on-site evaluations from accrediting bodies (Nursing and Pharmacy) cited both programs for lack of sufficient space, impacting programs' ability to address important quality improvements needed to meet current accreditation standards; non-compliance will place health profession programs at risk of possible negative accreditation action, negatively impacting ability to continue current (and future) growth of research programs and funding
Consolidation of Services and Efficiencies	All PNAS components incorporated into one area/facility, creating efficiencies and providing better opportunity for education within PNAS; returns components currently located in leased space into one facility
Removal of Existing Facilities	N/A
Space Efficiency	Unprecedented PNAS growth since mid 1990's - from 650 students and 40 employees to current 2,000 students and 156 employees, with only modest changes to physical facilities; resultant insufficient and inefficient quantity and quality of space attributing to accreditation issues; locating components to leased facilities necessitated due to lack of space

CAPITAL PROJECT RANKIN	G MATRIX FOR 2015-17 PROJECT PRIORITIZATION
Life Safety	Eliminate current life, health, safety issues; includes addition of adequate infrastructure to handle current needs; eliminate many multifunctional areas (i.e., research lab also operating as classroom and/or graduate student offices) that create health and safety issues; research and specialty equipment better served in new space vs. trying to make existing space fit need
Statutory Compliance	ADA compliance – only access to 2nd floor in CIE and ECE buildings is through Dolve Hall, use of freight elevator and then traveling outside on catwalks around Admin building to access other areas in complex; renovations will bring buildings up to current code; all new additional square footage will meet current codes
Deferred/Critical Maintenance	2008 report by Sasaki Strategies indicated deferred maintenance for Engineering facilities in excess of \$3,000,000; list has continued to grow
Program or Accreditation	Critical needs maintaining future accreditation of engineering and construction management programs; recent EAC (Engineering Accreditation Commission) report - Criterion 7. Facilities – "requires that classrooms, offices, labs, and associated equipment be adequate to support attainment of student outcomes and to provide atmosphere conducive to learning"; report cited unresolved concerns on inadequate and outdated space for modern engineering instruction, laboratory experiences and computer (technology) applications and "the potential exists for programs to fall out of compliance with this criterion in the future"; teaching, research and graduate student projects presently all housed in same rooms and facilities designed for smaller college serving undergraduate students and only a few Master's students – college currently houses 2,100+ undergraduate and 350 graduate students in Master's and Ph.D. programs; lack of space and current conditions have direct bearing on faculty recruitment and providing students with what could be construed as an incomplete education due to lack of appropriate space to meet academic needs; next general accreditation in college slated for 2018, allowing time to initiate and implement program of work to meet accreditation needs through 2024 and beyond
Partial Legislative Funding	N/A
Significant Outside Support	N/A
High Priority for State	Engineering is a critical need within state; firms are continually asking how to increase number of graduates from NDSU; infrastructure needs, expanding technology corridor activities and new start up companies seeking high quality graduates from NDSU
Urgent Infrastructure Need	College has limitations for academic success with current conditions; adequate infrastructure needed
Master Plan Consistency	Project has been listed in previous master plans; has been placed in top three project needs for current 2014 master plan revision
Existing Space Condition	No significant improvement to facilities since completed in late 1960's (55 years); space inadequate and outdated for modern engineering instruction, laboratory experiences and computer (technology) applications; recent accreditations commented about low quality and limited space in college not meeting current needs for undergraduate students in an engineering college; teaching, research and graduate student projects presently all housed in same rooms and facilities designed for smaller college serving undergraduate students and only a few Master's students – college currently houses 2,100+ undergraduate and 350 graduate students in Master's and Ph.D. programs; lack of space and current conditions have direct bearing on faculty recruitment and providing students with what could be construed as an incomplete education due to lack of appropriate space to meet academic needs; college is also leasing 5,000 square feet off campus due to lack of space.

CAPITAL PROJECT RANKING MATRIX FOR 2015-17 PROJECT PRIORITIZATION (CONTINUED)

Consolidation of Services and Efficiencies

Recently completed College of Engineering master plan identified numerous efficiency needs within its areas; needs were in classrooms, storage, office space, student spaces and labs; efficiencies will be achieved if plan followed

Removal of Existing Facilities

N/A

Space Efficiency

Same space previously dedicated to undergraduate education now houses more than 2,100 undergraduate and nearly 350 graduate students; space availability critically low; college lacks office space for new faculty, staff and graduate students; lacks adequate teaching lab, research, and teaching classroom space; spaces originally planned for 20 students in lab environment now serve four or five sections of 20 students per week, provide graduate research project space and are main labs for faculty research; college installed 24-hour card access to allow students time to complete work due to lack of space - not conducive to high quality education students deserve; faculty office space availability non-existent; conversion of smaller classrooms for new offices not possible due to campus classroom availability issues; courses being taught with no companion lab class due of lack of space; lack of quality lab space impacts ability to provide faculty with space needed to be competitive in research and in attracting best graduate students; recruiting best faculty also impaired by lack of space; STEM building will impact students taking general courses in first two years of education – however, were unable to program discipline-specific engineering courses and labs into STEM building

ENGINEERING - CURRENT FACILITY

Materials teaching lab used by multiple disciplines (Civil, Construction Engineering)

Teaching lab for 8-12 students shared with grad student office/cluster located in back of area

Storage issues in that same lab

Electrical room converted to faculty/ research lab

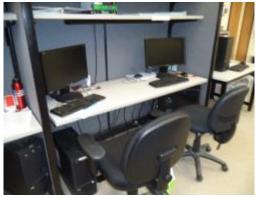

Lab not offered because lab size too small to accommodate 15 students

Grad offices located in aisle way to same lab, impeding egress

Senior design studio (13'x15') with four work stations used by 13 students

Two grad students sharing 2'x5' office space

CAPITAL PROJECT PRIORITY #3

ENGINEERING - CURRENT FACILITY

Biomed lab sharing space with grad/ senior design students

IME room 133 Area 1: Teaching classroom for 12

Faculty use hallway as office to consult with students, grade papers, etc. due to lack of space

IME room 133 Area 2: Material storage in room; narrow aisle is safety concern

Several hundred dollar (donated) robotic piece of equipment not used because of a lack of space and infrastructure

IME room 133 Area 3: Storage issue; chairs pulled into classroom area when in use

IME room 133 Area 4: Faculty/ research lab with station for department support technician

AQUATIC CENTER

EXPANSION TO WELLNESS CENTER FACILITIES

~29,000 square feet

- Locker facilities
- Aquatics facilities
- > Including indoor leisure and indoor competition pool
- Support facilities
- Provide facilities for NDSU students to swim for new exercise options and relaxation
 - › Lifetime recreational activity
 - > Component of physical wellness not offered
 - » Lack of functional swimming pool
- Expand teaching abilities
- Add intermural sporting options
- · Also open for use by faculty and staff

- Student body voted and approved project
- > April 2013 student-wide vote/approval
- > Information presented to/through:
- » ~50-60 student organizations
- » Two student open forums
- » Multiple informational email messages via listserv to entire student body and all 285 student organizations
- » Posters placed in Memorial Union and Wellness Center
- » Published in student newspaper (NDSU Spectrum)

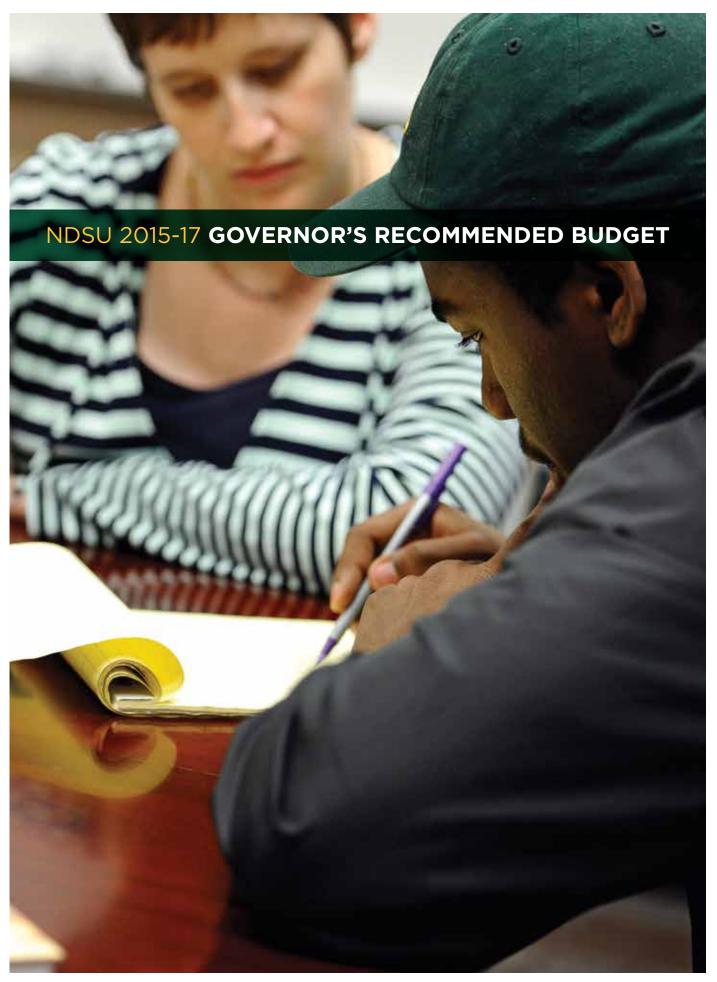

MINARD HALL – CAPITAL PROJECT REAUTHORIZATION

NDSU REQUESTS LEGISLATIVE AUTHORIZATION TO INCREASE THE TOTAL AUTHORIZATION FOR THE MINARD HALL PROJECT FROM \$22,874,300 TO \$23,474,300 AN INCREASE OF \$600,000.

As noted in a letter dated August 29, 2014 from the ND University System legal counsel, the increased authorization is needed because of a contractor on the Minard Hall project has made a claim for additional compensation. After receiving the contractor claim, contractually mandated mediation was held however the contractors claim was not settled during the mediation. A lawsuit has been commenced against the State of ND, the ND Board of Higher Education and NDSU by the contractor. NDSU requests an additional authorization of \$600,000 in order to cover a potential award in favor of the contractor and to pay for legal fees, expert fees and other costs associated with the ongoing litigation. This request was approved by the State Board of Higher Education on September 3, 2014.

The litigations related to this incident are on-going with the discovery process being scheduled to be complete as of June 30, 2014. Thereafter, expert disclosures and expert depositions will be started. The trial is scheduled for July 2015. Litigation costs have been higher than anticipated due to the fact that additional parties were required to be included in the litigation because of information revealed during the discovery process.

If legal settlements are less than the estimated costs, NDSU would seek direction from the SBHE for options to pay for the costs incurred, including the possible request for a deficiency appropriation from the Legislative Assembly. Updates on the project progress are provided regularly to the ND University System Chancellor and State Board of Higher Education.

Other Sections in Bill

Carryover authority - Section 7 continues the authorization through July 31, 2017, for institutions under the control of the State Board of Higher Education to carry over unexpended appropriations at the end of a biennium.

Minard Hall project - Section 10 authorizes North Dakota State University (NDSU) to continue 2007-09 and 2009-11 biennium appropriations for the Minard Hall project into the 2015-17 biennium. The section also requires NDSU to provide reports on the status of the project to Budget Section.

Transfer authority - Section 15 provides that the State Board of Higher Education may transfer funds from an institution's operations line item to the institution's capital assets line item if the board determines that additional funds are needed for capital projects or extraordinary repairs.

FTE positions - Section 17 authorizes the State Board of Higher Education to adjust FTE positions as needed for institutions and entities under its control.

Bond issue authorization - Section 18 authorizes the State Board of Higher Education to arrange for \$10 million of revenue bonds for an aquatic center project at NDSU.

Continuing Appropriations

Special revenue funds - Section 14 appropriates federal, private, and local funds received by institutions, including tuition revenue, during the 2015-17 biennium.

Significant Audit Findings

The State Auditor's office found NDSU has not established proper controls for student residency determinations and subsequent changes to student residency status.

Major Related Legislation

House Bill No. 1233 - Tuition Increase Prohibited - Prohibits tuition rate increases at all University System institutions during the 2015-17 biennium and provides a \$29.7 million general fund appropriation to the State Board of Higher Education to offset the financial impact of not allowing tuition rate increases.

The 2 state board of higher education may authorize the sale of any real property or buildings which 3 an institution of higher learning has received by gift or bequest. The board shall prescribe such 4 conditions for the sale of the property as it determines necessary. The conditions must include 5 requiring an appraisal and public auction or advertisement for bids, unless the gift instrument 6 requires a different process. If the state board of higher education submits a request for campus 7 improvements, building maintenance, or to construct buildings under this section to the budget 8 section for approval, the legislative council shall notify each member of the legislative assembly 9 of the date of the budget section meeting at which the request will be considered and provide a 10 copy of the meeting agenda to each member of the legislative assembly. The chairman of the 11 budget section shall allow any member of the legislative assembly an opportunity to present 12 testimony to the budget section regarding any such request.
 - **SECTION 7. AMENDMENT.** Subsection 3 of section 15-10-17 of the North Dakota Century Code is amended and reenacted as follows:
- 3. <u>a.</u> SetCharge tuition and feesin the amounts established by the legislative
 assembly.
 - <u>b.</u> <u>Charge fees subject to any statutory limitations or requirements.</u>
- 18 **SECTION 8.** A new section to chapter 15-10 of the North Dakota Century Code is created and enacted as follows:

Capital project requests - Maintenance reserve account.

- 21 Every new building project funding request and building maintenance funding request 22 submitted for approval to the legislative assembly or to the budget section of the legislative 23 management under section 15-10-12.1 must conform to campus master plan and space 24 utilization studies completed by or for the state board of higher education. Each new building 25 project request exceeding five million dollars must include a funding request for future 26 maintenance costs equal to three percent of the project cost. The future maintenance funds must be deposited in an account under the control of the state board of higher education to be 27 28 used only for future maintenance costs of buildings subject to this section.
 - **SECTION 9.** A new section to chapter 15-10 of the North Dakota Century Code is created and enacted as follows:

Required use of electronic mail, file ser	ver administration, database administration,
application server, and hosting services.	

Each institution and entity under the control of the state board of higher education shall obtain electronic mail, file server administration, database administration, storage, application server, and hosting services through a delivery system established by the board. The board shall establish policies and guidelines for the delivery of services, including the transition from existing systems to functional consolidation, with consideration given to the creation of efficiencies, cost-savings, and improved quality of service.

SECTION 10. A new section to chapter 15-10 of the North Dakota Century Code is created and enacted as follows:

Audits of computer systems - Penalty.

- 1. Any auditor hired to conduct audits of the state board of higher education and the entities under the control and supervision of the board may:
 - a. Conduct a review and assessment of any computer system or related security system of the state board of higher education or any entity under the control and supervision of the board. A review and assessment under this section may include an assessment of system vulnerability, network penetration, any potential security breach, and the susceptibility of the system to cyber attack or cyber fraud.
 - b. Disclose the findings of a review and assessment to an individual or committee designated by the state board of higher education or to the board. 31	and ena	acted	as fo	llows:				

State board of higher education audits.

- 1. The state auditor shall employ an audit manager to perform all audit related functions of the state board of higher education, including the examination and evaluation of the adequacy and effectiveness of the board's governance, risk management, internal controls, and performance of constitutionally and statutorily required duties. The audit manager shall conduct audits, as determined appropriate by the state auditor, of each institution under the supervision and control of the state board of higher education.

 The audit manager shall consult with the state board of higher education, or a committee designated by the board, regarding audit plans, results of audit activities, and any other appropriate issue. This section does not require the state auditor to perform any duties that would compromise the auditor's independence under government auditing standards.
- 2. The audit manager may access and examine any record under the control of the state board of higher education. For purposes of reviewing records under the Family Educational Rights and Privacy Act [20 U.S.C. 1232g; 34 CFR 99] or any other federal privacy law, the audit manager must be considered an agent of the state board of higher education.
- 3. The state auditor may hire employees necessary to carry out the duties and responsibilities of this section. The state auditor may hire consultants to assist with any duties required under this section subject to approval by the legislative audit and fiscal review committee. The state board of higher education shall pay for the cost of any consultant approved under this section.

SECTION 22. AMENDMENT. Section 54-12-08 of the North Dakota Century Code is amended and reenacted as follows:

54-12-08. Assistant and special assistant attorneys general - Appointment - Revocation - Compensation.

After consultation with the head of the state department or institution or with the state board, commission, committee, or agency affected, the attorney general may appoint assistant or special assistant attorneys general to represent the state board, commission, committee, or agency. A state officer, head of any state department, whether elected or appointed, or state department, board, commission, committee, or agency may not employ legal counsel, and no

28

amended and reenacted as follows:

1 person may act as legal counsel in any matter, action, or proceeding in which the state or any 2 state department, board, commission, committee, or agency is interested or is a party, except 3 upon written appointment by the attorney general. Workforce safety and insurance, the 4 department of transportation, the state tax commissioner, the public service commission, the 5 insurance commissioner, the board of higher education, and the securities commissioner may 6 employ attorneys to represent them. These entities shall pay the salaries and expenses of the 7 attorneys they employ within the limits of legislative appropriations. The attorneys that represent 8 these entities must be special assistant attorneys general appointed by the attorney general 9 pursuant to this section. Absent good cause, the attorney general shall appoint as special 10 assistant attorneys general licensed attorneys selected by these entities. The attorney general 11 may revoke the appointment only for good cause or upon the request of the entity. Good cause 12 means an inadequate level of experience, competence, or ethical standards. The powers 13 conferred upon special assistant attorneys general are the same as are exercised by the 14 regular assistant attorneys general, unless the powers are limited specifically by the terms of 15 the appointment. Except as otherwise provided by this section, an appointment is revocable at 16 the pleasure of the attorney general. The appointment may be made with or without 17 compensation, and when compensation is allowed by the attorney general for services 18 performed, the compensation must be paid out of the funds appropriated therefor. The attorney 19 general may require payment for legal services rendered by any assistant or special assistant 20 attorney general to any state official, board, department, agency, or commission and those 21 entities shall make the required payment to the attorney general. Moneys received by the 22 attorney general in payment for legal services rendered must be deposited into the attorney 23 general's operating fund. General fund moneys may not be utilized for the payment of legal 24 services provided by the attorneys employed by the attorney general, except for those 25 payments required of the department of human services, state department of health, and the 26 state hospital. 27 SECTION 23. 54-44.1-04. Budget estimates of budget units filed with the office of the budget - Deadline.

The head of each budget unit, not later than July fifteenth of each year next preceding the session of the legislative assembly, shall submit to the office of the budget, estimates of financial requirements of the person's budget unit for the next two fiscal years, on the forms and in the manner prescribed by the office of the budget, with such explanatory data as is required by the office of the budget and such additional data as the head of the budget unit wishes to submit. The estimates of financial requirements for budget units under the control of the state board of higher education must be made using the same forms, supporting information, and documentation as other budget units. Any request for a new full-time or part-time permanent position included in a budget unit's estimate of its financial requirements for the next two fiscal years must include documentation justifying the need for the position. The documentation must describe the circumstances resulting in the need for the position and identify the number of hours the position will be involved in specific types of activities and the anticipated outcomes of the activities. The estimates so submitted must bear the approval of the board or commission of each budget unit for which a board or commission is constituted. The director of the budget may extend the filing date for any budget unit if the director finds there is some circumstance that makes it advantageous to authorize the extension. If a budget unit has not submitted its estimate of financial requirements by the required date or within a period of extension set by the director of the budget, the director of the budget shall prepare the budget unit's estimate of financial requirements except the estimate may not exceed ninety percent of the budget unit's previous biennial appropriation. The director of the budget or a subordinate officer as the director shall designate shall examine the estimates and shall afford to the heads of budget units reasonable opportunity for explanation in regard thereto and, when requested, shall grant to the heads of budget units a hearing thereon which must be open to the public.

SECTION 24. AMENDMENT. Subsection 4 of section 54-44.1-06 of the North Dakota Century Code is amended and reenacted as follows:

4. Detailed comparative statements of expenditures and requests for appropriations by funds, budget units and classification of expenditures, showing the expenditures for the previous biennium, the first fiscal year of the present biennium, the budget of the current biennium, and the governor's recommendation for appropriations for each

budget unit for the next biennium, all distributed according to the prescribed classification of expenditures. Following the lists of actual and proposed expenditures of each budget unit there must be a brief explanation of the functions of the unit and comments on its policies and plans and on any considerable differences among the amounts recommended, with any descriptive, quantitative, comparative, and other data as to work done, unit costs, and like information as may be considered necessary or desirable. For capital outlay expenditures involving construction projects to be completed in two or more fiscal years, there must be shown the total estimated cost of each such project and the amount thereof recommended to be appropriated and expended in each ensuing fiscal year until completion of the project. Capital outlay needs may be projected for at least two years beyond the period covered by the budget. The detailed comparative statements of budget units under the control of the state board of higher education must include the same information presented for other budget units.

SECTION 25. AMENDMENT. Section 54-44.1-11 of the North Dakota Century Code is amended and reenacted as follows:

54-44.1-11. (Effective through July 31, 20152017) Office of management and budget to cancel unexpended appropriations - When they may continue.

Except as otherwise provided by law, the office of management and budget, thirty days after the close of each biennial period, shall cancel all unexpended appropriations or balances of appropriations after the expiration of the biennial period during which they became available under the law. Unexpended appropriations for the state historical society are not subject to this section and the state historical society shall report on the amounts and uses of funds carried over from one biennium to the appropriations committees of the next subsequent legislative assembly. Unexpended appropriations for the North Dakota university system are not subject to this section and the North Dakota university system shall report on the amounts and uses of funds carried over from one biennium to the next to subsequent appropriations committees of the legislative assembly. - 8 SECTION 27. SYSTEMWIDE FUNDING POOLS TRANSFER AUTHORITY -
 - **LEGISLATIVE MANAGEMENT REPORT.** The following line items contained in subdivision 1 of section 1 of this Act include funding that may be transferred in full or in part as provided in this section for the period beginning with the effective date of this Act and ending June 30, 2017, by the state board of higher education to the institutions and entities under its control as follows:
 - The deferred maintenance funding pool line item includes funding that must be used to address deferred maintenance and other infrastructure needs at institutions based on university system master plan and space utilization studies.
 - The education incentive programs line item includes funding that may be allocated to
 education incentive programs based on program eligibility criteria and the reduction or
 elimination of specific programs as determined by the board.
 - The campus security funding pool line item includes funding that must be used to address security needs at institutions based on campus risk and security assessments.
 - 4. The extraordinary repairs funding pool line item includes funding that must be used to address infrastructure needs at institutions and forest service facilities based on university system master plan and space utilization studies and identified needs of the forest service.

The state board of higher education may not transfer any funding from the deferred maintenance funding pool or the extraordinary repairs funding pool to an institution or entity under its control unless the institution or entity has submitted a comprehensive space utilization study to the board. The comprehensive space utilization study must include a review of current space for instruction, academic support, student services, and administration; the current utilization of each type of space; and the projected future needs for each type of space. The

 for the project.

state board of higher education shall provide reports to the legislative management during the 2 2015-16 interim regarding distributions from the deferred maintenance, campus security, and 3 extraordinary repairs funding pools.

SECTION 28. CAMPUS CAPITAL PROJECTS - PROJECT MANAGEMENT. During the biennium beginning July 1, 2015, and ending June 30, 2017, each capital project authorized by the state board of higher education must have adequate project management oversight by either an institution official or a representative of an external entity. An institution may seek assistance from the university system office for project management oversight of a capital project.

SECTION 29. NORTH DAKOTA STATE UNIVERSITY - MINARD HALL -

REAUTHORIZATION - BUDGET SECTION REPORT. - 4 unexpended appropriation authority for the project is not subject to section 54-44.1-11 and the
- 5 office of management and budget shall cancel the remaining unexpended appropriation
- 6 authority on the effective date of this section.

7 SECTION 37. STATE FLEET REIMBURSEMENT - TRANSFER. Notwithstanding any other

8 provision of law, the university of North Dakota shall transfer the sum of \$375,000 to the

department of transportation for costs associated with previous use by the institution of state

fleet services motor coaches and North Dakota state university shall transfer the sum of

11 \$375,000 to the department of transportation for costs associated with previous use by the

institution of state fleet services motor coaches. The university of North Dakota and North

Dakota state university shall transfer the funds as directed under this section to the department

of transportation prior to January 1, 2016.

SECTION 38. STATE BOARD OF HIGHER EDUCATION - EVALUATION OF

EMPLOYEES. The state board of higher education shall conduct or contract for comprehensive

performance evaluations of the president and each individual designated as a vice president of

an institution under the supervision and control of the board and of the commissioner of higher

19 education and each individual within the university system office with the title of "vice

20 chancellor". Each performance review must include participation and input from the individual's

subordinates, peers, supervisors, and other appropriate individuals, as well as the individual

being evaluated. Each performance review must include an analysis of the individual's

contribution and performance in leadership, teamwork, interpersonal communication,

24 management, contribution, work habits, interpersonal interaction, and accountability.

25 Notwithstanding any provision of law, any record created or collected in the conduct of a

performance review under this section and the report of each performance review is a public

record. This section does not apply to any individual who has served in their respective position

for less than three years as of July 1, 2015.

 systems;
- Lack of use of standard chart of accounts for financial reporting and standard
 department budget table deduction and tax override flags;
- Absence of standard business processes for recording mandatory fees and forchanging payroll funding source information;
 - Inconsistent methods and procedures at institutions for recording high school completions, identifying student cohorts for reporting purposes, and classifying agency funds;
- 12 5. Inconsistent practices and policies at institutions for awarding tuition waivers, admitting students, using purchasing card, charging tuition and fees, and accruing of faculty sick leave;
- 15 6. Inconsistent coding and naming for bad debt expense and journal entries;
- 16 7. Use of shadow accounting systems for reporting purposes; and
- 8. Inconsistent definitions for a distance education student, a resident student for tuition
 purposes, and a full-time student for federal tax purposes.
- The state board of higher education shall provide a report to the appropriations committees of the sixty-fifth legislative assembly regarding the status of the inconsistencies, including policies and procedures implemented to correct the inconsistencies.
 - SECTION 40. HIGHER EDUCATION INSTITUTION PERMANENT FUNDS REPORT TO SIXTY-FIFTH LEGISLATIVE ASSEMBLY. The state board of higher education shall provide a report to the appropriations committees of the sixty-fifth legislative assembly regarding the use of funds received by institutions under its control from permanent fund income established for the benefit of the institutions in section 1 of article IX of the Constitution of North Dakota.
 - SECTION 41. EXTRAORDINARY CAMPUS NEEDS FUNDING REPORT TO THE SIXTY-FIFTH LEGISLATIVE ASSEMBLY. The operations line item in subdivision 4 of section 1 of this Act includes the sum of \$2,500,000 for extraordinary campus needs at Williston state college. Williston state college shall provide a report to the appropriations committees of the

sixty-fifth legislative assembly regarding the use of this funding and the need to continue the funding in to the biennium beginning July 1, 2017, and ending June 30, 2019.

SECTION 42. LEGISLATIVE MANAGEMENT STUDY - HIGHER EDUCATION COURSE

DELIVERY METHODS. During the 2015-16 interim, the legislative management shall consider studying the delivery methods of higher education courses offered by institutions under the control of the state board of higher education. The study, if conducted, must include a review of current methods of distance education offered by institutions, options to improve delivery methods, revenue generated by each type of delivery method, and how course delivery methods may affect future campus infrastructure needs. The legislative management shall report its findings and recommendations, together with any legislation required to implement the

recommendations, to the sixty-fifth legislative assembly.

SECTION 43. LEGISLATIVE MANAGEMENT STUDY - INSTITUTION MISSIONS. During the 2015-16 interim, the legislative management shall study the missions of all two-year institutions and the missions of any other institutions under the control of the state board of higher education, as determined by the legislative management, including the feasibility and desirability of the institutions offering only workforce and career and technical education programs. The study must review the current missions of the institutions, current and projected course and program enrollments, projected workforce needs, including how the institutions can serve the needs, and options to increase operating efficiencies. The legislative management shall report its findings, together with any legislation necessary to implement the findings, to the sixty-fifth legislative assembly.

SECTION 44. EMERGENCY. Sections 10, 27, 35, and 36 and the capital assets, extraordinary repairs pool, campus security pool, and deferred maintenance pool line items in section 1 of this Act are declared to be an emergency measure.

¹ Funding is added for the following general fund salary and benefit adjustments for the University System office, Core Technology Services, and Forest Service:

	University System Office	Core Technology Services	Forest Service	Total
Cost-to-continue 2013-15	\$74,151	\$273,490	\$48,974	\$396,615

biennium Health insurance premium increases	142,127	416,173	116,574	674,874
Total	\$504,073	\$1,591,180	\$326,982	\$2,422,235

The number of 2013-15 biennium authorized FTE positions is adjusted for institutions and entities under the control of the State Board of Higher Education by adding 113.21 FTE positions pursuant to Section 36 of 2013 Senate Bill No. 2003 which authorizes the board to adjust FTE positions as needed subject to the availability of funds.

- ² Funding for the University System office is adjusted as follows:
 - General fund appropriations for capital bond payments are reduced by \$2,067,209 to reflect lower estimated bond payments.
 - Federal funding of \$288,696 and 1 FTE position is transferred to the Department of Veterans' Affairs for the State Approving Agency.
 - General fund appropriations for University System governance and operations are reduced by \$2 million.
 - General fund appropriations for tribal college assistance grants are reduced from the base level of \$1 million to \$500,000.
 - Funding from the general fund for student mental health services is increased by \$33,480.
 - One-time funding from the general fund of \$110,000 is added for open educational resources training.
- ³ Funding from the general fund is added for the following Core Technology Services initiatives:

	Ongoing	One-Time	
Initiative	Funding	Funding	Total
Information technology security	\$152,900	\$1,350,000	\$1,502,900
Centralized document imaging	915,400	270,000	1,185,400
Predictive analytics reporting and other student success initiatives	1,910,000	181,500	2,091,500
Identity management system		1,020,000	1,020,000
Total	\$2,978,300	\$2,821,500	\$5,799,800

⁴ Funding is added for student financial assistance programs to:

- Increase the maximum student financial assistance grant award (needs-based aid) amount from \$1,650 per year to \$1,950 per year.
- Increase the academic and career and technical education scholarship award (merit-based aid) amount from \$1,500 per year to \$1,950 per year with a lifetime maximum of \$7,800.

Section 6 of the bill is amended to provide the statutory adjustments needed to increase the academic and career and technical education scholarship award amount. Sections are also added to repeal North Dakota Century Code Chapter 15-62.2 which relates to the student financial assistance grant program and the scholars program and to add two new chapters regarding the programs. The new chapters provide the statutory adjustments needed to increase the student financial assistance grant award amount and to provide clarification regarding residency requirements for the programs and the ability to distribute awards on a semester or quarterly basis.

- ⁵ University System internal audit legal functions are removed as follows:
 - General fund base funding of \$771,964 and 7 internal audit FTE positions are removed.
 - General fund base funding of \$2,558,140 and 8.6 legal FTE positions are removed.
- ⁶ Funding is added for the following pools to be transferred by the State Board of Higher Education to institutions and entities under its control:
 - A \$5 million deferred maintenance funding pool is added and is to be distributed to institutions based on campus master plan and space utilization studies.
 - A \$3 million campus security pool is added and is to be distributed to institutions based on campus security and risk
 assessments

Section 8 of the bill is amended to provide transfer authority for the funding pools.

A contingent appropriation of \$50,000 is added from the general fund for a unified system of workforce, vocational, and technical education. The appropriation is contingent upon the State Board of Higher Education certifying to the Office of Management and Budget that a unified system of workforce, vocational, and technical education has been established. The board is to provide reports to the Legislative Management regarding the status of establishing the unified system.

- Funding of \$431,627 previously used by campuses to pay internal audit assessments is removed.
- Funding of \$224,500 is removed from campus budgets for predictive analytics and student success programs.
- Funding of \$366,825 is removed from campus budgets for document imaging.

Funding for document imaging and predictive analytics and student success services is added to the University System office budget to provide consolidated systemwide services. Please see the "Adds Funding for Core Technology Services Initiatives" footnote for additional information.

¹⁰ The following funding adjustments are made based on the higher education funding formula and other adjustments:

	General Fund
Bismarck State College	\$4,015,574
Dakota College at Bottineau	(10,453)
Lake Region State College	2,857,081
North Dakota State College of Science	3,550,254
Williston State College	(519,108)
Dickinson State University	(1,068,842)
Mayville State University	643,518
Minot State University	3,035,365
Valley City State University	1,266,020
North Dakota State University	10,810,835
University of North Dakota	12,563,795
Total	\$37,144,039

The funding formula adjustments are based on 2011-13 biennium completed student credit hours. Sections are also added to the bill to provide for statutory adjustments to the funding formula remedial education factor rate, credit completion factor rates, and institutional size factor rates.

The adjustments include the removal of \$2.5 million of base funding provided to Minot State University during the 2013-15 biennium for flood recovery needs.

¹¹ Funding is added for the following University of North Dakota School of Medicine and Health Sciences initiatives:

	General Fund
RuralMed program	\$996,843
Health care workforce initiative (includes the	13,814,806
addition of 21 FTE positions)	
Residency positions	<u>4,700,000</u>
Total	\$19,511,649

The funding for the health care workforce initiative and residency positions is considered one-time funding.

House Bill No. 1003 - Other Changes - House Action

This amendment also:

- Amends Section 15-10-12.1 regarding legislative approval for campus building and maintenance projects.
- Amends Section 15-10-17 regarding the authority to set tuition and fees at institutions of higher education.

Funding is removed for the following campus assessments and consolidated services:

Base funding for extraordinary repairs is transferred from campuses and the Forest Service to the University System office for an extraordinary repairs funding pool. Funds in the pool are to be distributed to campuses and the Forest Service based on campus master plan and space utilization studies and identified needs of the Forest Service.

¹² Funding from the general fund is added for Phase II of the University of North Dakota School of Medicine and Health Sciences facility project (\$62 million) and for special assessments payments at campuses (\$4,250,689).

- Adds a new section to Chapter 15-10 to require capital projects to conform to University System master plan and space utilization studies and to require future capital project budget requests for new buildings over \$5 million to include a 3 percent funding request for future building maintenance costs.
- Adds a new section to Chapter 15-10 relating to consolidated use of electronic mail, file server administration, database administration, application server, and hosting services by higher education institutions.
- Adds a new section to Chapter 15-10 to exempt computer audit risk assessment results from open records requirements.
- Adds two new sections to Chapter 15-10 to create a unified workforce, vocational, and technical education program system and to create a workforce education advisory council.
- Amends Sections 54-44.1-04 and 54-44.1-06 to require budget requests of institutions and entities under the control of the State Board of Higher Education to include the same detailed information as budget requests of other state agencies.
- Amends Section 16 of the bill to cancel the appropriation authority provided for a 2013-15 biennium higher education performance funding pool.
- Cancels \$550,000 of the 2013-15 biennium general fund appropriation for the University of North Dakota Bismarck Family
 Practice Center skywalk project and requires the remaining funding of \$200,000 to be provided as a grant for the development of
 civics curriculum.
- Requires University System institutions to reimburse the Department of Transportation for costs associated with previous use of State Fleet Services motor coaches.
- Requires comprehensive performance evaluations of the chancellor, vice chancellors, institution presidents, and institution vice presidents if the individuals have been employed in those positions for at least three years.
- Requires the State Board of Higher Education to address identified data inconsistency issues and report to the 65th Legislative Assembly regarding the status of the inconsistencies.
- Requires the State Board of Higher Education to provide a report to the appropriations committees of the 65th Legislative Assembly regarding the use of funds received by each campus from permanent constitutional fund income distributions.
- Requires Williston State College to provide a report to the appropriations committees of the 65th Legislative Assembly regarding the use of extraordinary campus needs funding.
- Provides for a Legislative Management study of higher education course delivery methods.
- Provides for a Legislative Management study of the missions of institutions under the control of the State Board of Higher Education.

North Dakota State University

General Fund Priorities

- Support full funding of the Higher Education Funding Formula, including the inflation factor to fund the state share of the compensation increases and utility cost increases, as included in the Executive Recommendation
- Support the funding of Dunbar Hall II, as approved by the SBHE as a Life/Safety Priority Capital Project
- Restore 2013-15 Extra-ordinary repair base funding to campus budgets; NDSU \$2,732,244
- Support additional Extra-ordinary repair base funding, as included in the Executive Recommendation; NDSU \$1,729,111

Other Fund Priorities

- Restore additional authorization of \$600,000 requested for Minard Hall in response to a legal claim
- Restore the \$11M student approved and funded Aquatic Center bonding project for legislative authorization

Sections of HB1003

- Section 4 and 5: remove; allow university system to retain legal and audit staff in order to meet reporting and compliance requirements.
- Section 6: remove; additional legislative approval requirements on non-state funded projects over \$385,000 will delay campus ability to respond to needs timely, creates inefficient use of construction timelines with delays resulting in potential increased construction costs.
- Section 7: remove; allow the State Board of Higher Education to continue to approve tuition rates.
- Sections 14, 15, 16: remove; support and restore the Higher Education funding formula as included in the Executive Recommendation.
- Section 23 and 24: remove; allow university system to continue to submit budgets via IBARS with the current process and line items; administrative burden impact due to this change would be significant.
- Section 27: restore extraordinary repairs Base funding to campus in order to facilitate institutional planning for capital needs, remove delayed use of funds requirement pending space utilization study completion.
- Section 29: support continuation of Minard Hall spending authorization.
- Section 37: remove; assessment for DOT state fleet motor coach usage.
- Section 38: remove; prescribed evaluations of campus Vice Presidents could be detrimental to the feedback process and could be personally damaging to employees.
- Section 39: remove; presumes items listed to be the highest priority of work to improve efficiency and effectiveness; lack of adequate staff resources to lead and coordinate identified projects.

ND HIGHER EDUCATION CHALLENGE FUND QUARTERLY REPORT NORTH DAKOTA UNIVERSITY SYSTEM

The purpose of the Quarterly Report is to inform members of the Higher Education Challenge Committee and other stakeholders, of the status, progress and use of the state funds appropriated from the Higher Education Challenge Fund. Specifically, the report is to provide an update on the amount of funds distributed, assurances that private sector funds pledged are collected as anticipated and provide an opportunity for institutions to report any modifications or accomplishments as a result of the funding.

Complete form for only those projects that have been approved by the Challenge Grant Revi

Re: Request for Increase to Minard Hall Project Authorization

Date: August 29, 2014

NDSU will likely need to increase its current state appropriated authorization on the Minard Hall project from \$22,874,300 to \$23,474,300. The increased authorization is needed because a contractor on the Minard Hall Project, Grant's Mechanical, Inc. ("GMI"), has made a claim for additional compensation.

After receiving GMI's claim, an initial determination was made by the project architect that GMI was entitled to an additional sum of \$137,000. GMI rejected this sum and proceeded with contractually mandated mediation. During the mediation, the contractor demanded an additional sum of \$450,000. The contractor's claim was not settled during mediation. A lawsuit has now been commenced against the State of North Dakota, the North Dakota Board of Higher Education and NDSU by the contractor. GMI did not specify its damages in the litigation, so NDSU utilized GMI's mediation demand as the basis for potential damages.

NDSU requests an additional authorization of \$500,000 in order to cover a potential award in favor of the contractor and to pay for legal fees, expert fees and other costs associated with the ongoing litigation.

COST RECOVERY/LITIGATION STATUS AS OF DECEMBER 11, 2013:

- Two additional defendants have been added to the lawsuit against JLG Architects, Heyer Engineering and Northern Technologies, Inc. The new parties are Meinecke-Johnson (the project's general contractor) and Earth Developers (the project's excavating contractor). The new claims are based upon, among other things, defective means and methods allegedly used in the construction of the excavation.
- Written discovery is voluminous and took longer than anticipated, especially with the addition of two new defendants. Five depositions were taken in November, 2013 and additional depositions will be conducted. The trial in the lawsuit against the JLG and others is scheduled to commence on March 3, 2015. The Court has not yet set a trial date in the lawsuit against the State Fire and Tornado Fund.

PROJECT STATUS AS OF DECEMBER 11, 2013:

- The Minard Hall project is substantially complete and as of the fall 2013 academic term is in full operation. Remaining punch list items are being reviewed and finalized. We continue to work with contractors on project closeout documents and remaining/outstanding payment requests; continued document review before final pay applications are approved.
- Collapse related costs continue to be incurred as a result of three items:
 - 1. Ongoing Legal fees;
 - 2. Contractors have requested additional costs be covered due to project delays;
 - 3. Replacement of furniture lost due to the collapse.

General Counsel Testimony: Budget Section December 11, 2013

My name is Christopher Wilson, and I am the General Counsel of North Dakota State University. I am here today to update the Budget Committee on the University's on-going efforts to recover its damages, expenses and costs resulting from the collapse of Minard Hall.

As I have previously reported, attorney Daniel Hull with the law firm of Anderson, Bottrell, Sanden & Thompson in Fargo represent NDSU in its recovery efforts. Through Mr. Hull's efforts, NDSU has commenced two different lawsuits pertaining to the Minard collapse. Both lawsuits are venued in the State District Court in Fargo (East Central Judicial District).

In the first litigation, NDSU brought suit against the North Dakota State Fire and Tornado Fund which provides property insurance to NDSU. After the collapse, the Fund denied that there was coverage for the collapse. As a result, NDSU commenced a declaratory judgment action against the Fund. NDSU is requesting a judgment that the Fund's insurance policy covers damages sustained by NDSU as a result of the collapse.

In the second lawsuit, the plaintiff is the State of North Dakota, by and through NDSU and the North Dakota State Board of Higher Education. The initial defendants were JLG Architects, Heyer Engineering and Northern Technologies, Inc., which were the project's architectural firm, the structural engineering firm and the geotechnical engineering firm. The lawsuit alleged, among other things, that the defendants:

- Failed to obtain, require or recommend sufficient soil testing and evaluation to properly design a deep basement and the associated excavation adjacent to the north end of Minard Hall;
- (2) Provided a defective design for the excavation adjacent to the north end of Minard Hall; and
- (3) Failed to determine that the excavation was defective prior to the collapse and take steps to prevent the collapse.

Earlier this year, two additional defendants were added to the second lawsuit. They are Meinecke-Johnson, the project's general contractor, and Earth Developers, the project's excavating contractor. The new claims are based upon, among other things, defective means and methods allegedly used in the construction of the excavation.

In both lawsuits, written discovery and depositions are ongoing, including five depositions which were taken in November of 2013. The trial in the lawsuit against the JLG and others is scheduled to commence on March 3, 2015. The Court has not yet set a trial date in the lawsuit against the State Fire and Tornado Fund.

That concludes our prepared statements, and we would be happy to answer any questions that you may have. Thank you.

PROJECT STATUS AS OF SEPTEMBER 24, 2013, SBHE MEETING:

- The Minard Hall project is substantially complete and is in full operation for the Fall 2013 academic term with remaining punch list items being reviewed and completed.
- The collapse-related costs continue to be realized as a result of three items:
 - 1. Legal fees continue to be incurred.
 - 2. Contractors have asked for delay-related expenses that are being reviewed.
 - 3. Replacement of furniture lost due to the collapse.

The new claims are based upon, among other things, defective means and methods allegedly used in the construction of the excavation.
- Written discovery is voluminous and has taken longer than anticipated, especially with the addition of two new defendants, but it is estimated that it will soon be complete and depositions will then begin. It is unknown when the trials will occur, but they would be at least one year away.

NDSU IS REQUESTING THAT THE SBHE CONSIDER AND PASS THE FOLLOWING MOTIONS AS OF SEPTEMBER 24, 2013:

First Motion: To amend the following underlined part of a motion previously approved by the SBHE on November 17, 2011, which currently reads:

Authorize NDSU to proceed with completion of the Minard Hall at an estimated cost of \$22,874,300 to be funded with \$17,500,000 million in state general fund appropriation, \$500,000 gift funds, and \$4,874,300 from a 2011-13 deficiency appropriation.

with the following underlined language:

Authorize NDSU to proceed with completion of the Minard Hall at an estimated cost of \$22,874,300 to be funded with \$17,500,000 million in state general fund appropriation, \$500,000 gift funds, and \$4,874,300 from a <u>future</u> deficiency appropriation.

Second Motion: To amend the following underlined part of a motion previously approved by the SBHE on November 17, 2011, which currently reads:

Authorize NDSU to carry a deficit fund balance on the Minard Hall project as a temporary funding source after the original \$18,000,000 of appropriated authority has been expended, until a state general fund deficiency appropriation for NDSU is authorized during the <u>2013</u> legislative session.

with the following underlined language:

MOTIONS PASSED AT SEPTEMBER 24, 2013 SBHE MEETING

MINARD HALL COLLAPSE COST RECOVERY/LITIGATION STATUS AS OF DECEMBER 31, 2012:

- NDSU retained the services of attorney Daniel Hull with the law firm of Anderson, Bottrell, Sanden & Thompson in Fargo to represent the University in its recovery efforts.
- Through Mr. Hull's efforts, NDSU has commenced two different lawsuits pertaining to the Minard collapse.
 Both lawsuits are venued in the State District Court in Fargo (East Central Judicial District).
- In the first litigation, NDSU brought suit against the North Dakota State Fire and Tornado Fund which provides property insurance to NDSU. After the collapse, the Fund denied that there was coverage for the collapse. As a result, NDSU commenced a declaratory judgment action against the Fund. NDSU is requesting a judgment that the Fund's insurance policy covers damages sustained by NDSU as a result of the collapse.
- In the second lawsuit, the plaintiff is the State of North Dakota, by and through NDSU and the North Dakota State Board of Higher Education. The defendants are JLG, Heyer Engineering and NTI, which are the architectural firm, the structural engineering firm and the geotechnical engineering firm involved in the Minard

Hall project. The lawsuit alleges, among other things, that the defendants:

- failed to obtain, require or recommend sufficient soil testing and evaluation to properly design a deep basement and the associated excavation adjacent to the north end of Minard Hall;
- (2) provided a defective design for the excavation adjacent to the north end of Minard Hall; and
- (3) failed to determine that the excavation was defective prior to the collapse and take steps to prevent the collapse.
- In accordance with the construction contract, claims also have been initiated against the project's general contractor, Meinecke-Johnson. The claims are based upon, among other things, defective means and methods allegedly used in the construction of the excavation.
- Written discovery is voluminous and has taken longer than anticipated, but it is estimated that it will soon be complete and depositions will then begin. It is unknown when the trials will occur, but they would be at least one year away.

AUGUST 31, 2012: 1901 (SOUTH) BUILDING SECTION RENOVATION:

Estimated completion date: Mid-to-late spring 2013

- · Asbestos abatement process (referenced in this summary) began the first of September and was completed the first week of November 2011
- · Project scope was complex with demolishing much of the interior, building new structural framing system to support attic office space and new roof, creating more efficient space
- Structural voids and lack of structural integrity discovered once framing of bearing walls was exposed; resulted in additional design time, pricing time, material costs, wall reframing, and project completion time
- Poor masonry bearing wall conditions were uncovered:
 - > Masonry wall at NW portion of 4th floor found to be in poor condition; required complete removal down to third floor level; testing currently under way to verify compressive strength and physical characteristics of remaining masonry to ensure ability to support new roof loads; could delay completion of 1901 section, but impact won't be known until final test results are received
 - > Poor 4th floor bearing wall between 1901 and 1918 sections (masonry intermixed with wood) required removal and rebuilding/infilling of the wall
 - Openings cut through bearing masonry walls had no or very inadequate lintels requiring new masonry infill or installation of new lintels to carry load above opening

- Issues required numerous job site trips by structural engineer and architect to re-engineer/redesign modifications to existing structural system
- Renovation work on section estimated to be completed mid-to-late spring 2013, depending on testing results stated previously

1901 (south) building section: mortar issues in the brick masonry

1918 (CENTER) BUILDING SECTION RENOVATION Estimated completion date: December 2012

 Work progressing on schedule for December 2012 completion date; however, some systems and components are tied to 1901 section, so full utilization may not be realized until 1901 area is completed

NORTH ADDITION

Estimated Completion Date: December 2012

- Footings and foundation walls were completed in October 2011
- Steel frame installations also began at that time
- Sheet rocking is progressing, windows are installed, brick exterior is approximately 30% completed, and most infrastructure items are installed
- Substantial completion of the project is expected in December 2012

North Addition
Rebuilt collapsed area
1929 section

1929 (NORTH) BUILDING AND COLLAPSED AREA RENOVATION

Estimated completion date: December 2012

 Portion of the 1929 section was completed in 2011 and occupied for fall 2011; remaining portion and also collapsed area following north addition schedule, being completed at same time

1929 (north) building section: classroom currently in use; renovated in 2011

COST RECOVERY / LITIGATION STATUS:

NDSU is actively seeking to recover its damages, expenses and costs resulting from the collapse of Minard Hall. Two civil lawsuits have been commenced. Both lawsuits are venued in the State District Court in Fargo (East Central Judicial District). A forensic study has occurred involving all of the parties. Discovery, including the production of voluminous documents, is ongoing.

In the first litigation, NDSU brought suit against the ND State Fire and Tornado Fund which provides property insurance to NDSU. After the collapse of Minard Hall, the fund denied there was coverage for the collapse. As a result, NDSU commenced a declaratory judgment action against the fund. NDSU is requesting a judgment that the fund's insurance policy covers damages sustained by NDSU as a result of the collapse.

In the second lawsuit, the plaintiff is the State of North Dakota, by and through NDSU and SBHE. The defendants

are JLG, Heyer Engineering and 3 NTI, which are the architectural firm, the structural engineering firm, and the geotechnical engineering firm involved in the Minard Hall project. In this lawsuit, the State of North Dakota is seeking to recover damages sustained as a result of the collapse of Minard Hall and as a result of the redesign of the north addition to Minard Hall. The lawsuit alleges, among other things, that the defendants: (1) failed to obtain, require or recommend sufficient soil testing and evaluation to properly design a deep basement and the associated excavation adjacent to the north end of Minard Hall, (2) provided a defective design for the excavation adjacent to the north end of Minard Hall, and (3) failed to determine that the excavation was defective prior to the collapse and take steps to prevent the collapse.

It is estimated that written discovery will be completed within approximately two months. Depositions will then begin. At this point, it is unknown when the trials will occur, but they would be at least one year away.

DECEMBER 13, 2011:

NDSU presented a request to the Budget Section for approval to increase the project authorization of the Minard Hall project by \$4,874,300 from \$18,000,000 to \$22,874,300 under Section 48-01.2-25, and to authorize under Section 15-10-12.3 the additional funding from insurance proceeds, legal settlements, and other available funds. The following motion carried on a roll call vote:

• To approve the NDSU request to increase the project authorization of the Minard Hall project by \$4,874,300 from \$18,000,000 to \$22,874,300 under Section 48-01.2-25, and to authorize under Section 15-10-12.3 the additional funding from insurance proceeds, legal settlements, and other available funds.

NOVEMBER 17, 2011: (MOTIONS PASSED AT THE NOVEMBER 17, 2011, SBHE MEETING)

NDSU presented a brief update on the Minard Hall construction to the SBHE. The following motions were approved by the SBHE:

- 1. To proceed with completion of the Minard Hall at an estimated cost of \$22,874,300 to be funded with \$17,500,000 million in state general fund appropriation, \$500,000 gift funds, and \$4,874,300 future 2011-13 deficiency appropriation.
- 2. To seek Budget Section approval for increased spending authorization for Minard Hall from \$18,000,000 to \$22,874,300, an increase of \$4,874,300, with the intent that up to this amount (less any recovered from insurance or legal action) be ultimately funded by a state general fund deficiency appropriation per NDCC 48-01.2-25.
- 3. To carry a deficit fund balance on the Minard Hall project as a temporary funding source after the original \$18,000,000 of appropriated authority has been expended, until a state general fund deficiency appropriation for NDSU is authorized during the 2013 legislative session.
- 4. To take any necessary action, including litigation, to seek recovery of damages, expenses, and costs resulting from the collapse of Minard Hall, with any recovery being used to offset the ongoing costs of the Minard Hall project or, if the project is complete at the time of any recovery, to reimburse the State of North Dakota for the costs of the project to the extent that recovery dollars are available, following consultation with the chancellor.

NOVEMBER 9, 2011:

The Budget, Audit and Finance Committee held an executive session regarding Minard Hall and was satisfied with the progress of litigation.

SEPTEMBER 30, 2011: OVERVIEW AND PROJECT STATUS SUMMARY PRESENTED TO SBHE

Minard Hall is the largest academic facility located in the historical district on NDSU's campus.

The following departments have classrooms and offices in Minard Hall: Psychology, mathematics, communication, English, modern languages, history, philosophy, religion, sociology, anthropology, emergency management, English as a second language.

Minard Hall was built in three sections: 1901-south, 1918-center, 1929-north. Academic departments located in the 1929-north section were relocated to other areas across campus due to the collapse. However, academic departments located in the 1901-south section have remained during the renovation/construction process.

The \$18,000,000 Minard Hall authorized renovation and addition project scope consists of roof and window

replacements, utility and infrastructure (steam, water, and sewer) work and relocation, asbestos abatement, interior redesign/remodeling, new space allocation, new west and north additions, and architect/engineering fees. Additionally, the project includes replacement of the HVAC system, general construction, and electrical work to complete the project. As of December 27, 2009, the project scope also includes the collapsed north wall repair.

Authorized funding for the project is \$18,000,000: \$17,500,000 general funds and \$500,000 special/local funds.

Project scope includes the following square footage:

- Renovation of existing sections 72,141
- Additions west and north 30,755
- Collapse 6,965 of existing section north wall

Consultants and contractors on the project:

- Consultants
- > JLG (architect lead of project)
- > NTI (geotechnical)
- > Martin Mech (mechanical)
- > Heyer (structural)
- > Land elements (landscape)
- > MBN (electrical)
- Contractors
- > Grants Mechanical (mech)
- > Meinecke-Johnson (gen)
- > Bergstrom Elec (elec)
- > Veit (shoring)
- > Earth developers (sub)

Minard Hall experienced an unprecedented partial collapse of the north wall in the early morning hours of December 27, 2009. The building had been partially occupied during construction activities for the renovation; however, the building was unoccupied at the time of the collapse due to the Christmas holiday break. All construction was halted so that project activities could focus on preventing any further collapse, settling or additional failure to the building. Utility connections, temporary heat, air handling and electricity was re-established; a security company was hired to prevent unauthorized access to unsafe areas and to prevent theft; and a moving company was hired to help relocate faculty, offices and classrooms from Minard to other areas on campus because NDSU was not staffed to handle this activity.

During the same time period, the decision was made not to salvage the collapsed area building materials because of safety concerns. Demolition of this area could not take place unless shoring systems were designed and installed to prevent any further collapse. Access to faculty offices and classroom space in the collapsed area also needed to be addressed while the remainder of the building was evaluated for safety concerns. The challenge continued as the north end of the building became contaminated with asbestos material requiring specialized cleaning and removal.

Further testing and evaluations, demolition of the collapsed area, stabilization of the building, and shoring of the roofs and flooring were continued during the next

four to five months. Construction activities continued on the main project, and the west addition progressed slowly because many of the resources were being focused on the collapsed area. While this work was occurring, plans were being developed to determine the cause of the collapse. All parties (contractors and sub-contractors) were given the opportunity to participate in the proposed forensic study. This allowed all parties an opportunity to review the same data and make field observations. All parties participating in the proposed forensic study hired experts to determine the testing needed to determine the footing failure. In order for the review to occur, the collapsed portion of the building, excluding the footings and foundation, needed to be removed. During this removal, asbestos contaminated soils were discovered below the original building area that was collapsed. This area needed to be properly contained and removed before the last floor section could be removed.

Initial forensic testing was completed during July 12-15, 2010. Once completed, the second and final portion of the testing was to excavate the footing area and remove the failed material. All parties agreed an action plan should be developed to ensure soil conditions could handle excavating down to the footing level to expose the soils. Parties did not agree upon a plan until October 2010, and November 8 was set for the start of the deep excavation. No work could continue on the north addition or the collapsed area until this forensic testing was completed.

The original renovation project continued during this time. Temporary air conditioning was installed in classrooms during the summer of 2010 as the building was occupied while the renovation work was under way. Some soil data became available in October 2010, and concerns surfaced about a footing system for the collapsed area, along with concerns regarding the soil conditions at the north addition site. The project architect presented multiple recommendations for proceeding with the north addition and replacement of the collapsed area. Concerns surfaced at this time about continuing with a basement plan for the addition, so budget pricing was solicited on available options for proceeding. At this point, NDSU had a recommendation regarding how to move forward with the project, but needed guidance and approval from the SBHE.

At the December 16, 2010, SBHE meeting, NDSU was given approval for the following five items:

- To expand the original scope of the project and timeline to include a redesign of the collapsed portion of building
- To redesign the Minard Hall north addition to relocate the mechanical space, which will need to be relocated from a planned basement space, which is no longer feasible due to soil conditions
- 3. To allow collapse-related expenses to be funded from general funds currently available for the project
- 4. To administratively combine the three building phases into one project for management purposes
- 5. To authorize NDSU to seek appropriate legislative authorization and funding to complete the project in the most appropriate manner.

After obtaining the SBHE approval, the architects and consultants were directed to proceed with redesigning the north addition, removing the basement mechanical room and relocating that equipment to a 5th floor or penthouse. A revised design was completed for the north addition in mid-February 2011. The plan was approved and proposal requests were sent out to the contractors for pricing. At the same time, proposals were modified slightly for the collapsed area in order to tie in all connections and utilities to the revised plan. Proper documentation and supporting information for the pricing were received and approved change orders were created in April and May of

2011. Priorities at this time were to remove the loose sand fill in the basement area and to fill it in with a compacted engineered fill. Once this was completed, the collapsed structure and north addition footings could be started. Locations logistics for the building occupants have been an ongoing consideration and concern. (To date, permanent locations are not available.) Therefore, the impetus was to complete the west addition and part of the 1918 and the 1929 construction zones so space would be available for the fall 2011 academic semester. Temporary life/safety systems, air conditioning and heating would need to be installed due to the 5th floor mechanical equipment not being installed until sometime in 2012. Due to a tight project timeline and because of space limitations, a moving company was hired to relocate the departments and to store any materials that were not necessary during the next 12 months. This task was completed in August 2011.

With the 1901 building and the remaining 1918 building now vacated, the next milestone was to remove the remaining known asbestos in these areas. This process began the first of September and will not be completed until the first week of November 2011. The work is being done by floor so that the other contractors can follow behind and complete the needed demolition. The north addition footings and foundation walls were completed in October 2011 and steel frame installations are currently under way. Substantial completion of the project is expected December 2012.

2011-13 HB1003, SECTION 8. NORTH DAKOTA STATE UNIVERSITY-MINARD HALL-BUDGET SECTION REPORT:

North Dakota State University may use unspent funding from the \$5,000,000 appropriation received during the biennium beginning July 1, 2007, and ending June 30, 2009, and unspent funding from the \$13,000,000 appropriation, received during the biennium beginning July 1, 2009, and ending June 30, 2011, for the Minard Hall project, for the biennium beginning July 1, 2011, and ending June 30, 2013. North Dakota State University shall report to the budget section regarding the status of the Minard Hall project and may request increased spending authorization from the budget section for the project.

NDSU IS REQUESTING THAT THE SBHE PASS THE FOLLOWING MOTIONS:

(motions passed at the November 17, 2011, SBHE meeting)

- 1. Authorize NDSU to proceed with completion of the Minard Hall at an estimated cost of \$22,874,300 to be funded with \$17,500,000 million in state general fund appropriation, \$500,000 gift funds, and \$4,874,300 future 2011-13 deficiency appropriation.
- **2.** Grant NDSU authority to seek Budget Section approval for increased spending authorization for Minard Hall from \$18,000,000 to \$22,874,300, an increase of \$4,874,300, with the intent that up to this amount (less any recovered from insurance or legal action) be ultimately funded by a state general fund deficiency appropriation per NDCC 48-01.2-25.
- **3.** Authorize NDSU to carry a deficit fund balance on the Minard Hall project as a temporary funding source after the original \$18,000,000 of appropriated authority has been expended, until a state general fund deficiency appropriation for NDSU is authorized during the 2013 legislative session.
- 4. Authorize NDSU to take any necessary action, including litigation, to seek recovery of damages, expenses, and costs resulting from the collapse of Minard Hall, with any recovery being used to offset the ongoing costs of the Minard Hall project or, if the project is complete at the time of any recovery, to reimburse the State of North Dakota for the costs of the project to the extent that recovery dollars are available, following consultation with the chancellor.

UNIVERSITY SYSTEM CAPITAL PROJECTS CONTINGENCY POOL

Mr. Rick Tonder, Director of Facilities Planning, North Dakota University System, presented information (Appendix K) regarding funds distributed from the capital projects contingency pool pursuant to Section 24 of 2013 Senate Bill No. 2003. He said the 2013 Legislative Assembly provided \$5,483,413 for the capital projects contingency pool. He said the University System allocated \$858,984 for a campus drive project at Williston State College (\$90,000), a Stevens Hall renovation project at Williston State College (\$517,551), and an Erlandson remodel and expansion project at Lake Region State College (\$251,433). He said there is \$4,624,429 remaining in the capital projects contingency pool for future allocations.

NORTH DAKOTA STATE UNIVERSITY MINARD HALL PROJECT

Mr. Michael Ellingson, Director of Facilities Management, North Dakota State University, presented information (Appendix L) regarding the status of the Minard Hall project at North Dakota State University (NDSU) pursuant to Section 22 of 2013 Senate Bill No. 2003. He said construction of Minard Hall is substantially complete, and the building was fully occupied for the fall 2013 semester.

Mr. Christopher Wilson, General Counsel, North Dakota University System, presented information (Appendix M) regarding the legal proceedings related to the Minard Hall project. He said the law firm Anderson, Bottrell, Sanden, and Thompson is representing NDSU in two separate litigation proceedings. He said NDSU brought suit against the state fire and tornado fund, which provides property insurance for NDSU. He said NDSU has also brought suit against selected project contractors. He said written discovery and depositions are ongoing for both lawsuits. He said a trial date has not yet been set for the lawsuit against the state fire and tornado fund. He said the trial date for the lawsuit against the project contractors will be in March 2015.

In response to a question from Representative Brandenburg, Mr. Ellingson said approximately \$4.8 million of the \$22.9 million total project cost is associated with the collapse of Minard Hall.

UNIVERSITY SYSTEM - CHANGES TO CAPITAL PROJECTS North Dakota State University

Sanford Health Athletic Complex Project

Mr. Ellingson presented information (Appendix N) regarding a request for Budget Section approval to increase spending authority related to the Sanford Health Athletic Complex project. He said the request is the result of actual bids exceeding the project estimates. He said the scope of the project has not changed.

In response to a question from Representative Streyle regarding leaseback agreements, Mr. Bruce Bollinger, Vice President of Finance and Administration, North Dakota State University, said the Sanford Health Athletic Complex does not include any leaseback agreements. Mr. Bollinger said he would provide information regarding the terms of a leaseback agreement between NDSU and the NDSU Development Foundation related to Richard H.

In response to a question from Representative Delzer, Mr. Bollinger said maintenance of the Sanford Athletic Health Complex will be paid from local funds at NDSU and not state funds.

It was moved by Senator Grindberg, seconded by Senator Klein, and carried on a roll call vote that the Budget Section approve the North Dakota State University request pursuant to Section 15-10-12.1 to increase spending authority from private donations by \$5,595,644, from \$35,404,356 to \$41,000,000, related to the Sanford Athletic Health Complex project. Representatives Pollert, Boe, Brandenburg, Delzer, Devlin, Dosch, Guggisberg, Holman, Kempenich, Kreidt, Martinson, Mock, Nelson, Onstad, Sanford, Streyle, Thoreson, Vigesaa, Wieland, and Williams and Senators Bowman, Carlisle, Erbele, Grindberg, Heckaman, Holmberg, Kilzer, Klein, Krebsbach, Lee, Mathern, Robinson, Schneider, Wanzek, and Wardner voted "aye." No negative votes were

Center for Computationally Assisted Science and Technology Project

Dr. Philip Boudjouk, Professor of Chemistry, North Dakota State University, presented information (Appendix O) regarding a request for Budget Section approval to increase spending authority and to increase the scope of the Center for Computationally Assisted Science and Technology project.

In response to a question from Representative Delzer, Dr. Boudjouk said the increase includes the purchase of computer hardware, cooling systems, and electrical transformers. He said the equipment is needed to comply with the requirements of an additional federal grant.

Budget Section 5 December 13, 2011

Christmann, Erbele, Holmberg, Kilzer, Krebsbach, O'Connell, Robinson, Schneider, Taylor, Wanzek, Wardner, and Warner and Representatives Carlson, Dahl, Dosch, Drovdal, Kelsh, Kempenich, Kreidt, Kroeber, Martinson, Metcalf, Monson, Nelson, Pollert, Vigesaa, Wieland, and Williams voted "aye." Representatives Bellew, Brandenburg, Delzer, and Klein voted "nay."

North Dakota State University -Batcheller Building - Center for Biopharmaceutical Research and Production Centers of Excellence Program

Mr. Bruce Bollinger, Vice President for Finance and Administration, North Dakota State University, Fargo, presented a request for Budget Section approval under Section 15-10-12.1 of project authorization of \$1.75 million from the Center for Biopharmaceutical Research and Production centers of excellence program required cash match for the Batcheller Building first floor construction project in the Research and Technology Park. Dr. Satish Chandran, Director, Center for Biopharmaceutical Research and Production, North Dakota State University, Fargo, was also present.

In response to a question from Representative Carlson, Mr. Bollinger said a \$2 million grant from the Greater Fargo Moorhead Economic Development Corporation is contingent upon Budget Section approval of the request.

It was moved by Representative Carlson, seconded by Senator Schneider, and carried on a roll call vote that the Budget Section approve under Section 15-10-12.1 project authorization of \$1.75 million from the Center Biopharmaceutical Research and Production centers of excellence program required cash match for the Batcheller Building first floor construction project in the Research and Technology Park. Senators Grindberg, Bowman, Christmann, Erbele, Holmberg, Kilzer, Krebsbach, O'Connell, Robinson, Schneider, Taylor, Wanzek, Wardner, and Warner and Representatives Carlson, Dahl, Dosch, Kelsh, Kreidt, Kroeber, Martinson, Metcalf, Nelson, Thoreson, Vigesaa, Wieland, and Williams voted "aye." Representatives Bellew, Brandenburg, Delzer, Drovdal, Kempenich, Monson, and Pollert voted "nay."

North Dakota State University -Minard Hall

Mr. Bollinger presented a request for Budget Section approval to increase the project authorization of the Minard Hall project by \$4,874,300 from \$18,000,000 to \$22,874,300 under Section 48-01.2-25 and to authorize under Section 15-10-12.3 the additional funding from insurance proceeds, legal settlements, and other available funds. Mr. Michael Ellingson, Facilities Management Director, North Dakota State University, Fargo, and Mr. Dan Hull,

attorney, Anderson, Bottrell, Sanden & Thompson Law Firm representing North Dakota State University (NDSU) in legal action regarding Minard Hall were also present. Mr. Bollinger said NDSU has pursued a lawsuit against its insurance carrier seeking payment for insured damages estimated at \$4.8 million. He said any settlement amount will be used for the additional costs relating to the project.

In response to a question from Representative Carlson, Mr. Hull said the scope of the project is not increasing. He said the increased project authorization is for the additional costs resulting from damages incurred due to the Minard Hall collapse.

In response to a question from Representative Delzer, Mr. Ellingson said \$4.8 million is the estimate of the additional costs. He said all expenditures related to the Minard Hall collapse are being separately recorded and verified by legal counsel.

In response to a question from Senator Bowman, Mr. Bollinger said if legal settlement proceeds are less than the estimated \$4.8 million of additional costs, NDSU would seek direction from the State Board of Higher Education for options to pay for the costs incurred, including the possible request for a deficiency appropriation from the Legislative Assembly in 2013.

Senator Christmann asked whether NDSU is also seeking cost recovery from the contractor responsible for causing the damages. Mr. Hull said cost recoveries are being sought from all parties involved but is unable to provide details since the case is currently in progress.

It was moved by Senator Krebsbach, seconded by Senator Taylor, and carried on a roll call vote that the Budget Section approve the NDSU request to increase the project authorization of the Minard Hall project by \$4,874,300 from \$18,000,000 to \$22,874,300 under Section 48-01.2-25 and to authorize under Section 15-10-12.3 the additional funding from insurance proceeds, legal settlements, and other available funds. Senators Grindberg, Erbele, Holmberg, Krebsbach, O'Connell, Robinson, Schneider, Taylor, Wardner, and Warner and Representatives Carlson, Dahl, Dosch, Drovdal, Kelsh, Kempenich, Klein, Kroeber, Martinson, Metcalf, Monson, Nelson, Pollert, Thoreson, Vigesaa, Wieland, and Williams voted "aye." Senators Bowman, Christmann, Kilzer, and Wanzek and Representatives Bellew, Brandenburg, Delzer, and Kreidt voted "nay."
