How to log into Google

1. Open up a web-browser and navigate to google.com

2. Click in the top right-hand corner.

3. Enter your given NDSU email address. Be sure to use NDSU and not NDUS. Then select next.

4. You will be brought to a Central Authentication Service (CAS) to sign in using your student account. Log in using your NDSU credentials (the same username and password you would use to log into a campus computer).

5. If you have dual authentication enabled, you will be asked to authenticate the log in.

6. Google will ask you to verify your email address, all you have to do is select continue, and you have successfully logged into your student google account.
