Zoom Security Features

The following security features are available in your running Zoom call:

- Select the “Participants” menu at the bottom of the screen.
- Muting/unmuting participants can now be done from the menu in the bottom right of the screen.

![Mute and Unmute Options]

- Selecting More bring up a menu allowing you to mute participants as they enter the meeting and to lock the meeting once all participants have arrived.

![Meeting Options Menu]

- Hovering over a participant’s name bring up an option for “More”.

![Participant Options]

- In this menu you can stop a participant’s video or remove them from the meeting.

![Participant Video Stop and Remove Options]
Selecting the up arrow next to “Share Screen” brings up the following menu:

- Advanced Sharing Options... allows you to enable or disable screen sharing for participants and allowing multiple participants to share their screen at the same time.
