Industry contacts and on-site business visits have greatly contributed to my professional growth by providing opportunities to learn about their contemporary needs and helping me to better prepare my students for engaging in “real world” practices. Industry contacts are also used to promote my students, providing enhanced internship, co-op, and permanent employment opportunities.

I use every opportunity available to visit different companies. Since the start of my teaching career, I have made about 850 plant visits to more than 270 companies. The following is a partial list of companies that I have visited.
