

Dissertation Video - Completing Your Opening and Closing Slides

To complete your opening slide:

- Replace the text “Title of Video Goes Here” with your dissertation title.
- Replace “Student Name” with your name.
- Replace “Department/Program” with your department or program name. If you are unsure about the correct name of your department or program please consult the [Graduate Bulletin](#).
- Replace “Semester, Year (e.g. Fall, 2020)” with your semester and year of graduation (you should be filming your video in the same semester you graduate).
- Once you have double-checked all entries for typos and spelling errors, save your completed opening slide to the google drive folder that will contain your video.

To complete your closing slide:

- On the first slide, replace the text beginning with “Committee Member One (Committee Chair) with the name of your advisor. Your advisor name should be the first name given, and if you have co-advisors they should be the first two names given (each on its own line).
 - Then, replace “Committee Member Two” and “Committee Member Three” with the names of your committee members. Each committee member name should appear on a single line.
 - Do not remove the heading “Supervisory Committee:”.
- On the second slide, replace “List your source(s) of funding here” with your funding sources, each on a single line. These should be the same funding sources as listed on the Dissertation Video Information form.
 - We recommend using the full name of each source (for example, changing “NIH” to “National Institute of Health”).
 - Do not remove the heading “Funding Source:”.
 - If you do not have any funding sources this slide should be deleted.
- Once you have double-checked all entries for typos and spelling errors, save your completed closing slide to the google drive folder that will contain your video.
