NDSU celebrates launch
of Peltier Institute for

Advancement in Agricultural Technology

The institute will play a central role in shaping the future of agriculture by funding student scholarship, developing interdisciplinary academic programs and increasing opportunities for research and outreach.

Through enhanced teaching and training, students will gain exposure to career pathways at the intersection of agriculture, engineering, data science and artificial intelligence.

NDSU Research and Technology Park rebrands

The NDSU Research and Technology Park has rebranded as NDeavor Barry D. Batchellor Tech Park, sharpening its focus on dual-use technologies in defense and agriculture. This renewed direction received solid support from the legislature, a show of confidence in the park's vision and future.
