OUR SOLUTION

We developed an android app prototype that can block apps and audit websites via chrome, we also were able to write extensive research on the stretch goal of app uninstall mitigation.

DEV PHASE 1

- Research of app uninstall mitigation
- Research of website blocking
- Research and implementation of database
- Research and implementation of app blocking

DEV PHASE 2

- Continued research of website blocking
- Implementation of website auditing via chrome
- Implementation of database/website auditing/app blocking into prototype
