

Community Health Needs Assessment

CHI St. Alexius Health – Dickinson, ND
Approved April 2025

NDSU Center for Social Research Report #125
Prepared by Nancy Hodur, Kaeleigh Schroeder, and Avram Slone

Acknowledgements

The CHNA process is a significant undertaking resulting from the vision and leadership of numerous individuals and governing bodies. It is important to acknowledge those who have dedicated time and energy to ensure that thoughtful planning and long-range strategic vision serve as the basis for policy and decision-making regarding community health needs.

Researchers with the Center for Social Research at North Dakota State University gratefully acknowledge the support of the individuals and organizations who assisted in the preparation of the Community Health Needs Assessment for CHI St. Alexius Health in Dickinson, ND.

Financial support was provided by CHI Health, a member of CommonSpirit Health.

North Dakota State University does not discriminate on the basis of age, color, disability, gender expression/identity, genetic information, marital status, national origin, public assistance status, race, religion, sex, sexual orientation, or status as a U.S. veteran. Executive Summary

Purpose

The purpose of this community health needs assessment (CHNA) is to identify and prioritize significant health needs of the community served by CHI St. Alexius Health Dickinson. The priorities identified in this report help to guide the hospital's community health improvement programs and community benefit activities, as well as its collaborative efforts with other organizations that share a mission to improve health. This CHNA report meets requirements of the Patient Protection and Affordable Care Act that not-for-profit hospitals conduct a community health needs assessment at least once every three years.

CommonSpirit Health Commitment and Mission Statement

The hospital's commitment to engaging with the community, assessing priority needs, and helping to address them with community health program activities is in keeping with its mission. As CommonSpirit Health, we make the healing presence of God known in our world by improving the health of the people we serve, especially those who are vulnerable, while we advance social justice for all.

CHNA Collaborators

CHI St. Alexius Health Dickinson contracted with the North Dakota State University Center for Social Research to conduct the CHNA. The Center for Social Research developed community profiles and developed and conducted a community feedback survey that provided the foundation for this needs assessment. CHI St. Alexius Health Dickinson collaborated with the Southwest District Health Unit.

Community Definition

CHI St. Alexius Health Dickinson is located in Dickinson, North Dakota. The hospital primarily serves Stark County where Dickinson is located. Additionally, CHI St. Alexius Health Dickinson serves Adams, Billings, Bowman, Dunn, Golden Valley, Hettinger, Morton, and Slope counties. CHI St. Alexius Health Dickinson is the only hospital in Stark County. Other hospitals in the service area include West River Health Services in Adams County, Southwest Healthcare Services Hospital in Bowman County, and Vibra Hospital of the Central Dakotas in Morton County.

Stark, Adams, Billings, Bowman, Dunn, Golden Valley, Hettinger, Morton, and Slope counties are each designated as a Health Professional Shortage Area (HPSA) and a Medically Underserved Area (MUA) by the United States Health Resources & Services Administration. Stark County is a semi-rural county located in southwestern North Dakota and has an estimated population of 32,989.

Assessment Process and Methods

Community health needs were assessed using secondary data from national and state sources and primary data gathered from community members during a two-month survey period. CHI St. Alexius Health Dickinson representatives solicited input from community organizations representing health, education, law enforcement, victim advocacy, social services, and the medically underserved to review and validate community health needs and to prioritize identified needs at a community input meeting held January 28, 2025.

Multiple data sources with various indicators that inform social considerations were compiled and analyzed. Data sources include but are not limited to County Health Rankings, the American Community Survey (ACS), the Bureau of Economic Analysis (BEA), and the Centers for Disease Control and Surveillance (CDC). All community level data were compared to state and national data

for context. Community member input was solicited via an online survey and a community input meeting.

The survey was administered using a QR code for public distribution using various online and print media and a survey link that was distributed by hospital personnel. Upon conclusion of the survey fielding period, data were compiled and analyzed. Survey data were analyzed using widely accepted standard descriptive statistics, such as measures of mean, median, and frequencies. Priority needs were identified as those issues with the greatest level of consensus among survey respondents.

CHI St. Alexius Health Dickinson solicited feedback on survey findings at a community input meeting on January 28, 2025. A presentation that summarized the community profile and highlighted key survey findings was used to report and validate priority needs identified in the survey results and guide discussion of needs and priorities for community health improvement planning.

Prioritized Significant Health Needs

Based on analysis of the survey data, the following were identified as issues with the greatest degree of consensus among survey respondents.

- **Affordability of housing.** Most respondents (73 percent) disagreed that their community has enough affordable housing for everyone who needs it. Affordable housing was also identified as a priority need in the previous CHNA conducted in 2022, and more than half (54 percent) of respondents indicated that the availability of affordable housing has worsened since then. The median household income in Stark County (\$78,734) is slightly higher than North Dakota overall (\$73,959), as is the median housing value (\$255,200 and \$232,500, respectively). Median monthly ownership costs (including a mortgage) and median rent are also higher in Stark County than in North Dakota overall.
- **Availability of child care services.** Nearly two-thirds (65 percent) of respondents disagreed that their community has adequate child care services. Stark County has a higher percentage of families with children under the age of 18 (32.1 percent) than North Dakota on average (27.8 percent). Stark County also has a higher percentage of children ages 0 to 4 (8.3 percent) than North Dakota (6.7 percent)
- **Availability of public transportation.** More than half (53 percent) of respondents disagreed that their community has adequate public transportation services. Nearly one-quarter (24 percent) of respondents indicated that access to transportation for health care services was at least somewhat of a barrier.
- **Mental health and substance misuse.** Nearly three-quarters (73 percent) of respondents were very concerned about mental health (anxiety, stress, depression) and 73 percent were also very concerned about substance misuse (alcohol, prescription drugs, tobacco or vaping, illicit or street drugs) in their community. Mental health and substance misuse were also identified as priority needs in the previous CHNA and 62 percent of respondents said that mental health has worsened in their community since then. Forty-one percent said that alcohol misuse specifically has worsened since the previous CHNA. Further, 77 percent of respondents disagreed when asked if their community has adequate mental health services and a third (32 percent) indicated that the availability of mental health services in their community has worsened since the previous CHNA.

- **Access to health care services.** Half of respondents disagreed when asked if their community has adequate health care services (52 percent), that it was easy to get an appointment for health care services (52 percent), and that health care services were well coordinated across providers and services (52 percent). The number of people per mental health care provider and primary care physician is higher in Stark County than North Dakota overall. The ratio of residents to primary care physicians is 1,650:1 in Stark County compared to 1,290:1 in North Dakota. The ratio of residents to mental health care providers is 590:1 in Stark County compared to 420:1 statewide.
- **Psychological abuse and crime.** Most respondents (81 percent) were at least somewhat concerned about cyber bullying; 55 percent were very concerned. Similarly, 80 percent of respondents were at least somewhat concerned with child abuse/neglect; 49 percent were very concerned about the issue.

During the January 28, 2025 community input meeting, attendees discussed survey findings, whether the survey findings aligned with their perceptions of their community's needs, and the demographics of survey respondents. Meeting attendees indicated the issues identified in the presentation accurately reflected issues of concern in their community. Attendees generally agreed there have been positive improvements to community public health, but that there is still work to be done. Specific issues that were discussed included: communicating availability of care coordination services and transportation services, supporting affordable housing development, addressing concerns regarding child abuse and neglect, and continuing ongoing work surrounding substance use and misuse and mental health care.

Resources Potentially Available

Resources, programs, and organizations potentially available to address the significant health needs were identified by key informants giving input to this process. While not exhaustive, this list — which includes dozens of potential resources — draws on the experiences and knowledge base of those directly serving the community. A list of community resources can be found in a separate resource section later in the report.

Report Adoption, Availability, and Comments

This CHNA report was adopted by the CHI St. Alexius Health Dickinson board of directors in April 2025. The report is widely available to the public on the hospital's web site and a paper copy is available for inspection upon request at the Administration Office of CHI St. Alexius Health Dickinson. Written comments on this report can be submitted via mail to CHI Health - The McAuley Fogelstrom Center, (12809 W Dodge Rd, Omaha, NE 68154 attn. Healthy Communities); electronically at: <https://forms.gle/KGRq62swNdQyAehX8>; or by calling Ashley Carroll, Market Director Community and Population Health, at: (402) 343-4548.

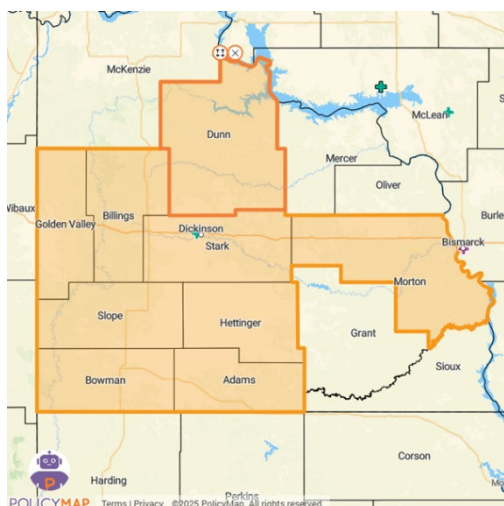

Community Definition

CHI St. Alexius Health Dickinson's primary service area is Stark County. The secondary service area includes the counties of Adams, Billings, Bowman, Dunn, Golden Valley, Hettinger, Morton, and Slope counties, North Dakota (Figure A). Other hospitals located within the service area include West River Health Services in Adams County, Southwest Healthcare Services Hospital in Bowman County, and Vibra Hospital of the Central Dakotas in Morton County.

Stark, Adams, Billings, Bowman, Dunn, Golden Valley, Hettinger, Morton, and Slope counties are each designated as a Health Professional Shortage Area (HPSA) and a Medically Underserved Area

(MUA) by the United States Health Resources & Services Administration. Stark County is a semi-rural county located in southwestern North Dakota and has an estimated population of 32,989.

Figure A: CHI St. Alexius Health Dickinson Community Health Needs Assessment Service Area

The following zip codes correspond to 80 percent of patient admissions to CHI St. Alexius Health Dickinson: 58601, 58620, 58621, 58622, 58623, 58627, 58640, 58642, 58645, and 58854.

Core demographics for Stark County are summarized in Table 1.

Table 1. Core Demographic Summary, Stark County, North Dakota	
Item	Stark County, North Dakota
Community Description	Semi-rural
Population	32,989
<i>Racial and Ethnic Distribution</i>	
White, non-Hispanic alone	86.2%
American Indian and Alaska Native alone	1.5%
Black or African American alone	2.5%
Asian or Pacific Islander alone	1.8%
Some other race alone	3.0%
Two or more races	3.4%
Hispanic Origin (of any race)	6.1%
Median Household Income	\$78,734
Percent of Persons Below Poverty Rate	10.1%
Unemployment Rate	1.9%
Percent Population with less than High School Diploma	8.1%
Percent of People 5 and Older who are Non-English Speaking	2.2%
Percent of People without Health Insurance	9.0%
Percent of People with Medicaid	11.8%
Health Professional Shortage Area	Yes
Medically Underserved Area	Yes
Number of Hospitals in the County	1 (CHI St. Alexius Health)

Hospital Description

Stark County is home to CHI St. Alexius Health Dickinson. CHI St. Alexius Health Dickinson is a 25-bed Critical Access Hospital located in Dickinson, North Dakota, serving the community with a wide range of health care services including women's health, general surgery, internal medicine, orthopedics, rehabilitation services and a Level II Nursery. CHI St. Alexius Health Dickinson is a Level IV Trauma Center accredited by the American College of Surgeons and The Joint Commission (TJC). The hospital is part of CommonSpirit Health, a large nonprofit Catholic health system formed in 2019 through the merger of Catholic Health Initiatives and Dignity Health.

CHI St. Alexius Health Dickinson has received numerous recognitions for its quality of care, including The Joint Commission's National Quality Approval award, a 5-Star Overall Hospital Quality Rating by CMS, and a 2013 Top Performer on Key Quality Measures Recognition from The Joint Commission for Pneumonia and Surgical Care. The hospital's radiology department is accredited by ACR in Nuclear Medicine, MRI, Mammography, and CT scan.

The hospital also has a certified cardiac rehabilitation program, was named a HealthStrong™ Top 100 Critical Access Hospital in 2013, and received recognition from the UND Center for Rural Health for its Outstanding Rural Health Program - Centering Pregnancy. It is a Designated ND Acute Stroke Ready Hospital and has received the Acute Stroke Ready Hospital Quality Excellence Award.

CHI St. Alexius Health Dickinson's dedication to providing compassionate and excellent care is evident in its professional and caring staff. The hospital's commitment to serving the community, its comprehensive services, and its dedication to accessibility make it a vital resource for the residents of Stark County and the surrounding areas.

Assessment Process and Methods

Community health needs were assessed using a two-pronged analysis approach: secondary data from national and state sources; and primary data gathered from community members during a two-month survey period. CHI St. Alexius Health Dickinson solicited input from community organizations representing health, education, law enforcement, victim advocacy, social services, and the medically underserved to review and validate community health needs at a community input meeting held January 28, 2025.

Secondary data: community profiles

Community profiles are an integral part of assessing community health needs. To get a complete sense of the community, multiple data sources with various indicators that inform social considerations were compiled and analyzed. Data sources include but are not limited to County Health Rankings, the American Community Survey (ACS), the Bureau of Economic Analysis (BEA), and the Centers for Disease Control and Surveillance (CDC). All community level data were compared to state and national data for context.

Primary data: health needs survey and community discussion

To help supplement secondary data sources, community member input was solicited via an online survey and a community input meeting. The online survey was administered using the Qualtrics online survey platform from August 12 to October 16, 2024. The survey was administered using a QR code for public distribution using various online and print media and a survey link that was distributed by hospital personnel. At least one public health organization was invited to participate in the distribution of the community survey. The survey tool can be found in Appendix C.

The survey solicited feedback on respondents' perceptions of various issues and topics in six broad categories: people in my community, services in my community, concerns in my community, concerns about violence, medical services, and barriers to care. Survey data were analyzed using widely accepted standard descriptive statistics, such as measures of mean, median, and frequencies. Priority needs were identified as those issues with the greatest level of consensus among survey respondents. Survey findings are detailed later in this assessment. The questionnaire can be found in Appendix C and detailed results in Appendix D.

Community Input

CHI St. Alexius Health Dickinson solicited feedback on survey findings at a community input meeting held on January 28, 2025. A presentation that summarized the community profile and highlighted key survey findings was used to report and validate priority needs identified in the survey results, as well as guide discussion of needs and priorities for community health improvement planning. During the community input meeting, attendees discussed survey findings, whether the survey findings aligned with their perceptions of their community's needs, and the demographics of survey respondents.

There were 22 attendees, including representatives from:

- CHI St. Alexius Health Dickinson
- Senior Life Solutions
- Dickinson Parks and Recreation
- Dickinson Police Department
- Dickinson Chamber of Commerce
- Badlands Human Service Center
- United Way of Dickinson
- Baker Boy
- Southwest District Health Unit
- Heartview Foundation
- Dickinson Public Schools
- Sanford Health
- Stark Development Corporation
- Peace Lutheran Church
- Southwest Multi-County Correctional Center

CHI St. Alexius Health Dickinson collaborated with the Southwest District Health Unit for the CHNA. CHI St. Alexius Health Dickinson contracted with the North Dakota State University Center for Social Research to conduct the CHNA. The Center for Social Research developed community profiles and developed and conducted a community feedback survey that provided the foundation for this needs assessment.

The hospital invited written comments on the most recent CHNA report and Implementation Strategy both in the documents and on the website where they are widely available to the public. No written comments have been received.

Assessment Data and Findings

The following sections provide a detailed community profile and survey results. Secondary data for Adams, Billings, Bowman, Dunn, Golden Valley, Hettinger, Morton, and Slope counties are available in Appendix B.

Community Profile

Stark County is a semi-rural county in southwestern North Dakota. The county seat and largest city is Dickinson. With 32,989 residents, Stark County is North Dakota's 7th most populous county. Stark County is home to proportionally fewer adults aged 65 and older than North Dakota and the United States as a whole, and proportionally more children. Like most of North Dakota, Stark County's racial composition is largely white; however, 6 percent of the population is of Hispanic origin, which is slightly higher than the statewide average. The median household income in Stark County is higher than North Dakota and the U.S. overall, and the poverty rate is lower than both. The median home value in Stark County is higher than the statewide median, but lower than the national median – and the costs associated with home rental and ownership are higher than they are in North Dakota on average, but lower than they are nationally. Stark County has a lower percentage of householders living alone as well as households with residents aged 65 and older compared to North Dakota averages.

Stark County has higher rates of adult smoking and adult obesity than North Dakota and the United States on average. The adult excessive drinking rate in Stark County (22 percent) is similar to statewide average (23 percent), but higher than the national average of 18 percent. The county's leading causes of death in 2021 were malignant neoplasms, diseases of the heart, accidents, COVID-19, and intentional self-harm. The annual flu shot rate in Stark County (49 percent) is similar to the rate in North Dakota (49 percent) and slightly higher than the United States (46 percent). Stark County has more residents per primary care physician, mental health care provider, and dentist than North Dakota and the nation overall.

Stark County faces a very high risk of loss due to cold weather. However, Stark County's overall risk due to natural hazards is relatively low. Stark County's social vulnerability is rated as relatively low and its community resilience is rated as relatively high. These factors combined give Stark County a relatively low National Risk Index Score.

Community Demographics

The American Community Survey's (ACS) most recent five-year estimate of Stark County's population is 32,989, making it the 7th most populous county in North Dakota. About 1 in 4 residents in Stark County are under the age of 18 and 13 percent are aged 65 and older (Table 2). The county's racial composition is largely non-Hispanic white (86.2 percent). The percentage of residents in Stark County who are of Hispanic origin is 6.1 percent, which is nearly two percentage points higher than North Dakota overall (4.3 percent). Two percent of the population in Stark County speaks English less than very well (Table 1). The county's gender split is skewed male, at 52.4 percent male and 47.6 percent female.

Table 2. Population Estimates, Stark County, ND, North Dakota, and United States, by Age, Race/Ethnicity, and Sex (2022)

Item	Stark County Population	Stark County Percentages	North Dakota Percentages	United States Percentages
Age Group				
0-4	2,723	8.3%	6.7%	5.7%
5-17	6,274	19.0%	16.9%	16.4%
18-24	2,653	8.0%	11.3%	9.4%
25-44	9,713	29.4%	27.1%	26.6%
45-64	7,228	21.9%	22.2%	25.3%
65 and older	4,398	13.3%	15.9%	16.5%
Total	32,989	100.0%	100.0%	100.0%

Total	32,989	100.0%	100.0%	100.0%
*Overlapping racial/ethnic categories mean that the percentages will not total to 100% of the population. Source: U.S. Census Bureau, 2018-2022 American Community Survey (ACS) 5-year estimates.				

Estimates from the ACS indicates that there are 13,200 households in Stark County with an average of 2.4 persons per household. Median household income is \$78,734, which is higher than the median in North Dakota (\$73,959) and the nation overall (\$75,149) (Table 3). Nearly two-thirds of households in Stark County are owner-occupied (64 percent) and median owner costs are \$1,739 per month including the mortgage. Median rent in Stark County is \$988 per month. Both median owner costs and median rent are higher in Stark County than in North Dakota overall, but lower than the United States.

About 3 in 10 households in Stark County are occupied by householders living alone and about 3 in 10 households have children in residence (Table 4). The percentage of households with children in residence is higher in Stark County than in North Dakota and the nation overall. The percentage of householders living alone, households with residents aged 65 and older, and householders aged 65 and older living alone are lower in Stark County than in North Dakota and the nation overall.

Table 3: Household Demographics, Stark County, ND, North Dakota, and United States (2022)

Item	Stark County	ND	U.S.
Total households	13,200	320,038	125,736,353
Owner-occupied housing rate	64.3%	63.2%	64.8%
Average household size (persons per household)	2.4	2.3	2.6
Median value of owned-occupied housing	\$255,200	\$232,500	\$281,900
Median monthly owner costs (with mortgage)	\$1,739	\$1,653	\$1,828
Median monthly owner costs (without mortgage)	\$531	\$551	\$584
Median gross rent	\$988	\$912	\$1,268
Median household income	\$78,734	\$73,959	\$75,149

Table 4. Household Characteristics, Stark County, ND, North Dakota, and United States (2022)

Household Characteristics	Stark County Households	Percent of Stark County Households*	Percent of North Dakota Households*	Percent of United States Households*
Households with children aged 0-17	4,231	32.1%	27.8%	30.2%
Households with adults 65+	3,024	22.9%	26.7%	30.8%
Householders living alone	4,090	31.0%	33.2%	28.3%
Householders aged 65+ living alone	1,391	10.5%	11.8%	11.5%

*Overlapping household characteristics mean that the percentages of households will not total to 100% of the total number of households. Source: U.S. Census Bureau, 2018-2022 American Community Survey (ACS) 5-year estimates.

Estimates from the ACS indicate that there are 16,757 adults in the workforce in Stark County. The largest industries in the county by percentage of the workforce employed are educational services, health care, and social assistance; agriculture, forestry, fishing, hunting, and mining; and retail, which account for 17.5 percent, 15.6 percent, and 13.5 percent, respectively (Table 5). Other industries that employ substantial portions of the county's workforce include construction; manufacturing; transportation; and arts, entertainment, recreation, accommodation, and food service. In 2023, the county's three largest employers were the Dickinson Public School District, Walmart, and ND Energy Services. CHI St. Alexius Health Dickinson was the sixth largest employer in the county (NDLMI 2024).

Table 5: Employment by Industry, Stark County, ND (2022)

Sector	Workers	% of Workforce
Educational services, health care and social assistance	2,938	17.5%
Agriculture, forestry, fishing, hunting and mining	2,606	15.6%
Retail	2,259	13.5%
Construction	1,700	10.1%
Manufacturing	1,271	7.6%
Transportation and warehousing, and utilities	1,071	6.4%
Arts, entertainment, recreation, accommodation & food service	865	5.2%
Other	4,047	24.2%
Total workforce	16,757	100.0%

Source: U.S. Census Bureau, 2018-2022 American Community Survey (ACS) 5-year estimates.

The poverty rate in Stark County is 10.1 percent, which is lower than the poverty rate in North Dakota overall (10.8 percent) and nationally (12.5 percent) (Table 6). About 7 percent of children in Stark County live below the poverty line, compared to 11.3 percent statewide and 16.7 percent nationally. Fifteen percent of school-aged children in Stark County are eligible for free or reduced-price school lunch, which is lower than North Dakota overall (23.2 percent) and much lower than the national average (50.8 percent).

Table 6. Poverty Characteristics, Stark County, ND, North Dakota, and United States (2022)

Poverty Characteristics	Stark County Estimate	Stark County Percent*	North Dakota Percent*	United States Percent*
All persons below poverty level (% of total population)	3,255	10.1%	10.8%	12.5%
All persons below 200% poverty level (% of total population)	7,565	23.6%	24.7%	28.8%
Children aged 0-17 below poverty level (% of children 0-17)	601	6.9%	11.3%	16.7%
Adults aged 65 and older below poverty level (% of adults 65 and older)	544	13.2%	9.1%	10.0%
Eligible recipients of free or reduced-price school lunch	681	15.2%	23.2%	50.8%

*Differing populations and overlapping categories mean that percentages will not total to 100%.

Sources: U.S. Census Bureau, 2018-2022 American Community Survey (ACS) 5-year estimates; 2024 County Health Rankings & Roadmaps, a program of the University of Wisconsin Population Health Institute.

Most residents in Stark County aged 25 and older (60.5 percent) have at least some college experience; 25.3 percent have attained a bachelor's degree or higher. This is lower than in North Dakota and nationally where 31.4 percent and 34.3 percent of the population aged 25 and older, respectively, have at least a bachelor's degree. Fewer than one in 10 residents ages 25 and older in Stark County did not complete high school (8.1 percent), which is higher than in North Dakota (6.5 percent) but lower than the national average (10.9 percent) (Table 7).

Table 7. Educational Attainment for Persons Aged 25 and Older, Stark County, ND, North Dakota, and United States (2022)

Level of Education Attained	Stark County Estimate	Stark County Percent of Population 25 and Older	North Dakota Percent of Population 25 and Older	United States Percent of Population 25 and Older

Community Health Factors and Outcomes

Stark County has a slightly higher prevalence of cigarette smokers (17 percent) than North Dakotan (16 percent) and the nation overall (15 percent) overall (Table 8). The adult obesity rate in Stark County (40 percent) is higher than in North Dakota (36 percent) and the nation overall (34 percent). Adults in Stark County were about as likely to report a lack of physical activity outside of work (24 percent) as North Dakota (25 percent) and the United States (23 percent). Although the percentage of adults who reportedly engage in excessive drinking in Stark County (22 percent) is similar to North Dakota (23 percent), it is higher than the nationwide average (18 percent).

The prevalence of Stark County residents reporting poor mental health days in the past month is roughly the same as the statewide prevalence (3.9 days compared to 4.0 days, respectively), and slightly lower than the national average (4.8 days per month).

Table 8. Health Behaviors, Stark County, ND, North Dakota, and the United States (2021)

Health Behavior	Stark County	North Dakota	United States
Adult Smoking	17%	16%	15%
Adult Obesity	40%	36%	34%
Adult Excessive Drinking	22%	23%	18%
Alcohol-Impaired Driving Deaths	41%	39%	26%
Physical Inactivity ¹	24%	25%	23%
Access to Exercise Opportunities ²	72%	76%	84%
Poor Mental Health Days ³	3.9	4.0	4.8

Source: 2024 County Health Rankings & Roadmaps, a program of the University of Wisconsin Population Health Institute.
¹Physical Inactivity refers to the percent of adults who report participating in no physical activity outside of work.
²Access to Exercise Opportunities refers to the percent of adults who report living close to a park or recreation facility.
³The average number of self-reported mentally unhealthy days in the past 30 days.

Leading causes of death for residents under age 75 in Stark County were malignant neoplasms, diseases of the heart, accidents, COVID-19, and intentional self-harm in 2021 (Table 9). Life expectancy in Stark County is 79 years, which is higher than in North Dakota (78.1 years) and the nation overall (77.6 years) (County Health Rankings & Roadmaps, 2024).

Table 9: Leading Causes of Death in Stark County, ND Residents Under Age 75 (2019-2021)

Cause of Death	Deaths	Rate Per 100,000 Population Under 75
Malignant Neoplasms	60	66.3
Diseases of the heart	49	54.2
Accidents	45	49.7
COVID-19 ¹	19	Unreliable
Intentional self-harm ¹	17	Unreliable

Source: 2024 County Health Rankings & Roadmaps, a program of the University of Wisconsin Population Health Institute.
¹Crude rates per 100,000 population under 75 are unreliable due to the small number of deaths.

The rate of people under age 65 without health insurance in Stark County is similar to statewide and national rates. In Stark County, 9 percent of people under the age of 65 did not have health insurance compared with 9 percent of all North Dakotans and 10 percent nationally (Table 10).

The flu vaccination rate in Stark County is similar to the statewide average (49 percent each) and slightly higher than the national average (46 percent).

The Food Environment Index is a measure of food security and access to healthy foods with a ranking system ranging from 0 (worst) to 10 (best). Stark County's Food Environment Index score was 9.0, which is slightly lower than North Dakota's score of 9.1 but higher than the national score of 7.7 (Table 10).

Table 10. Other Health Factors, Stark County, ND, North Dakota, and United States			
Description of Factor	Stark County	North Dakota	United States
Uninsured Rate, 2021	9%	9%	10%
Medicaid Coverage, 2022	11.8%	11.9%	20.4%
Unemployment Rate, 2022	1.9%	2.1%	3.7%

³ The Food Environment Index is a measure of food environment that combines food insecurity rates with rates of access to healthy foods. It is scored on a scale from 0 (worst) to 10 (best).			

The ratio of residents per primary care physician is 1,650:1 in Stark County, which is higher than the ratio in North Dakota (1,290:1) and the nation overall (1,330:1). The ratio of residents to mental health care providers and dentists is also higher in Stark County than in North Dakota and the nation overall (Table 11).

Table 11. Number of Residents Per Health Care Provider in Stark County, ND, North Dakota, and the United States			
Type of Provider	Stark County	North Dakota	United States
Primary Care Physicians, 2021	1,650:1	1,290:1	1,330:1
Mental Health Care Providers, 2024	590:1	420:1	300:1
Dentists, 2022	2,050:1	1,420:1	1,360:1

National Risk Index

The Federal Emergency Management Agency (FEMA) administers the National Risk Index, a dataset and tool that estimates the risk level for natural disasters at the county level. A county's Risk Index is calculated using three metrics: Expected Annual Loss, Social Vulnerability, and Community Resilience. A community's exposure to and ability to cope with hazardous conditions can have a substantial impact on factors that inform community health outcomes, such as the strain on that community's health care system and its ability to make sure that residents have access to essential goods and services in times of crisis.

Overall, Stark County's National Risk Index rating is Relatively Low. This indicates a fairly strong general preparedness for and ability to recover from natural and manmade hazards. Although 79.2 percent of North Dakota counties have a lower National Risk Index score than Stark County, 58.8 percent of counties nationally have a lower score (Table 12).

Table 12. National Risk Index Percentiles for Stark County, ND when compared to North Dakota Counties and U.S. Counties (2024)		
Index	Percentile within North Dakota	U.S. Percentile
Expected Annual Loss	81.1	61.4
Social Vulnerability	73.6	24.4
Community Resilience	66.0	72.8
<i>National Risk Index</i>	<i>79.2</i>	<i>58.8</i>
<small>Note: The Risk Index can be read as "79.2% of counties in North Dakota have a lower Risk Index than Stark County; 58.8% of U.S. counties have a lower Risk Index than Stark County." Sources: FEMA, National Risk Index; CDC/ATSDR Social Vulnerability Index 2022; University of South Carolina's Hazards and Vulnerability Research Institute (HVRI)'s Baseline Resilience Indicators for Communities (HVRI BRIC).</small>		

Expected Annual Loss

Expected Annual Loss scores are calculated by combining a community's exposure to natural hazards, annualized frequency of hazards, and the historic loss ratio for various natural hazards. Stark County's overall Expected Annual Loss is rated as Relatively Low overall on a five-point scale: Very Low, Relatively Low, Relatively Moderate, Relatively High, and Very High (NRI 2024). However, the county faces Very High risk of cold wave, as well as relatively high risk of ice storms and winter weather. Expected annual loss caused by cold waves is rated Very High. Stark County's expected annual loss is higher than 81.1 percent of North Dakota counties and 61.4 percent of counties nationally.

Social Vulnerability Index

Social vulnerability is a concept related to a community's ability to prepare for and respond to hazardous events. A community's social vulnerability is gauged using the Social Vulnerability Index (SVI) (ATSDR) (CDC, 2024): an aggregated index of 16 socioeconomic factors categorized into four themes: socioeconomic status, household characteristics, racial and ethnic minority status, and housing type/transportation. SVI is a nationally recognized measure of a location's social vulnerability, and therefore its ability to prepare for and respond to disasters. While the SVI technically is a measure of ability to respond to natural disasters and aid emergency planning, the index is an accepted tool to gauge overall community socioeconomic well-being. A higher SVI indicates a higher vulnerability to hazard.

Stark County's Social Vulnerability is rated Relatively Low. Stark County has higher social vulnerability than 73.6 percent of North Dakota counties and 24.4 percent of counties nationally. For a more thorough breakdown of Stark County's Social Vulnerability as well as the social vulnerability of counties in CHI St. Alexis Health Dickinson's secondary service area see Appendix A.

Community Resilience

A community's Community Resilience score is defined as its ability to prepare for, withstand, and recover from hazardous events (Cutter et al. 2014). Categories considered in the compilation of

scores include Human Well-Being, Economy, Infrastructure, Governance, Community Capacity, and Environment. Stark County's Community Resilience ranking Relatively High. Stark County has higher community resilience than 66.0 percent of North Dakota's 53 counties and 72.8 percent of counties nationally, suggesting the county is relatively well-prepared to respond to hazardous events.

Community Health Survey Analysis

Demographics

The survey solicited feedback on respondents' perceptions of various issues and topics in six broad categories: people in my community, services in my community, concerns in my community, concerns about violence, medical services, and barriers to care. Survey data were analyzed using widely accepted standard descriptive statistics, such as measures of mean, median, and frequencies. Priority needs were identified as those issues with the greatest level of consensus among survey respondents. Detailed survey findings can be found in Appendix D.

Two hundred and sixty-seven people responded to the CHI St. Alexius Health Dickinson CHNA survey. The average age of respondents was 46 years and 81 percent of respondents were female. Ninety-three percent of respondents identified as white and most respondents (89 percent) reported an annual household income of \$50,000 or more; 49 percent had an annual household income of \$100,000 or more. Two-thirds (67 percent) of respondents' highest level of education was a bachelor's degree or graduate degree and 86 percent reported being employed full-time.

Findings

Respondents were asked a series of questions about the people in their community, and while disagreement was relatively low overall, respondents were more inclined to respond with uncertainty about people in their community having a shared vision and goals. Nearly one-quarter of respondents (23 percent) neither agreed nor disagreed, 30 percent disagreed, and 48 percent agreed with that statement. Fifty-nine percent of respondents agreed there is a sense of civic responsibility and engagement in their community and 62 percent agreed that people feel welcome and accepted in their community. Seventy-one percent of respondents agreed their community is culturally diverse (Figure 1).

Figure 1: People in My Community, Community Health Needs Assessment, 2024

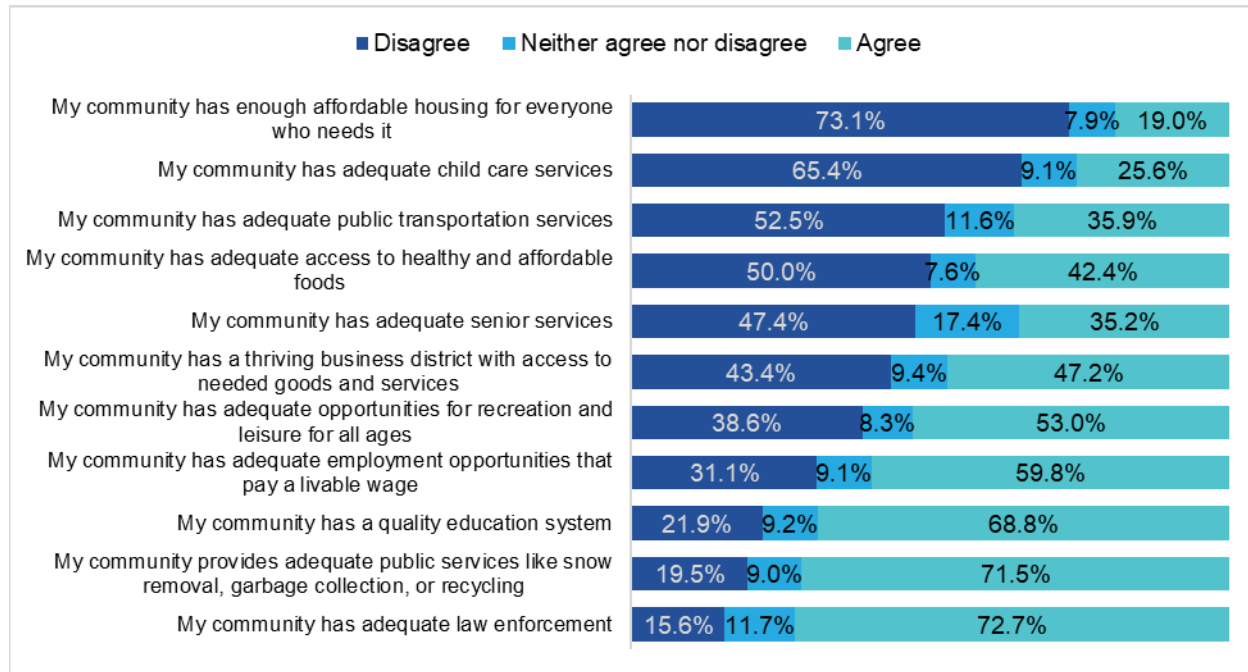

Respondent n: 260-264.

Most respondents (73 percent) disagreed their community has enough affordable housing for everyone who needs it, 65 percent disagreed their community has adequate child care services, 53 percent disagreed their community has adequate public transportation services, and 50 percent disagreed their community has adequate access to healthy and affordable food. However, about

three-quarters (73 percent) agreed their community has adequate law enforcement and a similar percentage (72 percent) agreed their community provides adequate public services (such as snow removal) (Figure 2).

Figure 2: Services in My Community, Community Health Needs Assessment, 2024

Respondent n: 230-267.

When asked about various concerns in their community, nearly all respondents expressed some level of concern for the issues in question. However, there were some issues that raised more concern than others; 73 percent of respondents were very concerned about mental health (anxiety, stress, depression) and 73 percent were very concerned about substance misuse (alcohol, prescription drugs, tobacco or vaping, illicit or street drugs). While nearly half (49 percent) of respondents were very concerned about suicide, 34 percent were somewhat concerned, 15 percent were slightly concerned, and 2 percent were not concerned at all. The issue of sexually transmitted diseases or infections (STIs) drew the highest percentage of respondents who were not at all concerned (15 percent); even so, 85 percent of respondents were at least slightly concerned about STIs in their community (Figure 3).

Figure 3: Concerns in My Community, Community Health Needs Assessment, 2024

Respondent n: 205-264.

Most respondents expressed at least slight concern with child abuse or neglect (97 percent), cyber bullying (96 percent), emotional abuse (including intimidation and isolation) (96 percent), sexual abuse or assault (95 percent), intimate partner violence (93 percent), and verbal threats or harassment (91 percent) in their community. However, 25 percent of respondents were not at all concerned about gun violence (Figure 4).

Figure 4: Violence Concerns in My Community, Community Health Needs Assessment, 2024

Respondent n: 230-255.

Three-quarters (75 percent) of respondents agreed that their community has adequate access to emergency response services (such as ambulance) and 69 percent agreed that their community has adequate vision care providers. However, 77 percent of respondents disagreed that their community has adequate mental health services, 52 percent disagreed that their community has adequate health services to meet their needs, 52 percent disagreed that it is easy to get an

appointment in their community, and 52 percent disagreed that care is well coordinated across providers in their community (Figure 5).

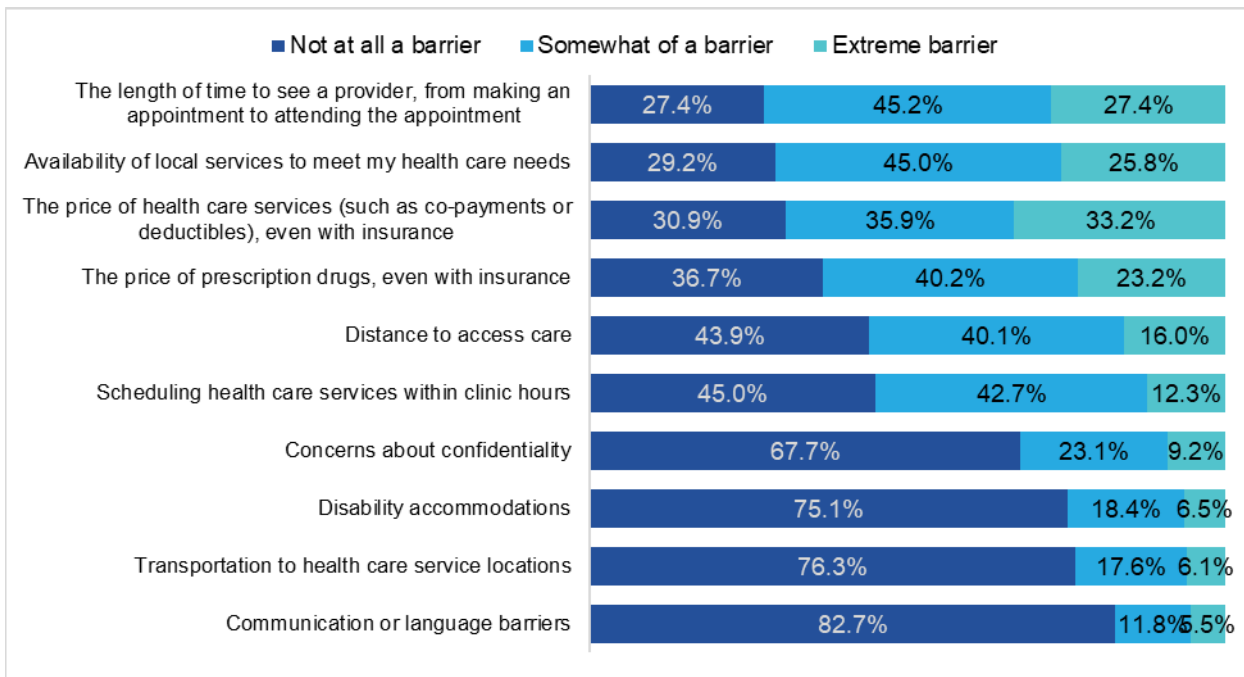

Figure 5: Medical Services in My Community, Community Health Needs Assessment, 2024

Respondent n: 250-265.

Respondents were asked about a series of issues which might present a barrier to accessing health care. For nearly three-fourths (73 percent) of respondents, the length of time to see a provider, from making the appointment to attending, was at least somewhat of a barrier to accessing health care. Seventy-one percent of respondents cited the availability of local services as at least somewhat of a barrier. The price of health care services, even with insurance, was considered at least somewhat of a barrier for 69 percent of respondents and 33 percent considered this an extreme barrier to accessing care. Likewise, the price of prescription drugs was considered at least somewhat of a barrier for 63 percent of respondents (Figure 6).

Figure 6: Barriers to Accessing Health Care, Community Health Needs Assessment, 2024

Respondent n: 217-262.

Respondents were asked about their perceptions of issues identified as priority community health needs during the previous CHNA conducted in 2022. Of the four issues identified as priority needs, the availability of mental health services had the highest percentage of respondents noting improvement since 2022 (28 percent). However, 39 percent of respondents indicated this issue is the same and 32 percent indicated this issue has worsened. Forty-one percent of respondents indicated alcohol use and misuse has worsened since 2022, while 45 percent indicated this issue is the same since that time. Just over half (54 percent) of respondents indicated the availability of affordable housing has worsened since 2022 and 62 percent indicated that depression or anxiety has worsened since then (Figure 7).

Figure 7: Previous CHNA Issues, Community Health Needs Assessment, 2024

Respondent n: 236-240.

In the past 12 months, 83 percent of respondents had an annual physical exam, 80 percent had a dental exam, 79 percent had a vision exam, 66 percent had a blood pressure or cholesterol screening, and 62 percent received a vaccination (Appendix D).

Eighty-three percent of respondents said they have a primary care doctor and 70 percent said they get their health information from a primary care provider. Internet sources were cited by 64 percent of respondents as a source of health information. Fifty-seven percent of respondents receive health information from word of mouth, such as friends or family, and slightly fewer (55 percent) receive health information from other health care professionals (Figure 8).

Figure 8: Sources of Health Information, Community Health Needs Assessment, 2024

Respondent n: 260. Respondents were permitted to select more than one response.

Most respondents (83 percent) have health insurance through an employer and 13 percent have insurance through a government program such as Medicaid (Appendix D).

Fourteen percent of respondents said they had experienced discrimination in the past 12 months, and the most common area of discrimination was sex (58 percent) followed by age (44 percent) (Figure 9). Nearly half (47 percent) of respondents who experienced discrimination said it was at a job or place of work and 36 percent said they were discriminated against while shopping at a store or eating at a restaurant (Figure 10).

Figure 9: Areas of Discrimination, Community Health Needs Assessment, 2024

Respondent n: 36. Respondents were permitted to select more than one response.

Figure 10: Situations of Discrimination, Community Health Needs Assessment, 2024

Respondent n: 36. Respondents were permitted to select more than one response.

More than half (54 percent) of respondents said they find it at least slightly difficult to pay for heating, housing, or medical care. Twenty-three percent of respondents said it is slightly difficult, 25 percent said it is somewhat difficult, and 6 percent said it is very difficult to pay for these necessities (Figure 11).

Figure 11: Difficulty Paying for Heating, Housing, or Medical Care; Community Health Needs Assessment, 2024

Respondent n: 260.

Significant Community Health Needs

Based on analysis of the survey data, the following were identified as issues with the greatest degree of consensus among survey respondents. Secondary data are provided in support of findings as appropriate.

- Affordability of housing.** Most respondents (73 percent) disagreed that their community has enough affordable housing for everyone who needs it. Affordable housing was also identified as a priority need in the previous CHNA conducted in 2022, and more than half (54 percent) of respondents indicated that the availability of affordable housing has worsened since then. The median household income in Stark County (\$78,734) is slightly higher than North Dakota overall (\$73,959), as is the median housing value (\$255,200 and \$232,500, respectively). Median monthly ownership costs (including a mortgage) and median rent are also higher in Stark County than in North Dakota overall.
- Availability of child care services.** Nearly two-thirds (65 percent) of respondents disagreed that their community has adequate child care services. Stark County has a higher percentage of families with children under the age of 18 (32.1 percent) than North Dakota on average (27.8 percent). Stark County also has a higher percentage of children ages 0 to 4 (8.3 percent) than North Dakota (6.7 percent)

- **Availability of public transportation.** More than half (53 percent) of respondents disagreed that their community has adequate public transportation services. Nearly one-quarter (24 percent) of respondents indicated that access to transportation for health care services was at least somewhat of a barrier.
- **Mental health and substance misuse.** Nearly three-quarters (73 percent) of respondents were very concerned about mental health (anxiety, stress, depression) and 73 percent were also very concerned about substance misuse (alcohol, prescription drugs, tobacco or vaping, illicit or street drugs) in their community. Mental health and substance misuse were also identified as priority needs in the previous CHNA and 62 percent of respondents said that mental health has worsened in their community since then. Forty-one percent said that alcohol misuse specifically has worsened since the previous CHNA. Further, 77 percent of respondents disagreed when asked if their community has adequate mental health services and a third (32 percent) indicated that the availability of mental health services in their community has worsened since the previous CHNA.
- **Access to health care services.** Half of respondents disagreed when asked if their community has adequate health care services (52 percent), that it was easy to get an appointment for health care services (52 percent), and that health care services were well coordinated across providers and services (52 percent). The number of people per mental health care provider and primary care physician is higher in Stark County than North Dakota overall. The ratio of residents to primary care physicians is 1,650:1 in Stark County compared to 1,290:1 in North Dakota. The ratio of residents to mental health care providers is 590:1 in Stark County compared to 420:1 statewide.
- **Psychological abuse and crime.** Most respondents (81 percent) were at least somewhat concerned about cyber bullying; 55 percent were very concerned. Similarly, 80 percent of respondents were at least somewhat concerned with child abuse/neglect; 49 percent were very concerned about the issue.

During the January 28, 2025 community input meeting, attendees discussed survey findings, whether the survey findings aligned with their perceptions of their community's needs, and the demographics of survey respondents. Meeting attendees indicated the issues identified in the presentation accurately reflected issues of concern in their community. Attendees generally agreed there have been positive improvements to community public health, but that there is still work to be done. Specific issues that were discussed included: communicating availability of care coordination services and transportation services, supporting affordable housing development, addressing concerns regarding child abuse and neglect, and continuing ongoing work surrounding substance use and misuse and mental health care.

Resources Potentially Available to Address Needs

Resources, programs, and organizations potentially available to address the significant health needs were identified by key informants giving input to this process. While not exhaustive, this list — which includes dozens of potential resources — draws on the experiences and knowledge base of those directly serving the community.

Impact of Actions Taken Since Preceding CHNA

2023-2025 Community Health Implementation Strategy

Health Need: Affordable Housing

 Health Need #1: Affordable Housing (Availability of resources to help elderly stay in their homes, Not enough affordable housing)	
Goal and Anticipated Impact	The hospital will work with interested community organizations and our patients to help bridge the gap between their health and the social determinant of health “shelter” through coordination with current shelters, resources, and cities to make more “affordable” housing available in the community.
Strategy	Key Activities
1.1 City/County Code Review	<p>1.1.1 Review of the current city/county code to see if there are barriers to affordable housing developments being created in the community. Work will be done to ensure barriers are eliminated and education is provided to decision makers on what the issues are in regard to development</p> <p>FY23 Actions and Impact</p> <ul style="list-style-type: none"> Worked with City and County Planning and Zoning staff to identify barriers to affordable housing development in the community and worked to change ordinances to help with the development of a new homeless shelter ordinance. Additional work has been done to help identify developers who may be interested in developing affordable housing in the community. Meetings and conversations have been had to see what additional changes may need to be made to make this type of development more attractive. <p>FY23 Measures</p> <ul style="list-style-type: none"> Four quarterly meetings held with SW Homeless Coalition and City Planning staff as well as supplemental meetings with city commissioners and city planning staff. Key measure would be the starting of development of the homeless shelter ordinance (to be reported in future narratives). <p>FY24 Actions and Impact</p> <ul style="list-style-type: none"> Worked with City and County Planning and Zoning staff to identify barriers to affordable housing development in the community and worked to change ordinances to help with the development of a new homeless shelter ordinance. This work led to a new group housing and homeless shelter ordinance being added to the City of Dickinson city code in May of 2024. City Commission and staff has also engaged with CHI on conversations regarding affordable housing developments and work there continues. <p>FY24 Measures</p> <ul style="list-style-type: none"> Four quarterly meetings held with SW Homeless Coalition and City Planning staff as well as supplemental meetings with city commissioners and city planning staff. Passage of ordinance. <p>FY25: Results Pending</p>

<p>1.2 Coordination and Communication</p>	<p>1.2.1 Improve coordination between entities through a common touchpoint in the community for resources and information as to resources and programs available, including budgeting/finance education.</p> <p>FY23 Actions and Impact</p> <ul style="list-style-type: none"> Four quarterly meetings with the SW Homeless Coalition to identify and quantify the needs in the community as well as come to an understanding and alignment on plans for a potential shelter. <p>FY23 Measures</p> <ul style="list-style-type: none"> Four quarterly meetings held which have since transitioned to monthly meetings due to the amount of work and need identified. Coordination is ongoing. About 25-30 people locally and statewide engaged in the work. <p>FY24 Actions and Impact</p> <ul style="list-style-type: none"> Four quarterly meetings with the SW Homeless Coalition to identify and quantify the needs in the community as well as come to an understanding and alignment on plans for a potential shelter. Monthly meetings of the CHNA Affordable Housing workgroup. <p>FY24 Measures</p> <ul style="list-style-type: none"> Four quarterly meetings held which have since transitioned to monthly meetings due to the amount of work and need identified. Coordination is ongoing. About 25-30 people locally and statewide engaged in the work. <p>FY25: Results Pending</p>
<p>1.3 Development Programs</p>	<p>1.2.2 Designate owner of resource list to keep information current.</p> <p>FY23 Actions and Impact</p> <ul style="list-style-type: none"> See 1.2.1. <p>FY23 Measures</p> <ul style="list-style-type: none"> See 1.2.1. <p>FY24 Actions and Impact</p> <ul style="list-style-type: none"> See 1.2.1. <p>FY24 Measures</p> <ul style="list-style-type: none"> See 1.2.1. <p>FY25: Results Pending</p>
	<p>1.3.1</p> <ul style="list-style-type: none"> Review/update and promotion of available city and county programs, or the addition of new programs, that may encourage the development of more affordable housing in the community, whether that be lower priced homes, tiny homes, etc. Compile and promote program information from financial institutions, Stark Development, and Single Room Occupancy Unit Program.

	<p>FY23 Actions and Impact</p> <ul style="list-style-type: none"> • See 1.1.1. <p>FY23 Measures</p> <ul style="list-style-type: none"> • See 1.1.1. <p>FY24 Actions and Impact</p> <ul style="list-style-type: none"> • See 1.1.1. <p>FY24 Measures</p> <ul style="list-style-type: none"> • See 1.1.1. <p>FY25: Results Pending</p>
<p>1.4 Homeless/Transitional/Supportive Housing Shelter</p>	<p>1.4.1</p> <ul style="list-style-type: none"> • Development and implementation of a business plan to help address homelessness in the community through the opening and staffing of transitional/supportive housing for individuals experiencing homelessness in the community. • Amending, if necessary, city code to allow for development. <p>FY23 Actions and Impact</p> <ul style="list-style-type: none"> • Applied for and were awarded a planning grant through the Mission and Ministry Fund at CommonSpirit Health in order to fund a partnership with the Corporation for Support Housing which specializes in the planning and implementation of supportive housing. Worked with them to develop a business plan and staffing model for a shelter. Also worked to secure a tentative “earmarked” dollar amount of \$500,000 from the City of Dickinson from its ARPA COVID relief dollars for a brick-and-mortar capital purchase of a potential shelter. <p>FY23 Measures</p> <ul style="list-style-type: none"> • 13 Meetings with community stakeholder and state leaders to help solidify a business plan and staffing model for a potential shelter. In addition, work toward a zoning ordinance change to allow for the opening of said shelter. \$47,850 in funding received. <p>FY24 Actions and Impact</p> <ul style="list-style-type: none"> • Partnered with Corporation for Supportive Housing on a business plan, staffing structure, and other operational decisions necessary for a successful homeless shelter and supportive housing shelter. Identified United Way as the partner organization in the community that will own and operate the shelter. • Identified, applied for, and selected to be the project to receive \$1 million dollars from the State of North Dakota for acquisition and renovation of a hotel/motel in Dickinson to be utilized as a shelter. Also identified additional grant opportunities. • Applied for and awarded an implementation grant from the CommonSpirit Health Mission and Ministry Fund in the amount of \$640,000 for operations of the shelter over a three-year period. <p>FY24 Measures</p> <ul style="list-style-type: none"> • 12 Meetings with community stakeholders and state leaders to help solidify a business plan and staffing model for a potential

	<p>shelter. In addition, work toward a zoning ordinance change to allow for the opening of said shelter. \$47,850 in funding received.</p> <p>FY25: Results Pending</p> <p>1.4.2 Invest in community organizations focused on Affordable Housing through the implementation of the Community Health Improvement Grant (CHIG) program.</p> <p>FY23 Actions and Impact</p> <ul style="list-style-type: none"> Activity created in FY24. <p>FY23 Measures</p> <ul style="list-style-type: none"> No measures to report. <p>FY24 Actions and Impact</p> <ul style="list-style-type: none"> Awarded a CHIG to House of Manna. The nonprofit provides clothing, food, and household items to individuals and families in need. <p>FY24 Measures</p> <p>CHIG funds awarded (1/1/24-12/31/24): \$14,987</p>
Planned Resources	<ul style="list-style-type: none"> Staff time and collaboration with community leaders. <p>Potential use of Mission and Ministry Funds (Will apply in FY23 for Planning dollars) Potential city funding for purchase/renovation/operations of shelter in start-up phase.</p>

Health Need: Behavioral Health

	Health Need #2: Behavioral Health (Availability of Mental Health Services, Alcohol use and abuse, Adults, Drug use and abuse, Youth, Depression/anxiety – Youth and Adult)
Goal and Anticipated Impact	Work toward bridging the gap in behavioral health services through a community initiative that brings inpatient and outpatient options to the area while also addressing staffing and facility shortages in the region.
Strategy	Key Activities
2.1 Staffing/Recruitment Programs	<p>2.1.1</p> <ul style="list-style-type: none"> Staffing is an identified critical need and legislation or local match dollars for scholarship and tuition reimbursement programs should be leveraged to encourage individuals to go into the behavioral health field. Career Builders Program consider simplification of program. Challenge Grants and associated amount of available funds. Rural Health Grant – translate into legislation for possible expansion to application for behavioral health. Address barriers to reciprocity for behavioral health providers licensed in other states to become licensed to practice in ND <p>FY23 Actions and Impact</p> <ul style="list-style-type: none"> Working with both Dickinson State University and the State of North Dakota we identified that DSU was offering most of the classes needed to provide for a licensed addiction counseling degree, but they were missing one class. DSU has since added the class and those receiving an associate's degree and bachelor's degrees in various disciplines can now have the classes necessary to become licensed addiction counselors. We have also been able to identify individuals in the community that can provide the clinical hours for these individuals to become licensed. It is not at the level or the number needed in the community, but it is a step in the right direction. We continue this work. <p>FY23 Measures</p> <ul style="list-style-type: none"> Four quarterly meetings with between 15-25 attendees to discuss and coordinate on these issues. Future measures will include the number of students enrolled who could potentially qualify for a license once they graduate. <p>FY24 Actions and Impact</p> <ul style="list-style-type: none"> Conversations with legislators regarding potential changes to the licensing procedures in North Dakota to help make it easier for experienced clinicians to get licensed when moving to the state. . <p>FY24 Measures</p> <ul style="list-style-type: none"> Four quarterly meetings with between 15-25 attendees to discuss and coordinate on these issues. Future measures will include the number of students enrolled who could potentially qualify for a license once they graduate. <p>FY25: Results Pending</p>

<p>2.2 Inpatient Behavioral Health</p>	<p>2.2.1</p> <ul style="list-style-type: none"> Continue work toward bringing ten inpatient beds to CHI St. Alexius Health in Dickinson. This work will be funded in cooperation with CommonSpirit, local, county, and state government. Support and promote the opening of the new Heartview Clinic in St. Joe's Plaza to help address the gap in substance abuse counseling services in the region. Analyze the need for juvenile placement. <p>FY23 Actions and Impact</p> <ul style="list-style-type: none"> Worked with state legislators and the Midwest Division (now Central Region) in Omaha. We were able to work toward and secure grant funding of up to \$8 million dollars for the construction of a 10-bed inpatient acute behavioral health unit at the hospital. <p>FY23 Measures</p> <ul style="list-style-type: none"> Qualifying to apply for the funds. No additional measure at this time. <p>FY24 Actions and Impact</p> <ul style="list-style-type: none"> After running numbers regarding the financial feasibility regarding a new facility being built in Dickinson to help provide for inpatient services for behavioral health it was deemed that it was not feasible to move forward with a inpatient unit. However, we were able to secure services for the elderly through Senior Life Solutions and made great progress in community-wide integration for behavioral health through greater and improved partnerships with organizations like Badlands Human Service Center and others. <p>FY24 Measures</p> <ul style="list-style-type: none"> No measures to report. <p>FY25: Results Pending</p>
<p>2.3 Outpatient Behavioral Health</p>	<p>2.3.1</p> <ul style="list-style-type: none"> Cooperative agreements and arrangements with care sites to ensure patients and customers are getting appropriate care and are referred to the appropriate place the first time as opposed to a trial-and-error approach. Review opportunities to bring outpatient options to the CHI clinic in Dickinson to improve availability of care. Analyze availability and need for juvenile services. <p>FY23 Actions and Impact</p> <ul style="list-style-type: none"> Worked with local stakeholders like Badlands Human Service Center on Behavioral Health Integration in the community. Also began working toward a partnership with Senior Life Solutions which would help provide geriatric psychiatry services in house and help coordinate care once they are discharged. <p>FY23 Measures</p> <ul style="list-style-type: none"> Four quarterly meetings with 20-30 participants ranging from local to state stakeholder groups and organizations. <p>FY24 Actions and Impact</p> <ul style="list-style-type: none"> Worked with local stakeholders like Badlands Human Service Center on Behavioral Health Integration in the community. Also began working toward a partnership with Senior Life Solutions which would help provide geriatric psychiatry services in house and help coordinate care once they are discharged.

	<p>FY24 Measures</p> <ul style="list-style-type: none"> Monthly meetings with 20-30 participants ranging from local to state stakeholder groups and organizations. <p>FY25: Results Pending</p>
2.4 Education Programming	<p>2.4.1</p> <ul style="list-style-type: none"> Coordination with Dickinson State University, the State of North Dakota, and the Southwest Career and Technical Education Center to meet the needs through the development of educational programs that will provide staff for behavioral health. Internship and job shadowing programs for individuals to see if they'd like to pursue a career in behavioral health. Explore existing and identify new clinical training opportunities. <p>FY23 Actions and Impact</p> <ul style="list-style-type: none"> See 2.1.1. <p>FY23 Measures</p> <ul style="list-style-type: none"> See 2.1.1. <p>FY24 Actions and Impact</p> <ul style="list-style-type: none"> See 2.1.1. <p>FY24 Measures</p> <ul style="list-style-type: none"> See 2.1.1. <p>FY25: Results Pending</p> <p>2.4.2 Invest in community organizations focused on Behavioral Health through the implementation of the Community Health Improvement Grant (CHIG) program.</p> <p>FY23 Actions and Impact</p> <ul style="list-style-type: none"> Activity created in FY24. <p>FY23 Measures</p> <ul style="list-style-type: none"> No measures to report. <p>FY24 Actions and Impact</p> <ul style="list-style-type: none"> Awarded a CHIG to Bio Girls, Inc. The nonprofit provides structured curriculum, small group mentoring, and physical activity and community service opportunities for girls with the aim of building confidence and preventative mental health practices. <p>FY24 Measures</p> <ul style="list-style-type: none"> CHIG funds awarded (1/1/24-12/31/24): \$10,175
2.5 Coordination and Communication	<p>2.5.1 Improve coordination between entities through a common touchpoint in the community for resources and information as to resources and programs available.</p> <p>FY23 Actions and Impact</p> <ul style="list-style-type: none"> Worked with local stakeholders to identify barriers and redundancies in services as well as opportunities for collaboration. <p>FY23 Measures</p> <ul style="list-style-type: none"> Four quarterly meetings with 20-30 participants ranging from local to state

Health Need: Childcare/Youth Concerns

 Health Need #3: Childcare/Youth Concerns (Drug use and abuse, Youth, Depression/anxiety – Youth, Having enough child daycare services, Bully/Cyberbullying)	
Goal and Anticipated Impact	Provide additional childcare capacity in Dickinson through the renewal and utilization of grant programs and/or helping eliminate barriers to opening childcare centers, including staffing. Help support youth related activities that create an atmosphere free of judgment/bullying in our schools.
Strategy	Key Activities
3.1 Childcare Programs	<p>3.1.1</p> <ul style="list-style-type: none"> Encourage the development, renewal and continuation of community and state-based grant programs to enable individuals to open new or expand existing daycare facilities to increase capacity. Incentives focused specifically on bringing buildings up to code. Regulatory and code review for efficiencies. <p>FY23 Actions and Impact</p> <ul style="list-style-type: none"> In conversations at our quarterly workgroup meetings, we identified a need for greater coordination between the childcare providers and licensing and education providers as well as legislators and have started to help facilitate those conversations. In addition, additional opportunities for internship or job shadowing opportunities have been identified.

	<p>FY23 Measures</p> <ul style="list-style-type: none"> Four quarterly meetings with 10-20 participants ranging with childcare and education providers. At least four applicants in the past year to Stark Development's childcare cost share program. <p>FY24 Actions and Impact</p> <ul style="list-style-type: none"> In conversations at our quarterly workgroup meetings, we identified a need for greater coordination between the childcare providers and licensing and education providers as well as legislators and have started to help facilitate those conversations. In addition, additional opportunities for internship or job shadowing opportunities have been identified. <p>FY24 Measures</p> <ul style="list-style-type: none"> Four quarterly meetings with 10-20 participants ranging with childcare and education providers. At least three applicants in the past year to Stark Development's childcare cost share program. <p>FY25: Results Pending</p>
3.2 Early Childhood Education	<p>3.2.1</p> <ul style="list-style-type: none"> Coordination with Dickinson State University and the Southwest Career and Technical Education Center to meet the needs through the development of educational programs that will provide staff for daycare centers. Development of programs that will incentivize individuals to participate in these programs through scholarships or tuition reimbursement Education – shadow and internship work to gain on the job experience with school credit prior to graduation <p>FY23 Actions and Impact</p> <ul style="list-style-type: none"> See 3.1.1. <p>FY23 Measures</p> <ul style="list-style-type: none"> See 3.1.1. <p>FY24 Actions and Impact</p> <ul style="list-style-type: none"> See 3.1.1. <p>FY24 Measures</p> <ul style="list-style-type: none"> See 3.1.1. <p>FY25: Results Pending</p>
3.3 Youth Programming	<p>3.3.1</p> <ul style="list-style-type: none"> Coordination across agencies that work directly with youth, whether that be the school system, parks and recreation, or local clubs to bring additional programming to the area that may not currently be offered. Work toward improving current offerings or reassess the effectiveness of them. Early release/closed day after school programming opportunities. <p>FY23 Actions and Impact</p> <ul style="list-style-type: none"> The workgroup shifted from working and communicating through quarterly meetings to monthly meetings when we realized how broad ranging and impactful this topic was. We still consider ourselves a “small town” but we have many “youth” in our community with a broad range of interests. We started by analyzing the current offerings of programs both at the Parks and Rec level for recreational opportunities, but then also on the interventional

	<p>side of things with organizations like Sunrise Youth Bureau. We identified there is a significant number of adolescents in our community that do not feel like they “belong” or feel “lonely” because of their interests. Conversation turned to how we reach them and give them a sense of connectedness, not only to the community, but to other people. A lot of good groundwork was laid.</p> <p>FY23 Measures</p> <ul style="list-style-type: none"> Dickinson Parks and Rec conducted a survey with over 10,000 responses. They identified a number of areas they plan to expand their services into. Four quarterly and two monthly meetings that had 10-20 participants. <p>FY24 Actions and Impact</p> <ul style="list-style-type: none"> Monthly meetings to coordinate and communicate regarding different services and offerings in the community. We still consider ourselves a “small town” but we have many “youth” in our community with a broad range of interests. We started by analyzing the current offerings of programs both at the Parks and Rec level for recreational opportunities, but then also on the interventional side of things with organizations like Sunrise Youth Bureau. We identified there is a significant number of adolescents in our community that do not feel like they “belong” or feel “lonely” because of their interests. Conversation turned to how we reach them and give them a sense of connectedness, not only to the community, but to other people. Future action will include working to enhance mentorship programs that are existing in Dickinson currently and also potentially creating new opportunities through the work of our local Community Health Worker in the clinic. Supported Dickinson’s BIO (Beauty Inside and Out) Girls program with a Community Health Improvement Grant. <p>FY24 Measures</p> <ul style="list-style-type: none"> Monthly meetings that had 10-20 participants. <p>FY25: Results Pending</p>
3.4 Youth Commission	<p>3.4.1</p> <ul style="list-style-type: none"> Support the activities of the youth commission through financial contributions or the contribution of time and talent to their activities in the community. Listen to their suggestions with an open mind and do what we can to implement their ideas or solutions. Developing strategy and business plan for a youth center in Dickinson. <p>FY23 Actions and Impact</p> <ul style="list-style-type: none"> Working with the Dickinson Youth Commission in supporting their work to be a voice for youth in Dickinson. Direct participation from the Director of Mission as an advisor for the youth commission in their work. Planning of various youth centered events. <p>FY23 Measures</p> <ul style="list-style-type: none"> Over 750 attendees of various ages attended the youth commission’s programs in FY23 and additional programming and more regular programming is planned for FY24. <p>FY24 Actions and Impact</p> <ul style="list-style-type: none"> Working with the Dickinson Youth Commission in supporting their work to be a voice for youth in Dickinson. Health Need: Elder Concerns

	Health Need #4: Elder Concerns (Availability of Mental Health Services, Availability of resources to help elderly stay in their homes, Cost of long-term/nursing home care, Not enough affordable housing)
Goal and Anticipated Impact	Help elderly members of the community address the various needs they are faced with, including, but not limited to mental health services, transportation, cost of housing, etc.
Strategy	Key Activities
4.1 Transportation	<p>4.1.1</p> <ul style="list-style-type: none"> • Increase opportunities for transportation in the community for those who can no longer operate, or cannot afford to have a vehicle of their own. • Assess feasibility of route structure and potential expansion of route. • Ensure accessibility of transportation and qualifications/proper training of transportation staff. • Look into the possibility of transportation vouchers for the less fortunate so they can get to medical appointments, shopping and employment opportunities. <p>FY23 Actions and Impact</p> <ul style="list-style-type: none"> • Working with ElderCare (local public transit provider) and the City of Dickinson, we were able to increase the number of vouchers available for free rides for the elderly and others in the community. In addition, work continues to help identify usage rates and reasons for usage of public transit. Numbers continue to increase. <p>FY23 Measures</p> <ul style="list-style-type: none"> • Four quarterly meetings with 10-15 attendees. <p>FY24 Actions and Impact</p> <ul style="list-style-type: none"> • Working with ElderCare (local public transit provider) and the City of Dickinson, we were able to increase the number of vouchers available for free rides for the elderly and others in the community. In addition, work continues to help identify usage rates and reasons for usage of public transit. Numbers continue to increase. <p>FY24 Measures</p> <ul style="list-style-type: none"> • Four quarterly meetings with 10-15 attendees. <p>FY25: Results Pending</p>
4.2 Employment/Volunteer Opportunities	<p>4.2.1</p> <ul style="list-style-type: none"> • Assessment of current and new opportunities for employment for the aged population in Dickinson to allow livable wages to support themselves and their families • Assessment of current and new opportunities for volunteering for the aged population in Dickinson • Providing support for the elderly to have a quality of life that respects their dignity. <p>FY23 Actions and Impact</p> <ul style="list-style-type: none"> • CHNA Elder Workgroup is working to identify and consolidate information on these types of opportunities in the community. In the meantime, the

	<p>hospital continues to have 15-20 elderly come and volunteer for a number of different things in the hospital. We have discussed a community wide effort to increase participation in the adopt a grandparent program that is run in some of the long-term care locations as well.</p> <p>FY23 Measures</p> <ul style="list-style-type: none"> • Four quarterly workgroup meetings with 10-15 attendees. <p>FY24 Actions and Impact</p> <ul style="list-style-type: none"> • Working in conjunction with the Youth Concerns workgroup, we have identified some potential opportunities for mentorship programs to be supported or started that could help both populations. Our Community Health Worker is collecting information on elderly who may be interested in participating and moving forward with these programs. <p>FY24 Measures</p> <ul style="list-style-type: none"> • Four quarterly workgroup meetings with 10-15 attendees. <p>FY25: Results Pending</p>
4.3 Care Coordination and Communication	<p>4.3.1</p> <ul style="list-style-type: none"> • Leverage community presence of all organizations to publicize and promote the activities currently ongoing and active in the community to address this need to increase visibility and demonstrate the commitment to addressing it. • Cooperative agreements and arrangements with care sites to ensure patients and customers are getting appropriate care and are referred to the appropriate place the first time as opposed to a trial-and-error approach. <p>FY23 Actions and Impact</p> <ul style="list-style-type: none"> • Worked with local stakeholders to identify barriers in services as well as opportunities for collaboration. There is an increasing need for this as geriatric psych is a growing need and concern. Began developing a relationship with Senior Life Solutions as a potential inpatient and outpatient link for this in the community. <p>FY23 Measures</p> <ul style="list-style-type: none"> • Four quarterly workgroup meetings with regular attendees as well as organization to organization meetings with the hospital and partners in the community on integrating care. <p>FY24 Actions and Impact</p> <ul style="list-style-type: none"> • Worked with local stakeholders to identify barriers in services as well as opportunities for collaboration. Senior Life Solutions was established an outpatient link for this in the community. <p>FY24 Measures</p> <ul style="list-style-type: none"> • Monthly workgroup meetings with regular attendees as well as organization to organization meetings with the hospital and partners in the community on integrating care. 700+ referrals to SLS in its first month operating in Dickinson. <p>FY25: Results Pending</p>

4.4 Recruitment and Retention Programs	<p>4.4.1</p> <ul style="list-style-type: none"> Staffing is an identified critical need and legislation or local match dollars for scholarship and tuition reimbursement programs should be leveraged to encourage individuals to go into the long-term nursing and behavioral health field. Recruitment initiatives and programs to incentivize moving to North Dakota. International recruitment programs. <p>FY23 Actions and Impact</p> <ul style="list-style-type: none"> The SW Career and Technical Education Center provides a number of opportunities for job shadowing and education that will help with staffing long-term care in the future, but retention is an identified issue. Meeting with legislators during the session regarding potential for tuition assistance and scholarship opportunities. Brainstorming and idea sharing was the priority in FY23. <p>FY23 Measures</p> <ul style="list-style-type: none"> Four quarterly workgroup meetings with 10-15 regular attendees. <p>FY24 Actions and Impact</p> <ul style="list-style-type: none"> The SW Career and Technical Education Center provides a number of opportunities for job shadowing and education that will help with staffing long-term care in the future, but retention is an identified issue. Meeting with legislators during the session regarding potential for tuition assistance and scholarship opportunities. Brainstorming and idea sharing was the priority in FY23. <p>FY24 Measures</p> <ul style="list-style-type: none"> Monthly workgroup meetings with 10-15 regular attendees. <p>FY25: Results Pending</p>
4.5 Education Programming	<p>4.5.1</p> <ul style="list-style-type: none"> Coordination with Dickinson State University and the Southwest Career and Technical Education Center to meet the needs through the development of educational programs that will provide staff for long-term care. Education – shadow and internship work to gain on the job experience with school credit prior to graduation Explore education options for non-traditional students at the post-high school level. Seek area employers to assist in clinical training opportunities. <p>FY23 Actions and Impact</p> <ul style="list-style-type: none"> Working with SW CTE and Dickinson State University to identify additional areas where we can bring programming on board that could assist with long-term nursing home and assisted living care sites. <p>FY23 Measures</p> <ul style="list-style-type: none"> Four quarterly meetings with 10-20 participants ranging from a variety of local stakeholder organizations. <p>FY24 Actions and Impact</p> <ul style="list-style-type: none"> Working with SW CTE and Dickinson State University to identify additional areas where we can bring programming on board that could assist with long-term nursing home and assisted living care sites.

ADAMS COUNTY, NORTH DAKOTA

Overall Social Vulnerability¹

Social vulnerability refers to a community's capacity to prepare for and respond to the stress of hazardous events ranging from natural disasters, such as tornadoes or disease outbreaks, to human-caused threats, such as toxic chemical spills. The **CDC/AITSD Social Vulnerability Index (CDC/AITSD SVI 2022)** County Map depicts the social vulnerability of communities, at census tract level, within a specified county. CDC/AITSD SVI 2022 groups **seventeen census-derived factors** into **four themes** that summarize the extent to which the area is socially vulnerable to disaster. The factors include economic data as well as family education, family characteristics, housing, language ability, ethnicity, and vehicle access. Overall, Social Vulnerability combines all the variables to provide a comprehensive assessment.

CDC/ATSDR SVI 2022 – BOWMAN COUNTY, NORTH DAKOTA

DUNN COUNTY, NORTH DAKOTA

Overall Social Vulnerability¹

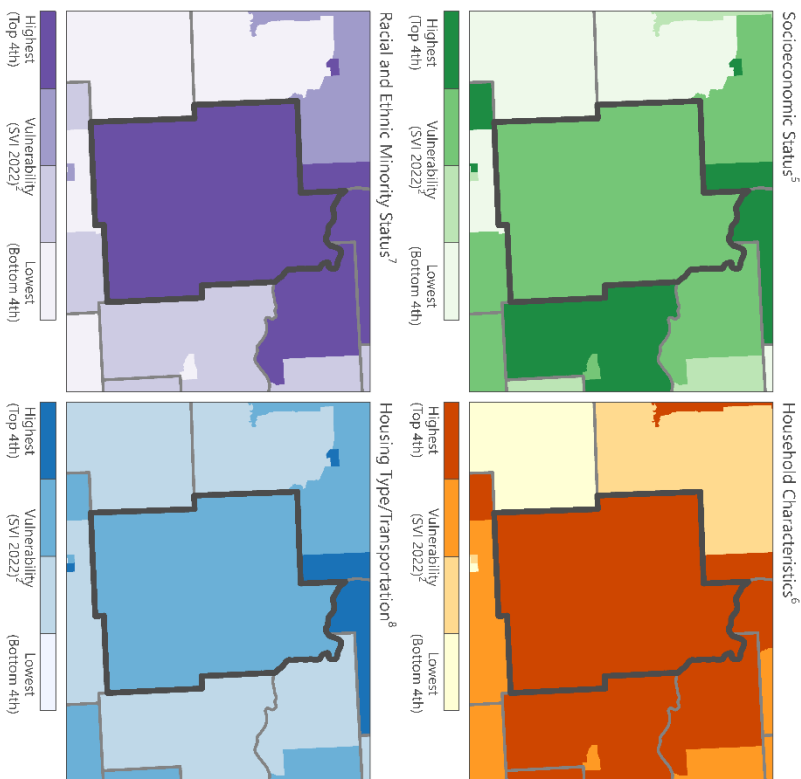

Social vulnerability refers to a community's capacity to prepare for and respond to the stress of hazardous events ranging from natural disasters, such as tornadoes or disease outbreaks, to human-caused threats, such as toxic chemical spills. The **CDC/ATSDR Social Vulnerability Index (CDC/ATSDR SVI 2022)** County Map depicts the social vulnerability of communities, at the census tract level, within a specified county. CDC/ATSDR SVI 2022 groups into **sixteen census-derived factors** into **four themes** that summarize the extent to which the area is socially vulnerable to disaster. The factors include economic data as well as data regarding education, family characteristics, housing, language ability, ethnicity, and vehicle access. Overall Social Vulnerability combines all the variables to provide a comprehensive assessment.

Table B7.1: Health Behaviors, Adams County, ND, North Dakota, and the U.S. (2021)

Health Behavior	Adams County	North Dakota	United States
Adult Smoking	18%	16%	15%
Adult Obesity	40%	36%	34%
Adult Excessive Drinking	18%	23%	18%
Alcohol-Impaired Driving Deaths	33%	39%	26%
Physical Inactivity ¹	28%	25%	23%
Access to Exercise Opportunities ²	63%	76%	84%
Poor Mental Health Days ³	3.8	4.0	4.8

Source: 2024 County Health Rankings & Roadmaps, a program of the University of Wisconsin Population Health Institute.

¹Physical Inactivity refers to the percent of adults who report participating in no physical activity outside of work.

²Access to Exercise Opportunities refers to the percent of adults who report living close to a park or recreation facility.

³The average number of self-reported mentally unhealthy days in the past 30 days.

Table B8.1: Leading Causes of Death in Adams County, ND Residents < Age 75 (2019-2021)

Cause of Death	Deaths	Rate Per 100,000 Population Under 75
Malignant Neoplasms ¹	10	Unreliable
Diseases of the heart ¹	10	Unreliable

Source: 2024 County Health Rankings & Roadmaps, a program of the University of Wisconsin Population Health Institute.

¹Crude rates per 100,000 population under 75 are unreliable due to the small number of deaths.

Table B9.1: Other Health Factors, Adams County, ND, North Dakota, and United States

Description of Factor	Adams County	North Dakota	United States
Uninsured Rate, 2021	12%	9%	10%
Medicaid Coverage, 2022	8.1%	11.9%	20.4%
Unemployment Rate, 2022	2.2%	2.1%	3.7%
Low Birthweight Rate, 2016-2022	-	7%	8%
Annual Mammogram Rate, 2021 ¹	45%	53%	43%
Annual Flu Shot Rate, 2021 ²	50%	49%	46%
Food Environment Index, 2019-2021 ³	8.8	9.1	7.7

Sources: US Census Bureau's Small Area Health Insurance Estimates (SAHIE) program, 2021; The Local Area Unemployment Statistics (LAUS) program of the Bureau of Labor Statistics, 2022; Map the Meal Gap, Feeding America, 2021; The Centers for Medicare & Medicaid Services Office of Minority Health's Mapping Medicare Disparities (MMD) Tool, 2021

¹Percentage of female Medicare enrollees who received an annual mammogram. ²Percent of Medicare enrollees who received an annual flu shot. ³The Food Environment Index is a measure of food environment that combines food insecurity rates with rates of access to healthy foods. It is scored on a scale from 0 (worst) to 10 (best).

Table B10.1: Number of Residents Per Health Care Provider in Adams County, ND, North Dakota, and the United States

Type of Provider	Adams County	North Dakota	United States
Primary Care Physicians, 2021	200:1	1,290:1	1,330:1
Mental Health Care Providers, 2024	1,080:1	420:1	300:1
Dentists, 2022	1,060:1	1,420:1	1,360:1

Sources: Health Resources & Services Administration, Area Health Resource Files; CMS, National Provider Identification Registry.

Table B11.1: National Risk Index Percentiles for Adams County, ND when compared to North Dakota Counties and U.S. Counties (2024)

Index	Percentile within North Dakota	U.S. Percentile
Expected Annual Loss	11.3	7.7
Social Vulnerability	77.4	26.9
Community Resilience	20.8	37.5
<i>National Risk Index</i>	<i>13.2</i>	<i>7.3</i>

Note: The Risk Index can be read as "13.2% of counties in North Dakota have a lower Risk Index than Adams County; 7.3% of U.S. counties have a lower Risk Index than Adams County."

Sources: FEMA, National Risk Index; CDC/ATSDR Social Vulnerability Index 2022; University of South Carolina's Hazards and Vulnerability Research Institute (HVRI)'s Baseline Resilience Indicators for Communities (HVRI BRIC).

Table B7.8: Health Behaviors, Slope County, ND, North Dakota, and the United States (2021)

Health Behavior	Slope County	North Dakota	United States
Adult Smoking	16%	16%	15%
Adult Obesity	38%	36%	34%
Adult Excessive Drinking	19%	23%	18%
Alcohol-Impaired Driving Deaths	67%	39%	26%
Physical Inactivity ¹	24%	25%	23%
Access to Exercise Opportunities ²	1%	76%	84%
Poor Mental Health Days ³	3.7	4.0	4.8

Source: 2024 County Health Rankings & Roadmaps, a program of the University of Wisconsin Population Health Institute.

¹Physical Inactivity refers to the percent of adults who report participating in no physical activity outside of work.

²Access to Exercise Opportunities refers to the percent of adults who report living close to a park or recreation facility.

³The average number of self-reported mentally unhealthy days in the past 30 days.

Table B8.8: Due to its small population, leading causes of death in Slope County cannot be estimated.

Table B9.8: Other Health Factors, Slope County, ND, North Dakota, and United States

Description of Factor	Slope County	North Dakota	United States
Uninsured Rate, 2021	9%	9%	10%
Medicaid Coverage, 2022	15.7%	11.9%	20.4%
Unemployment Rate, 2022	2.6%	2.1%	3.7%
Low Birthweight Rate, 2016-2022	-	7%	8%
Annual Mammogram Rate, 2021 ¹	36%	53%	43%
Annual Flu Shot Rate, 2021 ²	11%	49%	46%
Food Environment Index, 2019-2021 ³	8.1	9.1	7.7

Sources: US Census Bureau's Small Area Health Insurance Estimates (SAHIE) program, 2021; The Local Area Unemployment Statistics (LAUS) program of the Bureau of Labor Statistics, 2022; Map the Meal Gap, Feeding America, 2021; The Centers for Medicare & Medicaid Services Office of Minority Health's Mapping Medicare Disparities (MMD) Tool, 2021

¹Percentage of female Medicare enrollees who received an annual mammogram.

²Percent of Medicare enrollees who received an annual flu shot.

³The Food Environment Index is a measure of food environment that combines food insecurity rates with rates of access to healthy foods. It is scored on a scale from 0 (worst) to 10 (best).

Table B10.8: Number of Residents Per Health Care Provider in Slope County, ND, North Dakota, and the United States

Type of Provider	Slope County	North Dakota	United States
Primary Care Physicians, 2021	690:0	1,290:1	1,330:1
Mental Health Care Providers, 2024	670:0	420:1	300:1
Dentists, 2022	670:0	1,420:1	1,360:1

Sources: Health Resources & Services Administration, Area Health Resource Files; CMS, National Provider Identification Registry.

Table B11.8: National Risk Index Percentiles for Slope County, ND when compared to North Dakota Counties and U.S. Counties (2024)

Index	Percentile within North Dakota	U.S. Percentile
Expected Annual Loss	1.9	2.4
Social Vulnerability	5.7	1.0
Community Resilience	5.7	7.7
<i>National Risk Index</i>	<i>1.9</i>	<i>1.0</i>

Note: The Risk Index can be read as "1.9% of counties in North Dakota have a lower Risk Index than Slope County; 1.1% of U.S. counties have a lower Risk Index than Slope County."

Appendix C: Survey Instrument

Please note: the instrument below has been formatted to allow for mail completion and may look slightly different than presented online. The questions are the same.

COMMUNITY HEALTH NEEDS ASSESSMENT 2024

Every three years, we conduct a Community Health Needs Assessment (CHNA) to better understand health and well-being at individual and community levels. This survey will ask you a few questions about the challenges in your community, and how you think they should be approached. It will also ask a few questions about you, so we can understand more about your individual experiences as they relate to your health and well-being. There are no wrong answers to these questions, and your answers are anonymous. Your name will not be on any reports, and your answers will be grouped with those from other people who respond.

This survey will take about 10 minutes to complete. Your participation is voluntary. If you do not want to participate at all, or if you do not want to answer a particular question, that's okay. If you choose to do the survey, your answers will be kept anonymous and confidential and will be used only to answer questions related to the purpose of this study. What we learn from the survey will be used to plan communication strategies to help people in your community.

You have the option to include your email address in a gift card prize draw! Simply complete the survey, include your email address at the end, and return the survey to us for your chance to win!

Your contact information will not be used for any other purpose than the prize draw. It will not be used in analysis or reporting.

If you have any trouble with any question, please refer to the following resources:

Ashley Carroll	ashley.carroll@commonspirit.org
----------------	---------------------------------

Completing the survey means that you give your consent to participate in this Community Health Needs Assessment.

What is your zip code?

What is the state where you live?

What is the county where you live?

Please indicate your level of agreement for each of the following statements about the people in your community.

	Strongly Disagree	Somewhat Disagree	Neither Agree nor Disagree	Somewhat Agree	Strongly Agree	I don't know
My community is culturally diverse	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
People feel welcome and accepted in my community	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
There is a sense of civic responsibility and engagement in my community	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
The people in my community have a shared vision and community goals	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>

Is there anything you would like to add about the people in your community?

Please indicate your level of agreement for each of the following statements about services in your community.

	Strongly Disagree	Somewhat Disagree	Neither Agree nor Disagree	Somewhat Agree	Strongly Agree	I don't know
My community has adequate opportunities for recreation and leisure for all ages	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
My community has a thriving business district with access to needed goods and services	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
My community provides adequate public services like snow removal, garbage collection, or recycling	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
My community has adequate child care services	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
My community has adequate senior services	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
My community has a quality education system	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
My community has adequate public transportation services	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
My community has adequate employment opportunities that pay a livable wage	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
My community has adequate law enforcement.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
My community has enough affordable housing for everyone who needs it	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
My community has adequate access to healthy and affordable foods	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>

Is there anything you would like to add about services in your community?

How concerned are you about each of the following in your community?

	Not concerned at all	Slightly concerned	Somewhat concerned	Very concerned	I don't know	Not applicable to my community
Substance misuse (alcohol, prescription drugs, tobacco or vaping, illicit or street drugs)	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
Mental health (anxiety, stress, depression)	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
Suicide	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
Access to healthy foods	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
Food insecurity, hunger	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
Poverty in my community	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
Sexually transmitted diseases	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
Crime in my community	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
Availability of long-term care or assisted living facilities	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
Availability of elder care services to support independent living, or aging in place	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
Obesity or overweightness	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
Negative effects of social media	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>

Are there other issues in your community that you are concerned about?

How concerned are you about the following types of violence in your community?

	Not concerned at all	Slightly concerned	Somewhat concerned	Very concerned	I don't know	Not applicable to my community
Cyber bullying	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
Child abuse or neglect	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
Intimate partner violence	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
Emotional abuse (including: intimidation, isolation, verbal threats, economic abuse/withholding funds)	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
Sexual abuse or assault	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
Stalking	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
Verbal threats or harassment	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
Gun violence	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>

Are there other types of violence in your community that you are concerned about?

Please indicate your level of agreement with the following issues related to medical services in your community.

	Strongly Disagree	Somewh at Disagree	Neither Agree nor Disagree	Somewh at Agree	Strongly Agree	I don't know
It is easy to get an appointment for health care services in my community	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
My community has adequate primary care providers and nurses	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
My community has adequate health care services to meet my health care needs	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
My community has adequate dental care providers	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
My community has adequate vision care providers	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
My community has adequate mental health services	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
My community has adequate access to emergency response services such as ambulance or fire fighters	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
I can easily navigate the health care system in my community	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
I receive quality health care in my community	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
In my community, care is well-coordinated across providers and services	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>

Do you have any other concerns about access to health care services in your community?

Which preventative health care measures have you received in the last year? Select all that apply.

- | | |
|--|---|
| <input type="checkbox"/> Vaccinations | <input type="checkbox"/> Counseling for tobacco use, alcohol use, weight loss, or behavioral health |
| <input type="checkbox"/> Annual physical exam | <input type="checkbox"/> Depression screening |
| <input type="checkbox"/> Mammogram | <input type="checkbox"/> STD/STI screening |
| <input type="checkbox"/> Colonoscopy | <input type="checkbox"/> Vision exam |
| <input type="checkbox"/> Blood pressure or cholesterol screening | <input type="checkbox"/> Dental exam/annual checkup |

To what degree are each of the following a barrier to your ability to access health care services?

	Not at all a barrier	Somewhat of a barrier	Extreme barrier	I don't know
Transportation to health services locations	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
Availability of local services to meet my health care needs	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
Ability to see the same provider over time	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
Scheduling health care services within clinic hours	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
The price of prescription drugs, even with insurance	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
The price of health care services (such as co-payments or deductibles), even with health insurance	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
Communication or language barriers	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
Difficulty using or accessing technology to communicate with provider or system	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
Concerns about confidentiality	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
Disability accommodations	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
Health insurance coverage	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
The length of time to see a provider, from making an appointment to attending the appointment	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
Distance to access care	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>

Are there other barriers to your ability to access health care in your community?

Do you currently have a primary care doctor?

- ☐ Yes
- ☐ No
- ☐ Prefer not to respond

Where do you find out about health information? Select all that apply.

- | | |
|--|---|
| <input type="checkbox"/> Primary care provider | <input type="checkbox"/> My employer |
| <input type="checkbox"/> Other health care providers | <input type="checkbox"/> Newspaper |
| <input type="checkbox"/> Public health professionals | <input type="checkbox"/> Radio |
| <input type="checkbox"/> Internet sources | <input type="checkbox"/> Other (please specify _____) |
| <input type="checkbox"/> Word of mouth | |
| <input type="checkbox"/> Advertising, such as TV commercials | |

What type of health insurance coverage do you currently have? Select all that apply.

- ☐ Commercial private health insurance (coverage purchased by you or your employer)
- ☐ Medicare

| <input type="checkbox"/> Applying for a credit card, bank loan, or mortgage | |
| <input type="checkbox"/> Shopping at a store or eating at a restaurant | <input type="checkbox"/> Prefer not to say |

How difficult is it for you to pay for heating, housing, or medical care?

- ☐ Not difficult at all
- ☐ Slightly difficult
- ☐ Somewhat difficult
- ☐ Very difficult
- ☐ I don't know/I'm not sure

In the last month, have you had to sleep outside, in a shelter, in your car, at a family member or friend's house, or in a place not meant for sleeping?

- ☐ Yes
- ☐ No
- ☐ Prefer not to say

What is your age?

What is your gender?

- ☐ Male
- ☐ Female
- ☐ Non-binary/third gender
- ☐ Other (please describe: _____)
- ☐ Prefer not to say

Which one of these groups best represents your race? Select all that apply.

- | | |
|--|---|
| <input type="checkbox"/> American Indian or Alaska Native | <input type="checkbox"/> White |
| <input type="checkbox"/> Black or African American | <input type="checkbox"/> Other (please describe: _____) |
| <input type="checkbox"/> Asian | |
| <input type="checkbox"/> Native Hawaiian or Pacific Islander | |
| <input type="checkbox"/> Two or more races | |

Do you identify as Hispanic, Latine, or of Spanish origin?

- ☐ Yes
- ☐ No
- ☐ Prefer not to say

What is your estimated household income?

- | | |
|--|--|
| <input type="checkbox"/> Less than \$15,000 | <input type="checkbox"/> \$75,000 - \$99,999 |
| <input type="checkbox"/> \$15,000 - \$24,999 | <input type="checkbox"/> \$100,000 - \$149,999 |
| <input type="checkbox"/> \$25,000 - \$49,999 | <input type="checkbox"/> \$150,000 and over |
| <input type="checkbox"/> \$50,000 - \$74,999 | <input type="checkbox"/> Prefer not to say |

What is the highest level of education you have completed?

- | | |
|---|--|
| <input type="checkbox"/> Less than 9th Grade | <input type="checkbox"/> Associate's degree |
| <input type="checkbox"/> 9th to 12th Grade, no diploma | <input type="checkbox"/> Bachelor's degree |
| <input type="checkbox"/> High school graduate or equivalent | <input type="checkbox"/> Graduate or professional degree |
| <input type="checkbox"/> Some college, no degree | <input type="checkbox"/> Prefer not to say |

Which of these categories best describes your employment status?

- ☐ Employed full time
- ☐ Employed part time
- ☐ Unemployed
- ☐ Retired
- ☐ Student
- ☐ Disabled
- ☐ Prefer not to say

What is your marital status?

- ☐ Single
- ☐ Married or in a domestic partnership
- ☐ Divorced or separated
- ☐ Widowed
- ☐ Prefer not to say

How many people live in your household? Use numbers only. If you live alone, put "1".

Do you have access to reliable internet in your home?

- ☐ Yes
- ☐ No
- ☐ Prefer not to say

How did you access this survey?

- ☐ Hospital or public health website
- ☐ Hospital or public health social media page (e.g., Facebook)
- ☐ Hospital or public health employee directly
- ☐ Economic development website or social media
- ☐ Church bulletin
- ☐ Other website or social media page (please specify) _____
- ☐ Newsletter (please specify from where) _____
- ☐ Newspaper advertisement
- ☐ Word of mouth
- ☐ Direct email (please specify from where) _____
- ☐ Another way (please specify) _____

Please provide any additional comments you think we could use to improve the delivery of health care in your community. If you need more space, please attach additional paper.

[illegible]

If you would like to enter our prize drawing, please write your email address below!

Thanks for completing our survey!
We appreciate your time, and your responses will help inform health care decisions in your community.

If you entered your name to be included in our draw, we'll contact the winners BY EMAIL once the survey has closed. Good luck!
