Welcome Message

Dear Public Health students,

Welcome to the *North Dakota State University MPH Program*! You are about to embark on an exciting and important journey. Public health has long been a foundation for a healthy society. With the relatively recent COVID-19 outbreak and ongoing concerns about the ‘next pandemic,’ the growing epidemic of opioid and other substance misuse, and pervasive disparities in health and mental health outcomes, public health has never been more visible and more important. Whether you are specializing in Community Health Sciences or Epidemiology, as a public health professional you will play a significant role in creating the conditions for everyone to reach their fullest health potential.

With guidance and mentorship from MPH Program faculty and staff, you will develop the public health skills that will serve the people of North Dakota, the Northern Great Plains, and beyond. Together, we will work to create an intellectually challenging and socially engaging experience that provides graduates with the motivation, skills, and knowledge to improve health in our communities and in populations. This is both a responsibility and an opportunity for all of us to learn and grow as public health professionals.

Consistent with the public health approach, our education, service, and research initiatives will stress an ecological understanding of health problems and a systems approach to developing innovative solutions to promote and protect the health and wellness of people and communities. In keeping with this, our program draws its faculty from many disciplines representing expertise in social and behavioral sciences, epidemiology, research methods, and clinical healthcare.

The NDSU MPH Program is accredited by the *Council on Education for Public Health (CEPH)*. CEPH is the only accrediting body for schools and programs of public health in the United States. An accredited program guarantees that you are getting the highest level of public health education available. As an accredited program, we are also members of the *Association of Schools and Programs of Public Health (ASPPH)*, which provides numerous opportunities for students to engage in activities, fellowships, and networking at the local and national level.

Finally, as part of our support for your journey, we have developed this MPH Student Handbook, which contains a wealth of information to help you succeed. Please keep and refer to it as you progress through the program. We also want to remind you that you will be required to complete pre- and post-competency surveys for the MPH degree. These surveys have been crafted to assess learning, to help us improve the quality of our program, and to meet accreditation criteria.

Once again, we welcome you to the program. We trust that each of you will challenge yourself to develop new ways to solve our society’s complex health problems. Most importantly, we hope that with the knowledge and skills you gain as a student in the *NDSU MPH* program, you will lead our world to better health!

On behalf of the Faculty and Staff of the NDSU Department of Public Health,

A handwritten signature in blue ink, reading "Pamela Jo Johnson". The signature is fluid and cursive, with a long horizontal line extending from the end.

Pamela Jo Johnson, MPH, PhD, FACE
Professor and Chair

I. Policy Manuals

In addition to this MPH handbook, NDSU public health students can draw from the following resources:

College of Health and Human Sciences Policy Manual

https://workspaces.ndsu.edu/fileadmin/hhs/policy/NDSU_CHHS_Policies_FINAL.pdf

Policy 107 addresses Student Academic and Conduct Standards

- Academic Standards
- Conduct Standards
- Sanctions
- Appeal Process

Policy 108 Selection of Scholarship Recipients

NDSU Graduate College Policies

<https://catalog.ndsu.edu/graduate/policies/>

The catalog covers all graduate-level academic policies as well as resources and processes toward graduation. The MPH is a **Plan C** degree, wherever degree plans are differentiated.

Academic Standing

The scholastic requirements below apply to each student enrolled in the Graduate College.

Programs may have additional requirements.

- A student must have a cumulative grade point average (CGPA) of at least 3.0 to be in good academic standing and to receive a graduate degree.
- All courses taken by a graduate student for which grades are given (not satisfactory/unsatisfactory) will be used in calculating the semester and CGPA.
- Grades of A, B, C or S may be used to fulfill graduation requirements.
- Earning more than two grades of C, D, F or U may be grounds for dismissal upon recommendation by the program coordinator.

Graduate School Processes and Forms

https://www.ndsu.edu/gradschool/current_students/forms

There are electronic forms that the student must initiate, usually after consultation with their advisor.

Students may need to access forms* to:

- Substitute a course requirement (due to department curriculum change or other approval)
- Use the NDUS collaborative course option (e.g., taking a class from UND MPH program)
- Taking an elective course not currently listed on our approved electives list
- Various other actions

**Note: Angela Skaff (angela.skaff@ndsu.edu) is to be listed as the 'Program Coordinator' as the signatory. The MPH is a Plan C. We do not use a committee structure, only the advisor.*

NDSU Code of Student Conduct (Policy 601)

<https://www.ndsu.edu/deanofstudents/accountability/conduct>

Academic Integrity in Instructional Contexts (Policy 335)

<https://catalog.ndsu.edu/academic-policies/academic-honesty-integrity/>

The academic community operates on the basis of honesty, integrity, and fair play. This trust is violated when students engage in academic misconduct, either inadvertently or deliberately. This policy serves as the guideline for cases in which cheating, plagiarism, or other academic misconduct have occurred in an instructional context (e.g., coursework, exams for degree requirements, practical experience, or fieldwork experience). Penalties may be varied with the gravity of the offense and the circumstances of the particular case. Penalties may include, but are not limited to, failure for a particular assignment, a test, or the course.

Academic or research misconduct (intentional or otherwise) includes but is not limited to the following:

- a) Plagiarizing, i.e., submitting work that is, in part or in whole, not entirely one's own, without attributing such portions to their correct sources;
 - i. Cases of apparently unintentional plagiarism or source misuse must be handled on a case-by-case basis and in the context of the instructor's policies. Unintentional plagiarism may constitute academic misconduct.
 - ii. Improper attribution of sources may be a symptom of bad writing and not plagiarism. Instructors are encouraged to recognize that citation skills are developed over time and are contextual.
- b) Receiving, possessing, distributing or using any material or assistance not authorized by the instructional staff member in the preparation of papers, reports, examinations or any class assignments to be submitted for credit as part of a course or to fulfill other academic requirements;
- c) Unauthorized collaborating on individual assignments or representing work from unauthorized collaboration as independent work;
- d) Having others take examinations or complete assignments (e.g., papers, reports, laboratory data, or products) for oneself;
- e) Stealing or otherwise improperly obtaining copies of an examination or assignment before or after its administration, and/or passing it onto other students;
- f) Unauthorized copying, in part or in whole, of exams or assignments kept by the instructional staff member, including those handed out in class for review purposes;
- g) Altering or correcting a paper, report, presentation, examination, or any class assignment, in part or in whole, without the instructional staff member's permission, and submitting it for reevaluation or re- grading;
- h) Misrepresenting one's attendance or the attendance of others (e.g., by PRS or attendance sheet) in a course or practical experience where credit is given and/or a mandatory attendance policy is in effect;
- i) Fabricating or falsifying information in research, papers, assignments, projects, or reports;
- j) Violating IRB protocol;

- k) Aiding or abetting academic misconduct, i.e., knowingly giving assistance not authorized by the instructional staff member to another in the preparation of papers, reports, presentations, examinations, or laboratory data and products;
- l) Unauthorized copying of another student's work (e.g., data, results in a lab report, or exam);
- m) Tampering with or destroying materials, (e.g., in order to impair another student's performance);
- n) Utilizing false or misleading information (e.g., illness or family emergency) to gain extension or exemption on an assignment or test.

II. Campus Safety

Equity

It is the responsibility of the entire university community to foster a safe and non-discriminatory learning, living, and working environment at NDSU. NDSU has specific policies related to equity as well as a process for reporting discrimination, harassment, and/or retaliation.

<https://www.ndsu.edu/equity/>

Personal Safety and Security

For all NDSU safety and security related policies and preparedness, please see the *Personal Safety + Security* report at

http://www.ndsu.edu/police_safety/universitypolice/annualecurityreport/

For weather-related and all other postings for university closures, please check local media outlets and www.ndsu.edu for an announcement on the homepage.

Campus Emergency Notification Systems (CENS)

NDSU utilizes a number of emergency notification systems that comprise NDSU CENS. These methods of communication include the NDSU-CAMPUS-ALERT@LISTSERV for official email notification to all current students and employees, communications sent through the state provided email notification system to registered cellphone and/or landline phones, and NDSU digital signage, and an emergency alert system for audio and video interruption of available on-campus analog cable television service.

https://www.ndsu.edu/police_safety/communications_call_center/campusemergencynotificationsystems/

III. MPH Policies and Procedures

Expectations of Students

Graduate Student Responsibilities

As a graduate student in a professional program, you are expected to take on more responsibility and initiative to complete your degree than in your undergraduate experience. You will need to plan your program, keep up with classes, complete your practicum and integrative learning experience, and leave sufficient time for reading, writing, and thinking. On average, students should expect to spend a *minimum* of two hours of study or preparation for each *hour* spent in class. For example, students taking a three-credit course with 3 hours of in class time should expect to spend a minimum of **6 hours** outside of class on course material.

It is your responsibility to know what classes you need, take these classes when offered, keep in contact with your advisor, know when deadlines are, and know what forms are required and where and when to submit them. You will be supported by faculty, staff, and student peers, but it is ultimately your responsibility to be prepared for classes and to complete your coursework. In order to be successful in your graduate work, you will need to outline your goals and work towards them. Here is the direct link to follow the graduate school pathway to graduation (follow plan C):

https://www.ndsu.edu/gradschool/current_students/pathway_to_degree_completion

Class Attendance

Attendance in MPH classes is a requirement whether the student participates in the classroom directly or via the internet through live streaming. If a student has a conflict, they must contact the instructor for approval to miss and establish a makeup plan.

Communication

Email is the official form of communication for the University and the MPH program. All students are expected to use their university email address and *pay prompt attention to NDSU emails*. It is strongly recommended that you check your NDSU email account daily. Students are also *responsible for maintaining contact with their NDSU advisor* at least once a semester. NDSU Policy 609 can be found here: <https://www.ndsu.edu/fileadmin/policy/609.pdf>.

Email Signature Template

If you choose to use an email signature, you must use the format below to be in compliance with university branding.

Full Name

MPH Student Class of 20XX / Public Health

College of Health and Human Sciences

NORTH DAKOTA STATE UNIVERSITY

p: XXX.XXX.XXXX (optional) / firstname.lastname@ndsu.edu (optional) / www.ndsu.edu

Degree “In Progress” (candidate)

The title of “candidate” only applies to doctoral students. This title should **NOT** be used as part of a signature line. The Department of Public Health does **NOT** support the practice of adding the letter (c) behind a degree that is in progress of completion. The (c) being used as part of a credential or in a signature line is not allowed for students in the MPH program.

Computer/Technology/Software

Students are strongly encouraged to have a laptop. One purpose is for exams that may be given through Blackboard. Each course proctors exams differently but must allow for course content and exam delivery to be consistent for in-class and distance students. *Some courses will require an electronic device such as a laptop or tablet to be brought to each class period along with a headset.*

The Microsoft Office Suite is available for free for NDSU students. Microsoft Office is required for all public health students. <https://kb.ndsu.edu/page.php?id=100617>

The statistics software for PH Biostatistics includes R and RStudio which are free software. PH Research Methods requires SPSS which is available on campus computers and through remote desktop for distance students and can be licensed online with reduced pricing for graduate students. Instructors will provide you with details.

Distance Education Expectations and Requirements

Distance education is an effective and flexible alternative for students who are prevented from attending on-campus classes due to personal or work commitments and/or distance from campus. The MPH program requires synchronous distance education, in which students’ videoconference into the live course in real time.

Distance learning is not easier than on-campus learning; students should be prepared to spend as much or possibly more time on a distance learning course. While the difficulty level of courses taken on-line or on-campus is the same, the benefit of distance education is the possibility of receiving high quality education while attending classes from a remote location.

Distance learning classes carry the same course numbers and credits as their traditional counterparts and appear on the student's transcript just like any other course; there is no designator identifying class attendance through distance education. Credits earned through distance learning are transferable and are applicable to graduation requirements in the same manner as traditional classes.

Prerequisites and Readiness (Distance Education)

The ability of a student to succeed in a distance education class depends on their ability to understand both the course structure and the associated technology. Informing students of what skills and technology are needed for distance education allows them the opportunity to self-evaluate their capability to succeed in the course.

At the time of admission to the program, students are required to ensure that their computers meet the minimum hardware and software requirements found on the Zoom support website.

<https://support.zoom.us/hc/en-us/articles/201362023-Zoom-system-requirements-Windows-macOS-Linux>

The MPH program uses Zoom, which unifies cloud video conferencing, simple online meetings, and group messaging into one easy-to-use platform. It offers video, audio and wireless screen-sharing experience across multiple platforms. Distance students are required to videoconference in “live”, and participate via video and audio in every class.

It is up to the instructor if a class session will be recorded for purposes of student viewing at a later date. In the event that a course absence is necessary, students are responsible for contacting and informing their instructors in advance of missing the class.

Policy regarding Zoom connections

MPH courses are made available via Zoom. Use of this technology requires students to take certain positive steps to ensure reliable connectivity. Failure to do so is not only unprofessional, it is distracting to your instructor and to your fellow students.

1. You must download, install, and setup all required hardware and software in accordance with all Zoom requirements and Help Desk suggestions prior to the first class. More information can be found here: <https://kb.ndsu.edu/zoom>
2. Zoom sessions open approximately 10 minutes prior to the start of each class. It is your responsibility to test your connection before each of our scheduled start times, leaving sufficient time to troubleshoot the connection with Help Desk personnel, if needed. Again, your instructor cannot assist you in making the connection. Contact the Help Desk directly.
3. Connection “issues” are NOT considered justified reasons for tardiness or absenteeism. In cases of a late connection or failed connection, the student is considered tardy or absent, respectively. As such, penalties described in the syllabus will be imposed. The only exception to this policy is when the IT staff notifies the instructor of a problem on ‘our end.’ Note: this rarely happens.
4. Drops during the class are very disruptive and, similarly, nearly always result from students failing to follow the IT guidelines. (e.g., using Wi-Fi instead of wired connections). After 3 drops or a prolonged absence of 15 minutes or more, you are asked to NOT reconnect. You will be considered absent unless the drop(s) occurred in the last 30 minutes of class (for a 3-hour session).

Advisors

Students are assigned an academic advisor upon admittance to the program. The assigned advisor is immediately responsible for answering questions and guiding the advisee. Any time after orientation, a student can request a change in advisor. This should be discussed with the current advisor and the proposed new advisor.

The advisor's role is as a guide through the program, and plays an important part in the MPH program experience. To gain a greater understanding of student advising needs, students will be asked to complete an evaluation of their advisor every spring semester.

As an advisor to public health students, the expectation is to mentor students in their academic and professional endeavors. This includes, at a minimum:

- Meet with advisees once per semester
- Promptly respond to student inquiries
- Ensure students enroll in the appropriate courses each semester
- Ensure all necessary paperwork is completed with the department, college, and Graduate School
- Discuss and assist in narrowing options for the Applied Practice Experience (APE) / practicum
- Serve as the grader for the Integrative Learning Experience
- Discuss future career aspirations and opportunities

Accreditation

The NDSU MPH program is accredited through the Council on Education in Public Health (CEPH), <https://www.ndsu.edu/publichealth/about/accreditation/>

The MPH program conducts various assessments on a recurring basis; a component of the re-accreditation process includes student feedback. Student participation in gathering data for the self-study over the course of their program is **KEY** to successful accreditation. The MPH curriculum aims to deliver a comprehensive set of competencies to MPH students through course objectives and learning experiences. In order to assess how well we convey these competencies, we ask all MPH students to complete a Competency Assessment survey at orientation and at graduation.

The MPH program, College, and University must gather information on graduating students for accreditation and funding purposes to show appropriate curriculum delivery and track students in the field. It is expected that you participate in these surveys throughout your time in the MPH program.

Student Course Experience (SCE)

The MPH program monitors the effectiveness of instructors through SCE surveys and follows University policy 332: <https://www.ndsu.edu/fileadmin/policy/332.pdf>

Students are encouraged to evaluate the quality of teaching and perceived knowledge of the instructors by completing the SCE surveys for each class, each semester. Responses are reviewed by the individual faculty and the Department Chair. Responses are reported as in aggregate with students' written comments. Students' grade in a course is not affected by the feedback given in a SCE as responses are collected by a different department and not distributed to faculty until after grades post each semester.

Curriculum

Competencies

The MPH program is based on foundation competencies established by CEPH. Specialization-specific competencies have also been uniquely developed by the program faculty. These can be found at: https://www.ndsu.edu/publichealth/about/mph_competencies/

MPH Courses

Courses with the prefix “PH” at the 700-level are designed for students accepted into the degree-granting program Master of Public Health and Public Health Graduate Certificate programs. Instructors may grant permission for non-public health students to take these courses on a case-by-case basis. PH 600-level courses are open to all graduate students.

Transfer/Elective Credits

In order for credits to be approved for the MPH program, they must be from a CEPH accredited MPH program, as well as approved by the Department Chair and the faculty member of the course that is being replaced with the transfer credits. Follow all NDSU Graduate School policies for the approval and transfer of credits.

Changing Specialization or Subplan

As you progress through the program, you may be interested in switching your specialization or subplan. A student may request to be considered for another specialization or to switch their subplan. This should be discussed with their current advisor and other faculty in the department who can help a student make this decision. Changing your specialization or subplan is allowable, but it is not guaranteed. The final decision rests with the MPH Admissions Committee.

The student must contact their advisor via email requesting to change their specialization or subplan. The email should include which specialization or subplan the student would like to switch and a brief explanation of why and how the student is qualified (i.e., demonstrate that the new course requirements fit into a new plan of study). The advisor will discuss the potential change with the advisee, and then the advisor will share their recommendation with the Admissions Committee Chair. The Admissions Committee will review and decide if the student’s background and success in the MPH program to-date warrants the change. Upon approval to change a specialization or subplan, a change form for plan of study and/or advisor may need to be submitted to the Graduate School.

The consideration process will ensure that a request to change a specialization or subplan reflects genuine interest and is not driven by poor performance in their current specialization.

Adding a Subplan

The MPH program offers two subplans: Management of Infectious Diseases (MID) and Maternal and Child Health (MCH). Subplans can be declared at any time prior to graduation. The “Add a Certificate to a Degree” form (https://www.ndsu.edu/gradschool/current_students/forms) must be submitted and a \$35 fee paid to add one or both subplans.

Credits Required for Completion of the MPH Degree

The MPH requires completion of a minimum of 42 credits comprised of foundational courses, specialization-related courses, a practicum, and the Integrative Learning Experience. The foundational curriculum consists of 20 credits and includes the following courses.

<i>Fall:</i>	<i>Credits</i>
PH 704: Public Health Management and Policy	3
PH 712: Public Health Research Methods	3
PH 731: Biostatistics	3
PH 741: Social and Behavioral Sciences	3
<i>Spring:</i>	
PH 675: One Health	2
PH 706: Essentials of Epidemiology	3
PH 745: Community Health Leadership	3
<i>Practicum</i>	
PH 794: Applied Practice Experience	3
<i>Integrative Learning Experience</i>	
PH 789: Integrative Learning Experience (must be taken after, or concurrent in the final term with, all other courses/practicum)	1
<u><i>Specialization-Related Coursework</i></u>	<u>18</u>
Minimum credits to graduate with MPH degree	42

Specializations (18 credits each)

1. Community Health Sciences
 - Management of Infectious Diseases – optional subplan
 - Maternal and Child Health – optional subplan
2. Epidemiology
 - Management of Infectious Diseases – optional subplan
 - Maternal and Child Health – optional subplan
 - Health Promotion – optional subplan

The required courses for each specialization, and subplans, are available by clicking on the titles here: <https://catalog.ndsu.edu/curriculum/graduate/public-health-masters/>
<https://catalog.ndsu.edu/curriculum/graduate/public-health-in-epidemiology-masters/>

Academic Standards for MPH

Students must earn a B or better in all specialization courses. If a lower grade is earned in a specialization course, it must be repeated. No more than 2 grades of C can be used to graduate with an MPH.

The MPH program is designed to be completed in two years by students with a full course load (9-12 credits/term). However, many students successfully complete the program by taking fewer credits each term and more years to complete the program; up to 7 years is allowed. Both types of students are encouraged to pursue their MPH, and students will be supported in their path by their advisor.

Practicum

PH 794 Applied Practice Experience (APE) Guidelines (3 credits)

Concepts and competencies learned from MPH coursework are applied during the practicum. Students take part in online assignments and discussion with other NDSU MPH students facilitated by the instructor, while simultaneously completing individual experiences. Practicums are available with a wide range of public health settings and organizations, and the student's experience is guided by a qualified site Preceptor. More details about the process can be found at: https://www.ndsu.edu/publichealth/degrees_and_programs/curriculum/.

The practicum is designed to meet student goals, program competencies, and the needs of the agencies or institutions involved. Students cannot receive credit for past work experience.

Practicums in the Place of Employment

Students are able to use their place of employment as the Host Organization if (a) the project is unique and separate from the student's employment responsibilities and (b) the Preceptor is not the student's usual supervisor.

International Practicums

For practicum experiences that take place outside of the United States, NDSU students must complete a special application at the Office for International Student and Study Abroad Services' website: <https://www.ndsu.edu/international/>.

Student Eligibility Criteria

- Successful completion of 14 MPH credits
- Good academic standing (i.e., cumulative GPA ≥ 3.0)
- Completed and signed practicum proposal
 - Clear background check - Instructions and program code will be provided to students prior to the start of their practicum experience. **The student is responsible for the fee.**
 - Signed worksite affiliation agreement, which will be initiated by the department.

Students are NOT able to register for PH 794 until all eligibility criteria are met.

In order to assure all visa requirements are followed, **international students** must consult with NDSU's International Student and Study Abroad Services before agreeing to accept a stipend or any form of payment for completion of the practicum.

Practicum Roles and Responsibilities

Student

- Contact potential Preceptors and discuss possible projects with them
- Author a Practicum Agreement outlining a practicum project based on those discussions
- Conduct the work and produce the deliverables agreed upon in the Practicum Agreement
- Meet regularly with the Preceptor during the course of the practicum
- Attend course sessions (online) hosted by the Practicum Instructor
- Comply with the policies, procedures, and operational standards of the host organization
- Behave professionally at all times including attention to punctuality and meeting deadlines
- Provide the practicum's final deliverables to the Preceptor and Practicum Instructor
- Complete all assignments required for the practicum
- Comply with the host organization's privacy rules and policies related thereto and sign any necessary non-disclosure agreements

Practicum Instructor

- Review and approve the Practicum Agreement prior to the start of the practicum
- Provide permission for student to register for the practicum
- Meet regularly with the MPH student to discuss approaches and progress
- Provide instruction in professional development and communication
- Intercede on the student's behalf, if necessary, to clarify student and Preceptor roles and facilitate understanding and agreement as to goals, conduct, commitment, and deliverables
- Academically evaluate the student's performance and issue a grade for the practicum

Preceptor

- Orient the MPH student to a public health-related problem, issue, or project of interest to the host organization
- Review and comment on draft editions of the Practicum Agreement. Sign the final edition prior to the start of the practicum
- Meet regularly with the MPH student to discuss approaches and progress—providing constructive feedback while encouraging autonomous pursuit of creative, but effective solutions
- Provide access to all resources necessary for completion of the practicum project. (Non-disclosure agreements and redaction of information in the student's final report is possible, if necessary)
- Contact the Practicum Instructor in case of deficiency or if any concerns arise at any point during the practicum
- Complete an electronic evaluation of the student's work on the practicum
- Treat as confidential student educational records, which are subject to the Federal Family Educational Rights & Privacy Act (FERPA)

Final projects

PH 789 Integrative Learning Experience (ILE) (1 credit)

The ILE (PH 789) is a requirement for graduation and serves as the culminating experience for the MPH degree. The goal is to synthesize, integrate and apply the skills and competencies acquired in the MPH Program to a public health problem. Completion of the ILE requires both written and oral components.

The written product can be an expansion of a course project or practicum experience. The topic and format of the written product is developed through discussions between the student and their advisor.

As the program's culminating experience, the ILE must be taken during, or after your final semester of coursework. Permission to enroll in PH 789 occurs upon faculty advisor approval through the Request to Register Approval Form: https://www.ndsu.edu/publichealth/degrees_and_programs/curriculum/ Be sure to have an agreed upon ILE project before submitting the form.

Electives

Pre-approved electives are listed on the department webpage. Other courses across NDSU can be used with advisor permission and permission of the faculty instructor.

https://www.ndsu.edu/publichealth/degrees_and_programs/curriculum/electives/

Dual Degree, Accelerated Degree, Certificate Options

Dual Degree

PharmD/MPH

Public health is an interdisciplinary field; it is common for many people to gain competencies and/or training in a related field (medicine, nursing, pharmacy, business, engineering, etc.) and subsequently move into public health as a matter of vocation or occupation. The MPH degree is uniquely designed to accommodate the needs to these individuals. It blends theory and practical knowledge across a wide array of disciplines, and is the "degree of choice" among practitioners in the field.

Pharmacy students are welcome to choose either the Community Health Sciences or Epidemiology specializations. More details about the dual degree curriculum can be found here:

https://www.ndsu.edu/pharmacy/degrees_and_programs/dual_degree_programs/pharmd_mph/

Accelerated Degrees

The MPH currently has accelerated Bachelor to Master's programs in these areas:

- | | |
|------------------------------|---|
| ➤ Animal Biomedical Sciences | <input type="checkbox"/> MPH (Epi) |
| ➤ Emergency Management | <input type="checkbox"/> MPH (CHS or Epi) |
| ➤ Dietetics | <input type="checkbox"/> MPH (CHS) |
| ➤ Health Services | <input type="checkbox"/> MPH (CHS or Epi) |
| ➤ Microbiology | <input type="checkbox"/> MPH (Epi) |
| ➤ Psychology | <input type="checkbox"/> MPH (CHS) |

More information about accelerated programs can be found here:

https://www.ndsu.edu/facultysenate/committees_1/ucc/resources/#c725243

<https://catalog.ndsu.edu/academic-policies/degree-and-graduation/#accelerateddegreeprogramsugrdrtoadtext>

Certificates

For students who are unable to complete the MPH degree, or who wish to add a certificate for a topic within their specialization, the MPH program offers several public health certificates. Contact your advisor if you are interested.

- Generalist Certificate of Public Health
- Management of Infectious Diseases
- Maternal and Child Health
- Applied Epidemiology (for non-epidemiology students)

Coursework for each certificate can be found at:

https://www.ndsu.edu/publichealth/degrees_and_programs/public_health_certificate/

To add a certificate to your MPH degree, if already admitted to the MPH program, please complete the appropriate Graduate School form, Add a Certificate to a Degree:

https://www.ndsu.edu/gradschool/current_students/forms

Student's completing a certificate only need to complete the Graduation Application for the certificate to post, given all requirements have been met.

Graduation and Commencement

In accordance with the Graduate School's policy, the MPH degree must be completed in seven years or less. Students may complete their coursework and degree requirements for fall, spring, or summer semester graduation. Students must apply for graduation* through the Graduate School, meeting certain deadlines for the respective term.

Non-thesis Master's students – Plan C:

https://www.ndsu.edu/gradschool/current_students/pathway_to_degree_completion

***Note:** application for graduation is not the same as the commencement ceremony. The Registration and Records office organizes the commencement ceremony.

Students completing their MPH coursework in the summer can participate in spring commencement.

Financial Considerations

Graduate Assistantships and Tuition Waivers

For all MPH students who have graduate assistantships, their tuition will be calculated at the in-state ND rate. The MPH program may grant base tuition waivers. Waivers cover 50% of the base tuition for a 10-hour per week assistantship and 100% of the base for a 20-hour per week assistantship. Below is the MPH Graduate Assistantship policy:

If you are granted a tuition waiver, the waiver will only cover base tuition. The waiver does not cover the difference between the differential tuition charged for the MPH program and base tuition. You will be responsible for paying this difference even if you receive a tuition waiver. In general, the waiver covers approximately 45% of the tuition charged for the MPH program and you are responsible for paying the remaining 55% of the tuition and all student fees.

Students eligible for a graduate assistantship waiver may not also receive other NDSU tuition waivers. If a student is eligible for more than one waiver, the waiver which results in the highest tuition to be waived will be applied.

Tuition Waiver for Dual Graduate Career Students (e.g., MS/MPH, PhD/MPH, MS/public health certificate)

Students who are active in more than one graduate career will need to request an adjustment in differential tuition for non-public health coursework. The student will complete an internal department form [MPH Request for Differential Waiver on Non-MPH credits form](#) so the program administration can request the adjustment AT THE START of the semester.

Scholarships

The College of Health and Human Sciences has a limited number of scholarships and awards available to assist students financially. Public Health scholarship information can be found on the department web page (<https://www.ndsu.edu/publichealth/students/scholarships/>). Online applications for these scholarships and awards are available the second Monday of April in each calendar year on the college webpage https://www.ndsu.edu/healthhumansciences/current_students/scholarships/.

Western Regional Graduate Program (WRGP)

WRGP allows students who are residents in WICHE states to pay ND resident tuition. These states include Alaska, Arizona, California, Colorado, Hawai'i, Idaho, Montana, Nevada, New Mexico, North Dakota, Oregon, South Dakota, Utah, Washington, Wyoming, and the Commonwealth of the Northern Mariana Islands. <https://www.ndsu.edu/onestop/accounts/tuition/>

Students are automatically enrolled upon admission. If a student moves while enrolled in the Public Health program, proof of residency usually by a driver's license is required to ensure WRGP tuition rate is charged appropriately. Students should work with One Stop to ensure their residency status and other personal contact information are always up-to-date.

Online Status and Tuition Rate

Students enrolled as a distance-education student taking classes online, both synchronous and asynchronously, are eligible for the North Dakota resident tuition rate. Students must complete the program online and only enroll in online courses to be included in this benefit. More information about tuition can be found here: <https://www.ndsu.edu/onestop/account/tuition/graduate>.

Student Complaint Procedure

The Council on Education for Public Health (CEPH) requires all accredited public health programs to establish, implement and assess a formal complaint policy for students. More specifically, all accredited programs or schools of public health must establish a comprehensive policy with a simple set of procedures whereby all students enrolled in the College (and the public health program in particular) can submit and resolve a complaint about the educational process. While such procedures do not always produce an outcome that meets the student's preferences, they do ensure that students have access to an equitable and efficient means to remediate their complaints.

The NDSU College of Health and Human Sciences takes student complaints very seriously. Our goal is to ensure that students have access to transparent, due process in a manner that leads to an appropriate resolution of the complaint.

Informal Complaint Process

A student may have a concern or issue that doesn't warrant a formal complaint. In these instances, students are encouraged to work directly with the instructor, supervisor, or advisor for their concern. Students can also talk with the Department Chair about questions or concerns and to get advice on how best to address the situation before it leads to a more serious issue.

Formal Complaint Process

Each student complaint will be appropriately documented and investigated. A chronological record of each complaint, including the nature of the complaint, written records of the complaint procedure and the final outcomes of the resolution process shall be maintained in the Office of the Dean, and shall be available for review by CEPH or its representatives upon written request or in the process of an on-site evaluation visit.

Student complaints generally fall in two major categories: 1) complaints about unfair grading and 2) all other non-grade-related complaints. Student complaints about grades are under purview of the provost's office, since grades are administered through the NDSU Office of Registration and Records. Other student complaints remain under the purview of the individual colleges within NDSU.

Student Complaints Regarding Grades

University Grade Appeal Policy

NDSU has an established policy regarding complaints about grading, otherwise known as "grade appeals." The full grade appeal policy, which includes hearing procedures, is available at www.ndsu.edu/fileadmin/policy/337.pdf. While students actively considering a grade appeal are referred to the aforementioned website for the specific details of the policy, a summary of the policy is outlined below.

With the exception of incomplete grades, a course grade is considered final unless an appropriate appeal is filed by the student. Grade changes are also considered only for those students who have not yet earned a degree for which the course in question was applied.

For a student who has reason to believe that they have been issued an incorrect or inappropriate grade, he/she must initiate a request for a change of a grade with the instructor within fifteen (15) instructional days of the first day of the semester immediately following the semester in which the grade was awarded. For Spring Semester courses, the request may be made within fifteen (15) instructional days of the start of Fall Semester, if the student is not enrolled for a summer term in the same academic year.

A grade appeal is formally initiated when the student submits a Grade Appeal Form to the instructor. The Grade Appeal should also include the following as supplementary material:

- Course syllabus including grading procedures
- Grade originally assigned and the requested grade change
- Justification for the proposed grade change based on the specific disputed criterion (e.g., an assignment, project, or exam grade) and the grading system outlined in the course syllabus.

Grade Appeal Form: https://www.ndsu.edu/fileadmin/provost/Forms/Grade_Appeal_Form.pdf

If the student is unsatisfied by the decision from the instructor, the student must consult the Department Head. If there is again an unsatisfactory decision, the student may submit an appeal to the Dean of the College of Health and Human Sciences, proceeding from one level to the next only after an unsatisfactory decision of the conflict at each level. In the event that the instructor is also the Department Head or Dean, he or she need only be consulted in the capacity of instructor. In the event of an unsatisfactory decision within the college, the student may submit a formal written appeal to the Grade Appeals Board Chair via e-mail (ndsu.provost@ndsu.edu). Such an appeal shall be made within fifteen (15) instructional days after conclusion of the college proceedings as stated above.

Non-Grade Student Complaints

Public health students who have a non-grade-related complaint can seek resolution of that complaint through the following procedures. It is important to note that these procedures represent the sole avenue for student complaints regarding non-grade-related issues, including (but not limited to) CEPH standards, policies, and procedures.

1. The student(s) or, in cases where student anonymity is required, their advocate (also known as the “plaintiff(s)”) will file a formal written complaint (delivered through the postal service or NDSU email) to the Dean’s Office in the NDSU College of Health and Human Sciences.
2. A written complaint must include a description of the issue, policy, or procedure in question. It must also summarize the argument of the plaintiff (including grounds for the appeal or complaint) and provide a reasonable amount of evidence supporting the claim.
3. Upon receipt of the written complaint, the complaint will be assigned to the Dean. The plaintiff(s) will receive email notification (via NDSU email) within forty-eight hours of the receipt of the complaint. In the email, the Dean shall acknowledge receipt of the complaint and assign a specific College of Health and Human Sciences committee to review the complaint. The Dean shall also provide a brief rationale for assigning the complaint to a particular committee. The determination of the appropriate committee to review the case rests solely with the Dean. Plaintiff may not appeal the committee assignment, so long as the rationale for the assignment is provided by the Dean.
4. The Dean shall convene a meeting of the College Academic Affairs committee to review the complaint. The Committee meeting shall occur within thirty days from the time that the Dean receives the written complaint.
5. Once the Committee has met, the Dean shall prepare and submit a formal, written reply to the student(s) based on the recommendation of the Committee. The reply shall include an evaluation of the complaint, a description of any violations, and a proposal for any necessary corrective action. The reply will be sent through official NDSU delivery methods (i.e., the postal

service, campus mail and/or the NDSU email system) within fifteen business days from the time that the Committee makes a decision.

6. Decisions of the Committee that demonstrate arbitrary and capricious treatment, or that are fundamentally inappropriate in the eyes of the plaintiff(s) may be appealed to the Dean of NDSU College of Health and Human Sciences. In such cases, the student(s) file an appeal using steps one through three outlined above, except the written complaint would be addressed directly to the Dean. The written complaint would also identify and provide evidence indicating that the Committee acted in an arbitrary, capricious or otherwise inappropriate manner.
7. If unsatisfactory resolution occurs after the appeal to the Dean, a final appeal may be made to the Provost. Once again, the student(s) must file an appeal using steps one through three outlined above, except the written complaint would be addressed directly to the Provost, rather than the Dean, and would provide evidence substantiating the claim of unfair treatment at prior procedural levels.

IV. Student Services

NDSU Library Services

Details about library services, hours of operation, online search functionalities, and much more, are available here: <http://library.ndsu.edu/>. The **Main Library** supports the learning and research needs of the students and faculty of NDSU. It also serves the community and general public. The Main Library is located on the south end of NDSU's main campus in Fargo on Albrecht Boulevard.

NDSU has other libraries on campus and has access to other libraries across the state. The Health Sciences Librarian is the best contact for MPH students to find appropriate reference materials and how to locate them, including the best databases and strategies for public health research and literature. Visit here for more information: <https://library.ndsu.edu/search-find/research/research-assistance/health-sciences>.

Center for Writers

The Center for Writers provides free writing assistance to students, faculty, and staff. Services include strategies for writing proficiently and independently; assistance in reading materials from various disciplines; and assessing student writing. Information about writing resources can be found at: <https://www.ndsu.edu/cfwriters/>

Two writing courses, ENGL 751 and 752, are elective options within the MPH program that focus on writing style and provide a focused approach to completing an important writing project (e.g., grant proposal or ILE written product).

Counseling

The NDSU Counseling Center provides a confidential setting in which students may explore concerns of a personal, academic, or career-related nature; makes referrals; and serves as consultants for faculty and staff. Students in counseling can explore a variety of concerns which may prevent them from functioning at their optimum levels. The Center is sensitive to the needs of students of diverse backgrounds, cultures, ethnic groups, ages, and ability, and are LGBTQIA affirming. Information about how to access services can be found at: <http://www.ndsu.edu/counseling/>

Career and Advising Center

The NDSU Career & Advising Center is located in Ceres Hall and provides the resources and professional assistance to help students and alumni understand what employers expect and what kind of activities may advance their employability. They can also provide guidance on writing a resume or cover letter, and on preparing for an interview. Teaching students and alumni the job search skills required to successfully compete in today's labor market and connecting those students to employers is the commitment of the Career & Advising Center. <http://www.ndsu.edu/career/>

Wellness Center/Health Services

The purpose of the Wellness Center is to support the academic mission of NDSU by providing an environment where students may learn and practice behaviors conducive to creating healthy lifestyles. Wellness, which is about making healthy lifestyle choices regarding mind, body, and spirit, is the common thread of the Center's programs and services. More information about NDSU's approach to promoting wellness can be found here: <http://www.ndsu.edu/wellness/>.

As part of the wellness center, all enrolled students have access to the exercise equipment, track, swimming pool, classes, etc. for free (i.e., paid through student fees). After signing a waiver, all that is needed is your student ID.

The mission of the Student Health Service is to support the academic success of a diverse student population in an atmosphere of health and wellness through education and services. Services provided include integrated health promotion, education for prevention of disease, and clinical treatment for illness. Information about available health services can be found here:

<http://www.ndsu.edu/studenthealthservice/>

Diversity and Inclusion

International students are given an international advisor in addition to their academic advisor in the MPH program. Contact your student advisor in the Office of International Student and Study Abroad Services for all the regulations regarding your international student status.

<http://www.ndsu.edu/international>

The Center for Community and Belonging connects with NDSU's multicultural students, faculty, and staff, informing them of resources on and off campus to help them succeed and excel at NDSU. Multicultural students, along with the Center for Community and Belonging, offer campus-wide cultural programming throughout the year. <https://www.ndsu.edu/community-belonging>

The Office of Gender and Sexual Diversity oversees LGBTQ+ Programs, which strengthens and sustains an inclusive campus community for LGBTQ+ students, faculty, and staff, providing programming that reduces homophobia and gender identity oppression.

<https://www.ndsu.edu/community-belonging/lgbtq>

Information Technology Services

There are many locations around campus that offer computers and "GO Print" stations. Each cluster has internet access and Microsoft Office software. Some clusters have course specific software on them. NDSU has a wireless network that allows NDSU students, staff, and faculty with mobile computing devices to use the campus network and the internet without an ethernet cable. Details can be found here:

https://www.ndsu.edu/studentactivities/off_campus_student_services/computer_clusters_and_wireless/

The IT Help Desk is available to support students, as well as faculty and staff, in their technology needs. Information to request service is available here: <https://www.ndsu.edu/it/help/>.

The Instructional Design Center (IDC) works to integrate instruction with technology in order to enable the best possible strategies for teaching and learning. Services for students include one-on-one assistance, multimedia resources (media studio, WhisperRoom) and workshops, and training. More information about the IDC can be found here: <https://www.ndsu.edu/it/help/idc> and information about specific training opportunities, from podcasting to using Excel, are available here: <https://kb.ndsu.edu/it/search.php?cat=8979>.

Specifics on software programs that are available to students for free, including Microsoft Office Suite, can be found here: <https://kb.ndsu.edu/it/99782>.

Zoom

NDSU has a campus-wide Zoom license, so all students have access to their own Zoom accounts. Instructions about login and use of Zoom are available here: <https://kb.ndsu.edu/zoom>.

Qualtrics

Each student has the ability to set up their own Qualtrics account through NDSU, for conducting survey research. Resources on logging in and using Qualtrics are available here: <https://kb.ndsu.edu/it/103495>.

Residential Options

NDSU has apartment options available for enrolled graduate students. More information about the availability and cost of NDSU-run housing, as well as the online roommate matching program, is available here: https://www.ndsu.edu/reslife/housing_options/apartments/. Student meal plans for NDSU Dining Services are also available: https://www.ndsu.edu/dining/meal_plans/.

Public Transportation Through Metro Area Transit (MATBUS)

NDSU and the City of Fargo have established an agreement with the Metropolitan Area Transit System, better known as “MATBUS,” to provide a mass transit solution for NDSU students. MATBUS is the public transit system serving the cities of Fargo and Moorhead with service to West Fargo and Dilworth, including grocery stores, businesses, and recreation. The MATBUS system is operated by the cities of Fargo and Moorhead, working together to ensure that comprehensive mass transit services are available across the metro area. The U-Pass program offers unlimited rides to NDSU students on any MATBUS route and transfers free of charge by showing a valid NDSU Bison ID card when boarding. Information about routes are available here: https://www.ndsu.edu/parking/matbus_transit/.

V. MPH Committees and Call for Student Involvement

NDSU Public Health Association (NDSU PHA)

The purpose of the NDSU PHA is to meet the public health needs of the community through the multidisciplinary collaboration of NDSU students, faculty, and staff with the goals of promoting health, preventing disease, and improving the quality of life. The NDSU PHA assists the department in organizing events of the annual Public Health Week in April. Students interested in becoming members can go to <https://myndsu.ndsu.edu/organization/publichealthassociation> for more information.

North Dakota Public Health Association (NDPHA)

As a student in the MPH program, you are eligible for a free membership to the NDPHA. The NDPHA is an organization that gives a voice to public health matters and provides opportunities to partner, create new vision, and be an instrument affecting the health status for citizens across North Dakota. It is a conduit to bring together persons interested in public health for the purpose of fostering a better understanding of public health problems and practices, and to facilitate the interchange of ideas relating to methods for solutions of these problems. NDPHA aids in the promotion of state and local legislation in the interest of public health, with particular focus on the interrelationship between health and quality of life. <http://www.ndpha.org/>.

American Public Health Association (APHA)

APHA is the premier professional organization for the field of public health. Thousands of public health professionals across the nation maintain membership in this organization for opportunities for networking, staying abreast of current trends in their subdisciplines, and opportunities to attend and present their work at the annual summit. In order to allow students to take advantage of these opportunities right away, the APHA offers a reduced annual fee for student members. Individuals must be enrolled in a degree program. Qualifying student should be taking at least 6 credit hours (undergraduate degree) or 3 credit hours (graduate degree) per semester, or comparable credits in a quarter system. Student membership is available for up to six years per degree. Students must provide [proof of status](#) to qualify for membership (e.g., a copy of current registration). More information is available here: <https://www.apha.org/membership/student-membership>

Department Committees

Student contributions to department committees are highly valued, and are critical to the ability of the program to continue to best meet the needs of students and the field of public health. In addition to the standing committees below, ad hoc opportunities arise, such as faculty search committees and strategic planning sessions.

Graduate School Professional Development

The Graduate Student Council is another professional development and committee opportunity: https://www.ndsu.edu/gradschool/about/campus_involvement/gsc.

In addition, there is a *Graduate Professional Skills Academy* that also provides opportunities: <https://www.ndsu.edu/graduate-school/graduate-professional-skills-academy>
<https://myndsu.ndsu.edu/organization/gpsacademy>

VI. Acknowledgement

Successful completion of the NDSU MPH Handbook 2025-26 quiz (100%) will be used as your signature stating that you:

- have read the 2025-26 Public Health Student Handbook and agree to abide by the policies and procedures contained therein
- understand that policies and procedures may change throughout the duration of the program of study
- will be made aware of any changes by Program Administration and will be held accountable to any policy and procedural changes.

Handbook Quiz link - https://ndstate.co1.qualtrics.com/jfe/form/SV_cDbBVyLBiLQdKV8
