

Title

When Measles Strikes: Engaging Community Partners in Outbreak Response

Course Description:

To effectively address the current measles landscape and its impact on communities, it is crucial to understand the various factors contributing to outbreaks and their consequences. By learning about strategies to collaborate with affected communities, we can enhance our outbreak response efforts, ensuring that interventions are both effective and culturally sensitive. Additionally, recognizing the pivotal role of trust and communication in promoting vaccination and containment efforts is essential. Building and maintaining trust within communities can significantly improve vaccination rates and overall public health outcomes.

Date

3/27/2025

Time

12:00 pm

Location

Fargo, ND

Learning Objectives:

Upon successful completion of this knowledge-based course, pharmacists should be able to:

1. Review the current measles landscape and its impact on communities.
2. Describe strategies to collaborate with affected communities to enhance outbreak response.
3. Recognize the role of trust and communication in promoting vaccination and containment efforts.
