2021: Best Colleges - Main Survey

Introduction

1.)

BEST COLLEGES

Data Collection

Welcome. *U.S. News & World Report* is now collecting data for the 2021 edition of Best Colleges, scheduled for release later this year. Information your institution reports will aid future applicants and families in their research.

Survey Deadline: June 1st, 2020

There are three steps in the *U.S. News* data collection process:

Step 1: Data - Complete the questionnaire to the fullest extent your data and history allow. If you are not able to answer a question, leave it blank. **The data your institution reports will first be seen by the fall 2021 entering class, meaning information reported on your institution's characteristics should pertain to what your institution anticipates in a regular academic year and not one time changes with dates, deadlines and policies made in response to the 2019-2020 caronavirus pandemic.** Otherwise, if you have questions or concerns about how best to respond to a specific item, click the "Help" button on the top right-hand side of the screen to access your *U.S. News* data collector.

Institutions with multiple campuses are instructed to consistently aggregate or disaggregate cohorts across campuses in alignment with the National Center for Educational Statistics (IPEDS). Reporting on admissions, faculty counts, and expenditures, for example, in all three *U.S. News* college statistical surveys must have campus cohorts aligned with the entity linked to a distinct IPEDS ID. Please contact official@usnews.com if your institution believes this is not valid or feasible.

Step 2: Assessment - After filling in your data, navigate to the 'Main Survey Assessment' section. The assessment runs a statistical comparison between your current data and the data submitted last year. The assessment will identify potential errors between the two years of data. Note that U.S. News only publishes individual cohort-level data on schools' most recently reported cohorts, when applicable. For more information please go to the main assessment section.

Step 3: Verification - After reviewing the assessment and fixing any remaining errors, navigate to the section titled "Verification". This is where the survey submission takes place. **The verification form has changed slightly since last year.** Please carefully review your survey data one last time. When you are ready, you **must** select the check box, fill out all the identification information (which must include signoff from the Dean or equivalent official who has signed off on the data) and hit the red "Submit Survey" button. **Failure to check the verification box and have the Dean or equivalent official fill out their information may be noted when the data are published and/or may result in the school not being ranked.**

Important Icons

* The red asterisk located next to a few question numbers indicated that the question is mandatory. If the question is not answered you will be unable to submit the survey. All assessment flags are mandatory and must be addressed.

✗ The red x indicates that you have not filled out the question correctly. There will be a line of text that accompanies the icon letting you know what is the exact problem. Once the issue is corrected the x disappears. All failed validations must be fixed before the survey can be submitted.

🛡 The gold shield indicates that the question has been used in past U.S. News Best Colleges rankings calculations or is under consideration for future use. For this year's data collection no new questions have a gold shield.

❓ The question mark indicates a tip on how to answer that particular question.

☑ The checkbox indicates the assessment section of the survey.

⬆ The upward arrow indicates the verification section of the survey. This is where the submission button is located.

Entering Data

To navigate among fields you may either click on the field to which you wish to move or press the Tab key until you reach it. To move between individual pages of the survey click on the "Next" or "Previous" links at the bottom of the page. You may also click on the section links listed in the index on the right-hand side of the screen and go to any page in the survey.

Saving Data

Saving data happens automatically when a few actions are taken. One, you select the 'Next' button at the bottom of the page. Two, you select and navigate to another section in the question index. Three, you hit the 'Save' button at the bottom of a page. If you plan on leaving the survey before completion, please hit the save button before exiting the survey.

Getting Help

If you have questions or encounter problems while you are completing the survey, click the "Help" button on the top right-hand side of the screen. This will direct you to the data collector assigned to your institution.

The Common Data Set

U.S. News uses questions from the Common Data Set (CDS). The CDS initiative is a collaborative effort among data providers in the higher education community and publishers as represented by the College Board, *Thomson Peterson's*, and *U.S. News & World Report*. We hope that this effort to standardize data definitions makes it easier to complete our questionnaire.

For easy reference, all CDS items are noted throughout the Main and Financial Aid surveys. The CDS does not cover any of the questions on the Finance survey. Please note that some of the questions used in the Best Colleges rankings are unique to the U.S. News survey and are not included on the CDS. After you have submitted your CDS, you will have an opportunity to submit information for these questions.

All CDS submissions must be received by May 19th 2020 in order to allow enough time for data entry and processing in-house. Please contact your data collector for more information.

New / Modified Questions

Many of the changes bulleted below were made in alignment with The Common Data Set Initiative (<https://www.commondataset.org>) and definitions used by the American Association of University Professors (<https://www.aaup.org>). Among changes below, question 175 (faculty compensation) is by far most

relevant toward rankings calculations; please email official@usnews.com with any questions about faculty compensation. Also note, survey respondents do NOT need to update accurately reported data submitted in last year's survey to conform to definitions in this year's survey.

Some questions not used in last year's rankings are no longer being asked in this year's survey to offset survey burden. The following questions were added or significantly modified from the previous year's survey:

Main Statistical Survey

- 2 - College Name
- 9 - Social Media (Snapchat)
- 75 - Policy on Score Choice for ACT/SAT
- 76 - Policy on ACT/SAT Superscoring
- 87 - SAT Composite Scores
- 88 - SAT/ACT Composite Score Distributions
- 94 - High School GPA (% with 4.0 GPA)
- 175 - Faculty compensation revamped

Financial Aid Survey

- 21 - Proportion awarded Pell Grants

Questions Used in the Best Colleges Ranking

The questions or question areas listed below are the data points that are used in the U.S. News Best Colleges ranking calculations. More details on the U.S. News Best Colleges rankings can be found here:

<https://www.usnews.com/education/best-colleges/articles/how-us-news-calculated-the-ranking>
(<https://www.usnews.com/education/best-colleges/articles/how-us-news-calculated-the-ranking>)

Please note: The primary factor used to determine whether a school will be eligible to be ranked in the 2021 edition of the U.S. News Best Colleges rankings is question 67: Does your institution make use of SAT, ACT, or SAT Subject Test scores in admission decisions for first-time, first-year, degree-seeking applicants?

The answer to this question must be "Yes" in order for a school to be ranked in the 2021 edition of the U.S. News Best Colleges rankings. A school that answers "No" will not be included in the rankings and will be listed as an "Unranked School." Test optional schools should answer question 64 as Yes. Only schools that don't use SAT or ACT test at all in admission should answer as No.

If you have questions on the Best Colleges ranking methodology, which schools qualify to be ranked or unranked, U.S. News publications or how these statistical surveys are used in the rankings, contact official@usnews.com (<mailto:rmorese@usnews.com>).

Important Notice: U.S. News in its discretion will attempt to do cross-checking of data from what information schools have submitted on their Fall 2019 IPEDS Institutional Characteristics survey that appears on the U.S. Department of Education's College Navigator web site <http://nces.ed.gov/collegenavigator> (<http://nces.ed.gov/collegenavigator>) or can be downloaded from the IPEDS website, provided that the schools are ultimately responsible for the accuracy of the data that they submit. If you need more details on how the cross-checking or missing data fill-ins will work, contact official@usnews.com (<mailto:rmorse@usnews.com>).

On behalf of the data collectors, reporters, and editors here at *U.S. News* and our many appreciative readers, thank you for your time and effort.

2019 Enrollment

Institutional Enrollment Provide numbers of students for each of the following categories as of the institution's official fall reporting date or as of October 15, 2019. Degree-seeking students are those enrolled in courses for credit who are recognized by the institution as seeking a degree or recognized postsecondary credential. Full time undergraduates are those enrolled for 12 or more semester credits, 12 or more quarter credits, or 24 or more clock hours a week each term. Please report students formerly designated as "first professional" in the graduate cells. Last year's enrollment grid is included for your reference.

- Include information for ALL *enrolled*, first-time, first-year (freshman) degree-seeking students -- full, or part-time-- who submitted test scores, including students who began studies during summer, international students / nonresident aliens, and students admitted under special arrangements.
- Do not include partial test scores (e.g., SAT mathematics scores but not SAT reading for a category of students) or combine other standardized test results (such as TOEFL) in these items.
- Do not convert SAT scores to ACT scores and vice versa. (U.S. News will convert your reported SAT and ACT scores to 0-100 percentile distributions and weight by proportions submitting each exam for use in ranking calculations.)
- If a student submitted multiple sets of scores for a single test, report this information according to how you use the data as reported in the preceding questions. For example:
 - If you consider the highest scores from either submission, use the highest combination of scores (e.g., reading from one submission, math from the other).
 - If you average the scores, use the average to report the scores.

Alumni Giving

Undergraduate Alumni Giving: Please enter information on undergraduate alumni giving, as defined below. As noted, *exclude* former students who earned only graduate degrees and undergraduates who didn't graduate from your institution. Additionally, exclude all student giving (e.g., senior class gift) unless you count the entire senior student body in the alumni of record total.

Please follow the standards set by the Council for Aid to Education (CAE) and the Council for Advancement and Support of Education (CASE), and used for reporting to CAE for the Voluntary Support of Education Survey when answering these questions.

What was the number of undergraduate alumni of record at your institution? (*Alumni of record are former full- or part-time students with an undergraduate degree from your institution and for whom you believe you have a valid address or other way to make contact (telephone, email, etc.)*)

Note: The alumni giving data reported to U.S. News should be the same as what was reported to the Council for Aid to Education for undergraduate alumni in its annual Voluntary Support of Education Survey. If you do not break down undergraduate-only giving for the CAE survey, you must still do so for this report.

Faculty: Counts

Please report number of instructional faculty members in each category for Fall 2019. Include faculty who are on your institution's payroll on the census date your institution uses for IPEDS/AAUP. Fall 2018 data is provided for your reference.

	Full-time	Part-time
(a) instructional faculty in preclinical and clinical medicine, faculty who are not paid (e.g., those who donate their services or are in the military), or research-only faculty, post-doctoral fellows, or pre-doctoral fellows	Exclude	Include only if they teach one or more non-clinical credit courses
(b) administrative officers with titles such as dean of students, librarian, registrar, coach, and the like, even though they may devote part of their time to classroom instruction and may have faculty status	Exclude	Include if they teach one or more non-clinical credit courses
(c) other administrators/staff who teach one or more non-clinical credit courses even though they do not have faculty status	Exclude	Include
(d) undergraduate or graduate students who assist in the instruction of courses, but have titles such as teaching assistant, teaching fellow, and the like	Exclude	Exclude
(e) faculty on sabbatical or leave with pay	Include	Exclude
(f) faculty on leave without pay	Exclude	Exclude
(g) replacement faculty for faculty on sabbatical leave or leave with pay	Exclude	Include

Full-time instructional faculty: employed on a full-time basis for instruction (including those with released time for research)

Part-time instructional faculty Adjuncts and other instructors being paid solely for part-time classroom instruction. Also includes full-time faculty teaching less than two semesters, three quarters, two trimesters, or two four-month sessions. Employees who are not considered full-time instructional faculty but who teach one or more non-clinical credit courses may be counted as part-time faculty.

Minority faculty includes faculty who designate themselves as Black or African American; American Indian or Alaska Native; Asian; Native Hawaiian or other Pacific Islander; Two or more races; or Hispanic.

Doctorate: includes such degrees as Doctor of Education, Doctor of Juridical Science, Doctor of Public Health, and Doctor of Philosophy in any field such as arts, services, education, engineering, business, or public administration. Also includes terminal degrees formerly designated as "first-professional," including dentistry (DDS or DMD), medicine (MD), optometry (OD), osteopathic medicine (DO), pharmacy (DPharm or BPharm), podiatric medicine (DPM), veterinary medicine (DVM), chiropractic (DC or DCM), law (JD).

Terminal Master's degree: a master's degree that is considered the highest degree in a field: example, M. Arch (architecture) and MFA (master of fine arts in art or theatre).

Faculty: Salaries

Please report the salaries of full-time instructional faculty members in for the 2019-2020 academic year.

Note that *U.S. News's* grid has been revised this year to significantly conform to revisions in Form 2 from the American Association of University Professor (AAUP) data collection. *U.S. News's* two main changes are we no longer are collecting fringe benefit expenditures (now collecting salaries only) and are newly collecting on full-time faculty categorized as 'instructor', 'lecturer' and 'no rank'. Because of the changes, data your institution reported for 2018-2019 academic year are not displayed for reference below and will not be incorporated into a rolling two year average for the upcoming 2021 Best Colleges rankings calculations.

Include the unduplicated combined total of "Primarily Instructional" and "Instructional/Research/Public Service" aggregating all faculty across gender and tenure/non-tenured status. Exclude faculty who are clinical or basic science faculty, located in schools of medicine and/or military faculty

Primarily Instructional refers to an occupational category used to classify persons whose specific assignments customarily are made for the purpose of providing instruction or teaching. Regardless of title, academic rank, or tenure status, these employees formally spend the majority of their time providing instruction or teaching.

Instructional/Research/Public Service refers to an occupational category used to classify persons for whom it is not possible to differentiate between instruction or teaching, research, and public service because each of these functions is an integral component of his/her regular assignment. Regardless of title, academic rank, or tenure status, these employees spend the majority of their time providing instruction, research, and/or public service.

These definitions of instructional faculty are used by AAUP (<https://research.aaup.org/instructions#form>) and should be reported to U.S. News the same way to the fullest extent applicable.

The table below provides detail on inclusions and exclusions:

Criteria**Full-time Faculty**

Clinical*, Medical School Faculty, and/or Military Faculty	Exclude
Faculty on Sabbatical or Leave <u>with</u> Pay	Include
Faculty on Sabbatical or Leave <u>without</u> Pay	Exclude
Replacement Faculty (for faculty on sabbatical leave or leave with pay)	Exclude
Part-Time Tenured/Tenure-Track Faculty	Exclude
Courtesy Faculty Appointments and Faculty who have a Bookkeeping Value	Exclude
Contributed Service Personnel: Administrative officers with titles such as Provost, Dean, Librarian, Registrar, Coach, and the like, even though they may devote part of their time to classroom instruction and may have faculty status and other administrators/staff clinical credit courses	Exclude
Research Faculty (faculty who have never had a contractual instructional role, such as Research Assistant Professors)	Exclude

Key definitions:

Full-time Instructional Faculty: include full-time faculty members for the entire institution, excluding clinical or basic science faculty located in schools of medicine and/or military faculty. For the purpose of this survey, include all members of the "Primarily Instructional: and "Instructional/Research Public Service" staff who are employed full-time and whose regular assignments has an instruction component (including released time for research), regardless of whether they are formally designated "faculty".

Faculty Salary Outlays (Total Contracted Salaries) : Report the projected expenditure for full-time contracted salaries excluding extra loads, summer teaching, stipends, or other forms of remuneration. Department or program heads with faculty rank and no other administrative title should be reported at their instructional salary (i.e., excluding administrative stipends).

Length of contract: Data for those whose base contract requires 9- or 10-months of instruction (e.g., two semesters, three quarters, or two trimesters) are to be reported as 9 month contract length. Data for those on 11- or 12-month contracts get reported as 11- or 12-month contracts length.

Class Sections

177.) Undergraduate Class Size: In the table below, please use the following definitions to report information about the size of class sections offered in the Fall 2019 term. Fall 2018 data provided for your reference.

Class Sections: A class section is an organized course offered for credit, identified by discipline and number, meeting at a stated time or times in a classroom or similar setting, and not a subsection such as a laboratory or discussion session. Undergraduate class sections are defined as any sections in which at least one degree-seeking undergraduate student is enrolled for credit. Exclude distance learning classes and noncredit classes and individual instruction such as dissertation or thesis research, music instruction, or one-to-one readings. Exclude students in independent study, co-operative programs, internships, foreign language taped tutor sessions, practicums, and all students in one-on-one classes. Each class section should be counted only once and should not be duplicated because of course catalog cross-listings.

196.) Undergraduate Academic Programs of Study

Please check each academic program offered and report the percent of 2019 graduating seniors who have participated in these programs during their undergraduate years.

First-year Experiences: Curricular and/or co-curricular programs beyond orientation that bring together faculty and/or staff and groups of first-year students to: address the development of knowledge, skills, and/or perspectives for academic and college success; promote meaningful student-faculty interaction (one-on-one or in small groups).

Learning Communities: Groups of students that take part as a cohort in intentional, institutionally-designed curricula, most often consisting of at least two linked courses, that are designed to address academic and social development inside and outside the classroom through planned interactions among the cohort and with the faculty.

Senior Capstone of Culminating Academic Experiences: Integrative, credit-bearing experiences, offered in the last stages of a student's program of studies, which aim to have the student synthesize the academic experience, often in the creation of a product that demonstrates the ability to frame and resolve an open-ended question, or of a performance or an exhibit.

Undergraduate Research: Self-directed academic work by an individual student or by small groups of students that deals with an open-ended issue with the expectation of a substantial scholarly or creative product that can be formally presented on or off campus. Such work is undertaken with a faculty mentor for at least one academic term or intensive summer, and students understand their roles as researchers/creators and act in those roles.

Service Learning: An academically-based instructional strategy, credit-bearing or required for a degree, that provides students with both meaningful service opportunities in interactive partnership with the community and academic structures for analysis and reflection on their contributions and learning.

Study Abroad: Substantial academic, credit-bearing study, the equivalent of at least one full course, under faculty supervision, conducted outside the United States but approved by the home institution, which includes substantive interaction between the student and the host culture and/or environment.

Internships, Cooperative Education, or Practica: The practical application of learning from a specific academic program in a pre-planned out-of-class situation equivalent in time to at least 1 academic credit, paid or unpaid, requiring structured reflection and/or an end product, supervised and evaluated by faculty, field person, or

cooperating professional directing the learning activity.

Writing in the Disciplines: Institutional commitment, manifest through an organized approach, to significant student participation in writing embedded in courses at all levels and in all divisions of the curriculum. To accomplish significant writing over time and at increasing levels of sophistication, it often includes writing experiences in many different disciplines, varied forms of writing for varied audiences, and iterative writing processes.

Programs/Services for Students with Learning Disabilities

Programs/Services for Students with Learning Disabilities offered during the 2019-2020 academic year

257.) Check one type that describes your school's LD Program:

Structured/Proactive/Comprehensive program:

Program has separate admissions process and charges fees. Services go well beyond those that are legally mandated and the student is provided with a more structured environment. Low staff/student ratios.

Compulsory student attendance. An advisor/advocate is made available to students.

Self-directed/decentralized services:

There is no separate admissions process and eligibility for services must be established by the provision of disability documentation that meets institutional standards. Services may be coordinated through the Disability Services office and are based on need as specified by the documentation. Other offices throughout the campus may also provide services and some services offered are not mandated by laws. Students' progress is not monitored.

Compliance:

Most of the services and accommodations that are provided to students with learning disabilities are those required by law. This type of program can meet the needs of independent students, aware of their needs and able to develop and coordinate their own support systems.

Assessment

The following section contains a brief analysis of ranking data your school submitted on this year's Main statistical survey. All flagged data (identified by the red asterisk*) must be addressed in order to submit your survey. To acknowledge that the flagged data is in fact correct, please select the confirmation checkbox associated with item in question. Once every flagged assessment item has been either confirmed or corrected, please proceed to the verification section.

Making Data Changes – If you notice an incorrect current year value please go back into the survey and correct the data point. The question numbers are listed for your reference. Changing last year's data must be done through your data collector. Please contact them with the updated information and a brief description as to why it needs changing. We will analyze the requested changes on a case by case basis and get back to you.

Below is a list of some terminology you may encounter:

Large Change - For the questions(s) indicated, the data submitted for the current year are significantly larger or smaller than the data supplied for the previous year. If the data supplied are correct as entered, please check the box. If the data is incorrect, please go back into the survey and supply new data.

Missing - No information has been submitted for this indicator. If the question does not apply to your institution or if you cannot supply the data requested, please check the box. If you can supply the missing data, please go back into the survey and enter the new data. If you wish to add in missing previous year data, please contact your data collector with that information

High Value - The data submitted are significantly higher than the norm. Please either correct the figure or verify that the data are correct as submitted.

Verification/Submissior

339.)

Verification/Submissior

The final step prior to survey submission is what we call "Verification". Please share the survey responses with a senior administrator such as a President, Provost, Dean (or what your institution considers an equivalent

position) for their final approval. When ready, you must fill in all of the information below, including both check boxes, both sets of identification, institution name and the verification date. After the information is entered, hit the red "Submit Survey" button. **Failure to check the verification box and have the President, Provost, Dean or top academic official signoff may be noted when the data are published and/or may result in the school not being ranked.**

If you have any questions about your institution's verification or this procedure, please contact your *U.S. News* data collector.

On behalf of *U.S. News* and its many users, thank you for the time and effort you have given to supply and verify this information.
