## 1.0 Getting Started

This User Instruction Guide provides information for Schedulers using CLSS to schedule course sections.

The guide is organized around processes, and provides step-by step instructions. It will be most effective if you have it open while using CLSS. In addition to this guide, when using CLSS, click on the grey question mark wherever it appears for Leepfrog provided instructions and videos. Instructions provided by Leepfrog are generic and not NDSU specific.

#### 1.1 Where and How to Login

- 1. Navigate to the CLSS webpage http://nextcatalog.ndsu.edu/wen/
- 2. To login, use your NDSU login and password. You do not need the @ndsu.edu

Having trouble logging in? Contact the Scheduling staff in the Office of Registration and Records at ndsu.rr.scheduling@ndsu.edu.

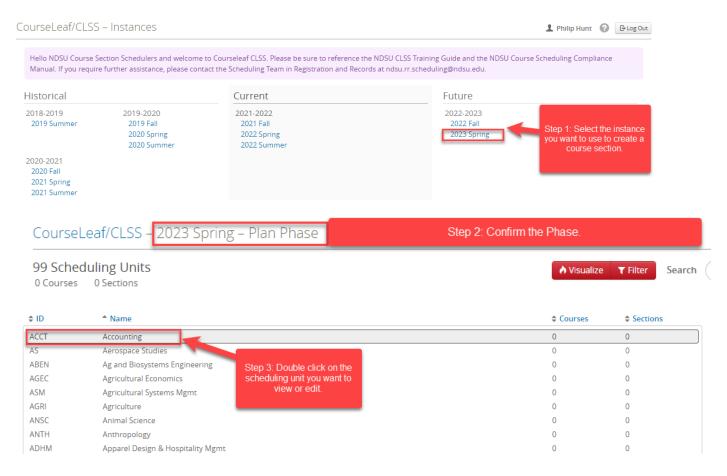

#### 1.2 Important Terms

- Section: A particular course at a specific time, place and instructor. Sections are also referred to as classes or offerings.
- Scheduling Unit: A group of courses that are scheduled together by the same department and organized by subject code.
- Instance: A term, e.g. Fall Semester 2024, Spring Semester 2025. Instances are further classified into *Historical*, past academic years; *Current*, current academic year; and *Future*, the next academic year.
- Mode: CLSS has two modes, Design and Refine.
  - Design: When changes to the schedule are saved, changes will not be validated nor sent through any necessary workflows, it will stay within CLSS. Only when the 'Validate' button is clicked and the errors corrected, will changes be validated and sent through workflow for further review and approval.
  - Refine: Any change made to the schedule that is saved during refine mode will automatically trigger validation and workflow for further review and approval. Only save if you are ready for your changes to be validated and to be exported from CLSS into Campus Connection.
- Phases: Periods of time during the scheduling process. Rules will determine what and when items
  can be changed by the department scheduler. Please see Academic Production Calendar for more
  details.

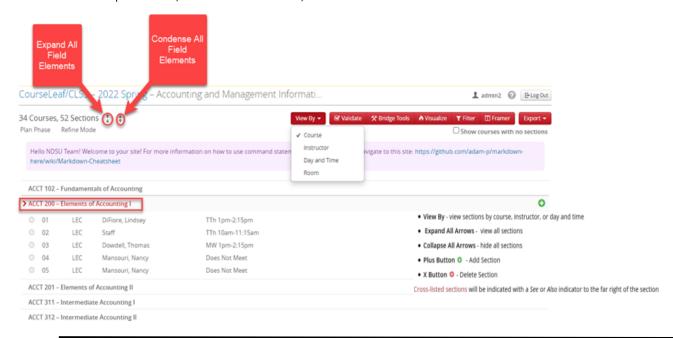

Phase	Design/Refine?	What Happens?
Plan I	DESIGN	Departments put their initial schedule together: assign faculty, set enrollment, wait-list caps, meeting patterns and time; determine cross & dual-listings; request room assignment. Can create, update and delete sections. When you have completed all updates to your scheduling unit, click "validate", correct any errors, validate again if needed to send through the workflow.
Room Assignment	N/A	CLSS is closed for editing as course sections are assigned rooms.
Plan II	REFINE	CLSS is re-opened. Schedulers review course section information and make any needed changes on a course by course basis. These changes will go directly into Campus Connection once approved in workflow.
Publish	REFINE	Information in CLSS is published for students to see in Campus Connection. This means certain changes will now need to go through a workflow. Can't delete sections.
Registration	REFINE	Changes to existing sections are limited to editing enrollment caps, updating instructors. The changes will go directly into Campus Connection once approved in workflow.
Locked		CLSS is locked for any changes.
Archive	N/A	After a term's Census date. All scheduling changes cease in CLSS. This phase indicates the end of the scheduling cycle.

- Filters: A tool that can search for specific sections based on criteria or class attributes. NOTE: More information about filters may be found on the CourseLeaf Help site: https://help.courseleaf.com/clss/filters/
- Heat Map: A visual representation of how many class sections are scheduled during specific hours of the day. Heat maps are available to view for specific scheduling units, a selected group of scheduling units, or for all the class sections scheduled during a term. To view a heat map, click on the "Visualize" button at the top of your screen.
- Course Attributes: These are the attributes on each course at the catalog level. Schedule builders and coordinators cannot make changes to course attributes in CLSS.
- Validation: When a schedule builder is completely finished entering schedule data for a term, they indicate they are done by validating their schedule. During validation, CLSS will check for errors, and prompt the schedule builder to fix before they can submit their completed schedule.

## 2.0 View Department Schedule and Course Offerings

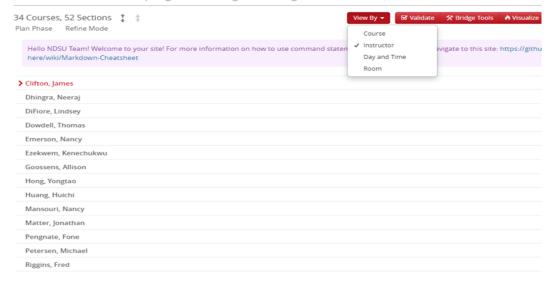

Note: The scheduling unit screen provides a list of courses and sections assigned to a scheduling unit, or department, and is used to add, edit or remove sections from a course.

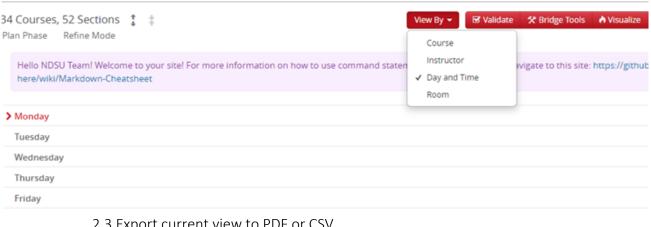

#### 2.1 View by Instructor

## 3.0 Adding a New Section/Editing a Section

# 3.1 Edit Section Field Explanation

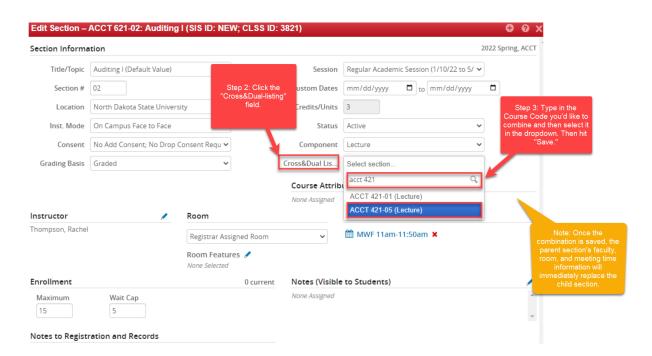

What	Notes				
Title/Topic	This is a default value from the catalog in Campus Connection and cannot be edited. Topics for uniform course numbers must be listed in the "Notes to Registration and Records field."				
Section	The section number will default to the next available number.				
Credit Hours	If this box is grayed out, the credits are the default number from catalog in Campus Connection. If it is a variable credit course, you will see a min and a max box to update. You will have to select the exact credit to save your updates.				
Status	This is the status of the section. All sections should be active for students to see before the schedule goes live. Tentative sections are not viewable to students and are not ope for enrollment, but are created just in case that section is needed. Canceled sections should be switched to active before the schedule goes live. After the schedule is published, courses that may need to be canceled will initiate a workflow for approval.				
Component	This is how the course is offered (LEC, LAB, RSC, IND, PRA, COP) and is a default from the catalog in Campus Connection.				
Cross & Dual list With	This refers to which course the section is cross-listed or dual-listed with. You can enter a course to cross-list or dual-list in the drop-down. For 400-600 dual listings, enter the 400 level course into the 600 level so the 400 will control the pair. For cross listed, enter the parent (controlling course) into the child course section.				
Session	This indicates which session the section occurs in. Default is "Regular Academic Session." To change, choose a different session from the drop-down menu. The corresponding session dates will be listed. Changing a session after enrollment, requires Dean and Provost's Office approval.				
Location	This indicates the campus and location of the course. Most course locations including downtown Fargo are North Dakota State University (main campus) with the exceptions listed in the drop-down. If you have questions about campus and location, please contact Registration and Records.				
Inst. Mode	This relates to the course delivery mode (face-to-face, on-line, hybrid, etc.), and may dictate fees for the students.				
Consent	The default pulls from the Course Catalog here. If department consent is a pre- requisite for the course, removing consent will initiate a workflow. If department consent is not a pre-requisite and you wish to add it to a specific section, no approve are required.				
Grading Basis	The default pulls from the Course Catalog and cannot be changed in CLSS on existing sections. Only grading bases approved through the curriculum process when the course was created should be used.				

Cou	rse Attributes	These attributes pull from the catalog in Campus Connection and cannot be updated in CLSS. They are there for informational purposes only. If something is incorrect, please contact Registration and Records.
Insti	ructor	The instructor field should include any instructors listed in your subject. At the very bottom of the drop down, there is the choice of "staff." This can be selected to fill in a name that is not available in the drop down or if you are unsure of the instructor assignment. When doing so, this will assign that instructor to the course. Multiple instructors may be listed for each course section. The instructor with the BLUE STAR to the left of their name is the primary instructor in CLSS and will show the conflicts on the Snapper screen. Please contact Registration and Records if you have any questions.
Roo	m	Select your room assignment option. Choose "Registrar Assigned Room" if you wish for Registration & Records to assign you a room. If this is an on-line course, select "NDSU Online"; select "No Room Requested" if the course is a field experience, co-op, or practicum or if you are using a department controlled space. Please note the building and room number of the department controlled space in the notes to Registration & Records.
Roo	m Attributes	Click on the pencil icon to add a room attribute. The options are limited to seating style as the majority of classrooms have been upgrading with the needed technology. Registration and Records will do our best to meet requests, due to limited classroom space on campus, we cannot guarantee requests can be granted.
Sche	edule	This dictates the meeting pattern for the course. Clicking on the existing meeting pattern or the words "does not meet" will take you to the <a href="Schedule Snapper Tool">Schedule Snapper Tool</a> .
Enro	ollment	Maximum – The maximum number of students who should be able to register for the course.  Wait Cap — Enter the same number as the max enrollment to indicate that there is a waitlist for students to be placed on, or place themselves on, in the event that the seats in the course are full. We want to be able to monitor the demand for the course and those trying to enroll by utilizing the waitlist.  Cross&Dual list Cap —The sum of all combined course section caps. Only appears if a course is cross or dual listed.
Not	es to Students	This field is for template or free-format notes containing information that is necessary to relay to students upon registration. This field is not for internal notes. The free-format should be used rarely and is not to be used to repeat course requisites.
	es to Registration Records	The comments box is for departments to communicate with Registration and Records. This includes special information or insight regarding the course and information on combined sections, etc. Only the Registration and Records can view what is entered into this box.

#### 3.2 Cross-listing and Dual-listing (combining sections)

CLSS refers to combined section relationship as "parent" (primary section) and "child" (secondary section). Only children can be combined with a parent. This is done so that another department does not take over a course section without that section's permission. A child (secondary) can only have one parent (primary), but a parent (primary) may have many children (secondary).

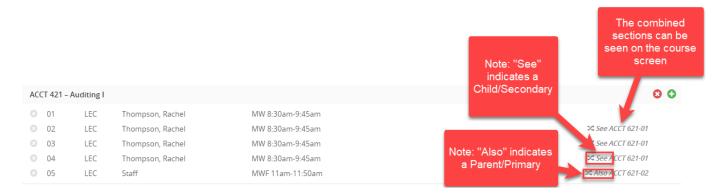

Edit Section - ACCT 421-05: Auditing I (SIS ID: NEW; CLSS ID: 3822) 2022 Spring, ACCT Section Information Title/Topic Auditing I (Default Value) ~ Regular Academic Session (1/10/22 to 5/ ▼ Session to mm/dd/yyyy Section # **Custom Dates** mm/dd/yyyy North Dakota State University Credits/Units Location On Campus Face to Face Inst. Mode Status Active Consent No Add Consent; No Drop Consent Requ > Component Lecture Cross&Dual Lis.. Grading Basis Graded ACCT 621-02 Course Attributes None Assigned

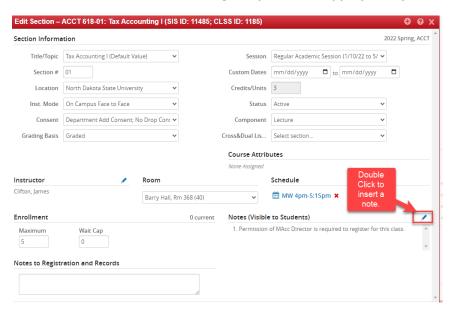

Note: After the section is officially combined, the "cross&dual-listed" field will appear.

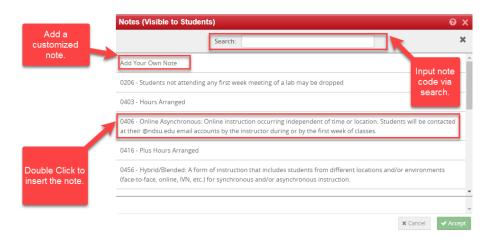

Note: The results of the combination can also be viewed on the Course screen as shown below.

#### 3.3 Notes to Students

The Notes to Students fields is used to make notes that will be visible to students on-line during registration. Notes should **only** include pertinent information students need to know about a particular section. If you have a standard note to add that is part of our note numbering system, please enter the number of the note you wish to add in the search box or double click the note you want in the dropdown. Notes (to Students) listed in Note Numbers for CLSS, have defaulted text and cannot be changed. Free format notes can be entered, but should be clear, concise, and free from errors for the students. Be sure to select "Accept" to save any changes. **Failure to follow these guidelines may result in the section not being setup or noted appropriately.** 

Note: Pre-existing notes already assigned to a course may be edited if neccessary. You may need to scroll to view them all. You may add, delete or re-arrange notes as shown. Be sure to select "Accept" to save any changes.

#### 3.3.1 Codes for Notes to Students

#### 0069 - \$50 course fee

0150 - This course is managed by the Career & Advising Center's Internship Program. Students eligible for this course must begin the registration process with the Career & Advising Center by submitting their internship record to the "Internship Program Registration Portal." For more information go to: https://career-advising.ndsu.edu

0406 - Online Asynchronous: Online instruction occurring independent of time or location. Students will be contacted at their @ndsu.edu email accounts by the instructor during or by the first week of classes.

#### 0416 - Plus Hours Arranged

0456 - Hybrid/Blended: A form of instruction that includes students from different locations and/or environments

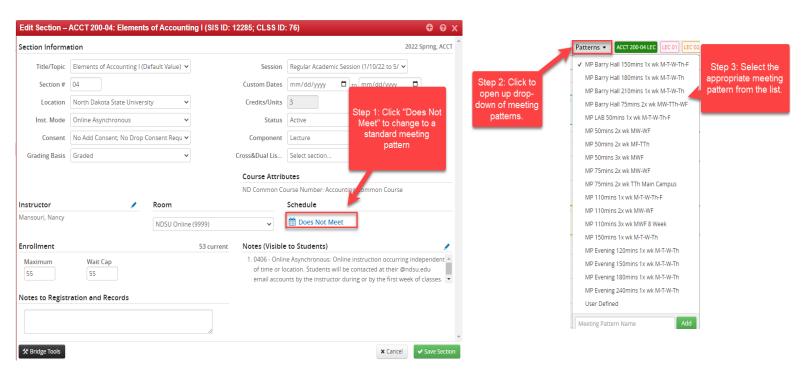

#### 3.4 Notes to Registration and Records

Please keep this section brief. Notes in this section should only include information for the Registration and Records Office to make the necessary arrangements for the course section (i.e. the room number and building of the department controlled space for your course or the sub-topic title for special topics, individual studies, field experience, internships, or undergrad research) . Information from Notes (to Students) should never appear in Comments (to Registrar). Although we greatly appreciate them, there isn't a need for please and thank you; simply write your requests and we will do our best to accommodate them. Failure to follow these guidelines may result in the section not being setup or adjusted appropriately.

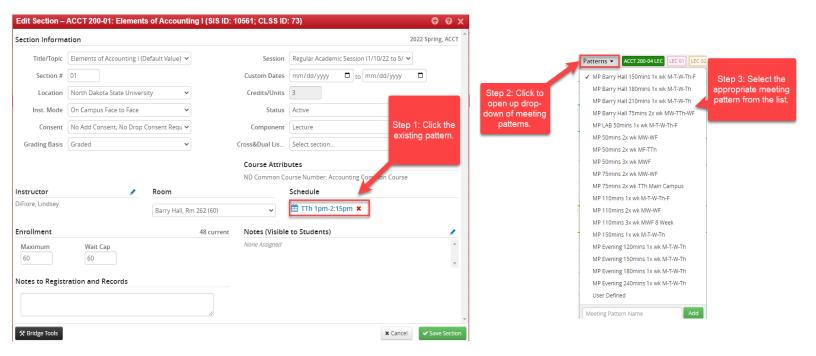

### 3.5 Schedule Snapper

The schedule snapper allows you to "snap" a course onto a defined course meeting time.

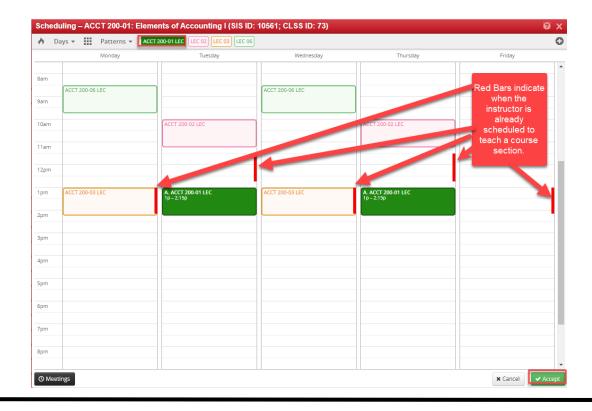

3.5.1 Schedule Snapper Basics - Updating "Does Not Meet"

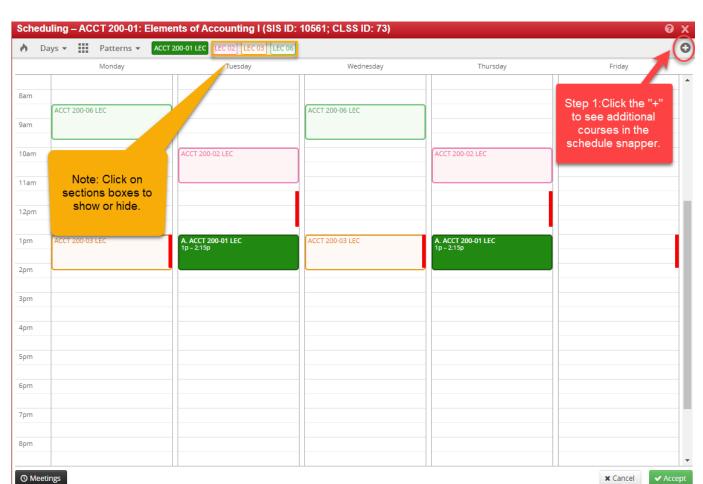

#### 3.5.2 Schedule Snapper Basics - Updating Meeting Pattern

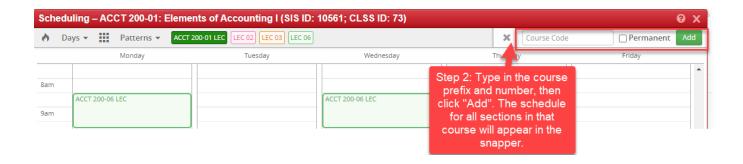

Note: The section will be highlighted in green when the meeting pattern is selected and click "save."

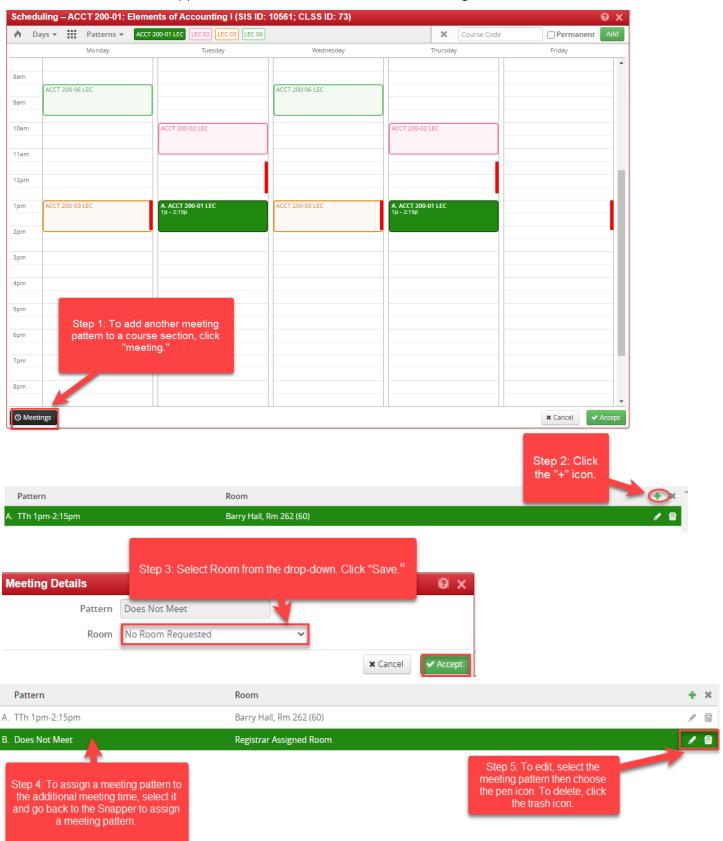

#### 3.5.3 Schedule Snapper - Viewing Additional Course Sections

Note: <u>DO NOT check the "permanent" box</u> unless you want the course(s) you input to ALWAYS show up whenever you go to the snapper. We cannot remove them!

3.5.4 Schedule Snapper - Sections with More Than One Meeting Pattern.

#### 3.5.5 Multiple Meeting Patterns

#### Multiple meeting patterns are used in a few different scheduling situations:

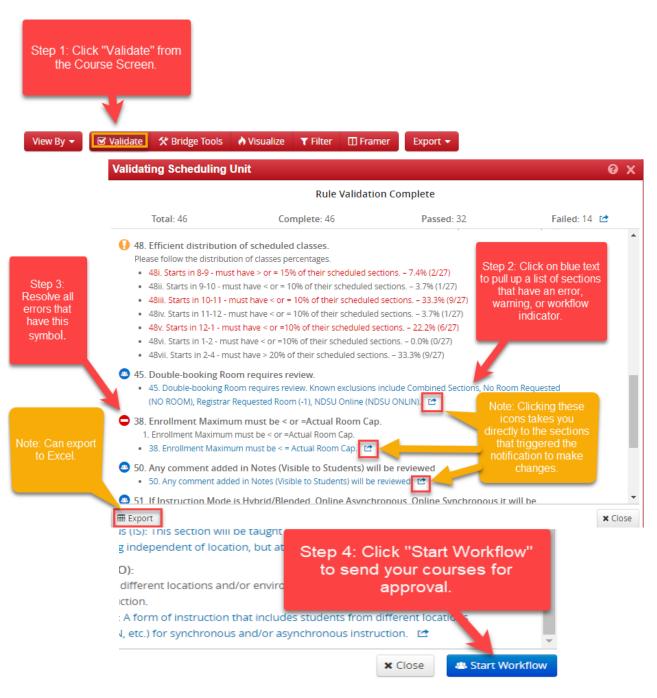

- a. Hybrid sections that may meet in-peron and online.
- b. Sections that meet in different rooms on different days.
- c. Sections that meet at different times on different days.

#### Follow these steps to enter multiple meeting patterns in CLSS:

- 1. Open the Snapper on your class section.
- 2. Click on the 'Meetings' button on the bottom left-hand corner of the Snapper.
- 3. Click on the green plus sign (+) to add a meeting pattern.
- 4. Enter the start and end date(s) for the specific meeting pattern.
  - i. for sections that meet in different rooms on different days, enter the term start and end date
  - ii. for sections that do not meet every week during the term, the start and end date will be the same
- 5. Click 'Accept,' and then navigate back to the Snapper by double clicking on the new meeting pattern. Choose 'User Defined' from the 'Patterns' drop-down to assign times to the secondary meeting pattern you created. Repeat as needed.
- 6. Once the additional meeting patterns are created, you must either default to the rolled-over room or indicate that the additional meeting(s) need a registrar assigned space.
  - i. Click on the 'Meetings' button on the bottom left-hand side to display your meeting patterns
  - ii. Click on the pencil icon to edit each additional meeting pattern
  - iii. Request your room assignment
  - iv. Once you've entered all additional meeting patterns, and requested a room, you may close out of the Snapper

## 4.0 Validating

In the Course screen, validating runs all relevant rules on all of a scheduling unit's sections for a particular term. Only after you have resolved <u>all</u> errors on your unit will you be able to transition your scheduling unit to workflow for approval. You must click "Start Workflow" to send your unit through for approval. Simply saving your unit after validation will not progress your unit for approval, it only allows you to save and come back to make additional edits at a later time. You can click Validate multiple times to resolve errors until the Start Workflow button appears. Once your unit has transitioned to Refine Mode, saving your changes automatically update your section information in Campus Connection.

#### 4.1 Indicators - Error, Warning, Workflow

Rules are established in CLSS to enforce university and NDUS policy as well as assist with managing the numerous course schedule changes that occur in a typical academic year. When a rule is not met, it triggers an indicator that immediately notifies the scheduler there is an issue with a section request. There are three levels of notification if a course section does not satisfy one or more rules.

- a. **Warning:** CLSS will tell you that there is a potential error on the section. CLSS will permit you to save and continue.
- b. Error: The error must be fixed before CLSS will allow you to save your work on a section.
- c. Workflow: The section may be in violation of one or more rules and must be approved by the Dean, Provost, or the Registrar's Office.

IMPORTANT: While rules help catch errors, it is important to note that CLSS is a software program, and its logic is limited. This means that you may need to do investigate your entries if you receive an error that does not make sense. For example, if you have a face-to-face instruction mode on an active section, CLSS will alert you that you need to input a meeting pattern in order to save and submit. It cannot determine which kind of section you intended to set up, so it will give you a list of all the potential errors for you to sift through. If you still don't understand a rule, please contact the Registration and Records Office.

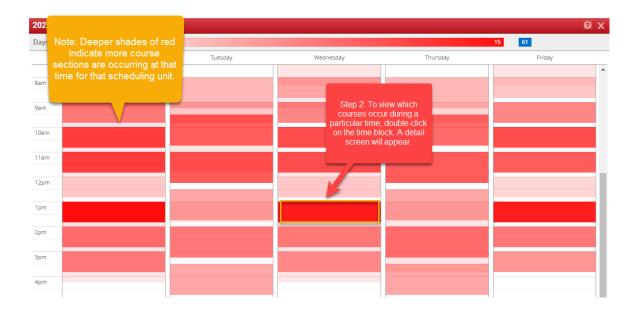

Error: Section or scheduling unit may not be saved. A rationale with possible solutions to error is given. The Save As-Is or Start Workflow buttons are not available. To save the section, correct the error then attempt to save again.

Warning: Can save, but proceed with caution. Section or Scheduling unit may be saved, but caution should be taken before completing the schedule.

Work flow: Section or scheduling unit may be saved. Further approval required before the course section is entered into Campus Connection.

## 5.0 Visualize - Heat Map

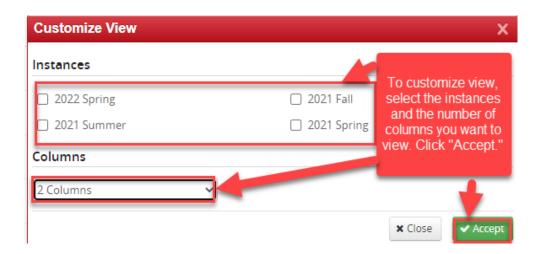

## 6.0 Using the Framer

The Framer is a useful way to compare terms.

6.1 Framer - Customized View

#### Step 1: Click View and select "Detail." 2021 Fall 2021 Summer Standard ACCT 102 01 - LEC: Mansouri, Nancy (60) 01 - LEC: Petersen, Michael (130) 01 - LEC: Pete ✓ Detai nentals of Accounting MW 11:30am-12:45pm MW 11:30am-Does Not Meet ACCT 200 Elements of Accounting I 01 - LEC: Peterse 01 - LEC: Hong, Yongtao (60) 01 - LEC: DiFi Customize TTh 1pm-2:15p 02 - LEC: Hong, Yongtao (60) 02 - LEC: Staff (60) TTh 1pm-2:15pm TTh 10am-11:15am n detail view, you may click on the faculty member's name to get their teaching schedule for the specified 03 - LEC: Emerson, Nancy (120) 03 - LFC: Dowdell Thomas (60) TTh 11am-12:15pm MW 1pm-2:15pm 04 - LEC: Petersen, Michael (60) 04 - LEC: Mansouri, Nancy (55) MW 1pm-2:15pm Does Not Meet 05 – LEC: Mansouri, Nancy (5) 05 - LEC: Mansouri, Nancy (65) Does Not Meet 06 - LEC: Petersen, Michael (30) 01 - LEC: Huang, Huichi (55) ACCT 201 01 - LEC: Em 01 – LEC: Emerson, Nancy (65) nts of Accounting II Does Not Meet Does Not Meet 02 – LEC: Huang, Huichi (60) 02 - LEC: Zuber, Jill (60) TTh 2:30pm-3:45pm MW 11:30am-12:45pm 03 - LEC: Huang, Huichi (60) 03 - LEC: Zuber, Jill (60) TTh 4pm-5:15pm MW 10am-11:15am 04 - LEC: Emerson, Nancy (99) TTh 8am-9:15am 05 – LEC: Huang, Huichi (5) Does Not Meet

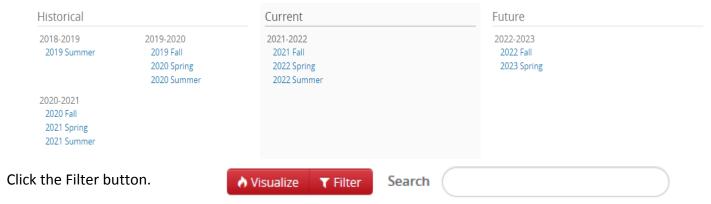

#### 6.2 Framer - Detailed View

## 7.0 Filtering and Reporting

Filtering is a powerful tool to view course sections throughout the university. The ways to use the tool are many, and you are encouraged to experiment with it.

#### 7.1 Filtering

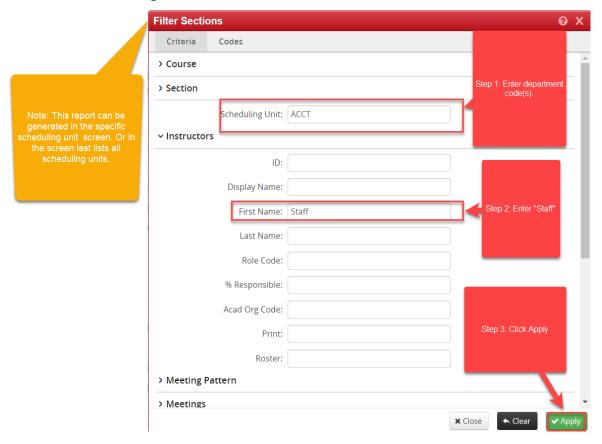

Navigate to CLSS and login. Then Choose what term you would like to pull a report in.

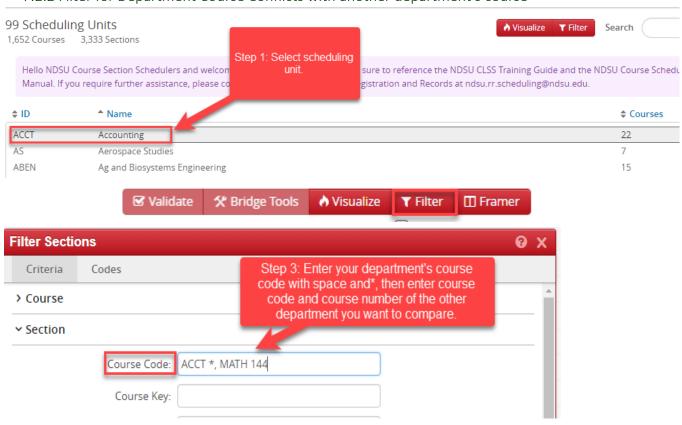

Filtering can be done on several different data points. Filters are used to drill down in the data and to create Rules.

Key words and symbols can be used individually or combined to limit and specify your search criteria. Go to CourseLeaf's Help Site for more information on how to use filters: https://help.courseleaf.com/clss/filters/.

#### 7.2.1 Filter for missing instructors

#### 7.2.2 Filter for Department Course Conflicts with another department's course

## Use in All Filter Fields:

į.	Not
,	Match any of the items in the comma-separated list
=	Exact match, ignoring other special characters
?	One wild card character
*	0 or more wild card characters
>	Greater than
>=	Greater than or equal to
<	Less than
<=	Less than or equal to
::	Range
same	Field's value is the same as the corresponding field in another group
NUM	Numeric
ALPHA	Alphabetic
ALPHANUM	Alphanumeric

<sup>\*\*\*</sup>URLs in CLSS are stable so if you create a very complicated set of filters, save the URL. You can easily adjust the term to pull this information up again.

## 8.0 Questions and CLSS Access

For access to CLSS or questions not covered by this guide, please contact the Scheduling Team in the Office of Registration and Records at ndsu.rr.scheduling@ndsu.edu

## **Thank You:**

The Office of Registration and Records appreciates your efforts in working with us to ensure the accuracy of the course schedule and being good stewards of our resources. It is important that the course schedule continue to be leveraged to improve student success.

## Appendix A: FAQ

#### 1. In CLSS, will course sections roll from one academic year to the next?

Yes, the rolling forward of information from term to term remains the same, Fall to Fall, Spring to Spring, and Summer to Summer.

#### 2. I need to schedule a course, but don't' see it in my list. Where is it?

If the course wasn't offered during the previous like term, click the checkbox next to "Show courses with no sections," located below the toolbar Show courses with no sections

If it doesn't appear after clicking the check-box, contact the Office of Registration and Records.

- 3. I want to assign an instructor to this section, but I do not see them in the dropdown. What do I do? If you do not see an instructor listed in your drop-down, navigate to the bottom of the list and choose other. Search by the instructor's name. If you see their name pop up, go ahead and add them. If not, please contact the Office of Registration and Records.
- 4. My class section needs to be scheduled in two different rooms, how do I do this?

In CLSS, you can create multiple meeting patterns in the Snapper screen.

#### 5. The component I need is not showing in the drop-down. What do I do?

Components come over directly from the catalog in Campus Connection. If you do not see the component you need, it means the course has not been approved with that component. You will need to submit a curriculum change through UCC to update the component for a future semester.

#### 6. An error keeps occurring that I cannot fix. What needs to be done?

If you keep receiving an error that cannot be fixed, please contact the Office of Registration and Records.

#### 7. Why can't I see the sections I combined in CLSS in Campus Connection?

Check to make sure that you have chosen the correct component from the drop-down and try linking again. Remember, enrollment components will always show 'Not linked to other sections.' You must always link from the non-enrollment component.

#### 8. Will CLSS notify me when my changes are approved?

No. CLSS will only send you notifications if changes you made are incorrect or not approved. However, if you have a question, you can always contact the Office of Registration and Records.

#### 9. What should I do if I don't see the meeting pattern I want for my class?

Departments should make their best effort to fit their sections in one of the several standard meeting pattern options provided to minimize potential conflicts and bottlenecks for students. If it is determined that a non-standard meeting pattern is still needed, input that meeting pattern for review by Registration and Records.

#### 10. How can I find out information on the features available in my assigned classroom?

Please visit https://kb.ndsu.edu/137059 for detailed information on a specific classroom space.

#### 11. How many course sections are allowed during certain times (i.e. primetime)?

Primetime is consider 9a-3p Monday through Friday, and dictate that no more than 50-60% of a department's sections should be held at primetime. This rule only applies to departments with more than 20 course sections.

#### 12. How will we know when other courses are scheduled?

Similar to now, course section information relies on departments and colleges inputting their information into the system. Once those updates occur, you can see the results in CLSS.

#### 13. How much course section information will be available in CLSS?

CLSS will have several terms of historical data. Information not housed in CLSS will remain available in Campus Connection, Monitor, and Power-Bi.

#### 14. What kind of enrollment information will CLSS have?

Campus Connection will update CLSS nightly with enrollment information. During registration periods, you should still rely on Campus Connection for the most up-to-date enrollment figures.

#### 15. Will CLSS automatically save your work?

No, you will need to click the save button to save your work. In Design mode, saving your work will not move it forward in the workflow. Only Validate will move it into workflow. In Refine mode, saving your work will trigger a workflow.

#### 16. How will CLSS handle hybrid courses?

You should be able to select any Instructional Mode. You will need to make sure the Instructional Mode matches the Component. You will also need to make sure the proper fees are added to the course, and that the notes are updated to show any information about how the course meets for students to see.

#### 17. What if we are unable to select a non-defaulted scheduling field needed for a section creation in CLSS?

If you do not see information needed to successfully create your section in any of the drop downs or boxes, please contact the Registration and Records. Please be aware that dean approval may be required for certain changes depending on the Phase. Typically, not seeing something in CLSS means R&R needs to do something on our end.

#### 18. Who would we contact about technical issues with CLSS?

You would need to contact the Office of Registration and Records with details about the problem, and we will assist in getting it resolved.

# Appendix B — CLSS Scheduling Timeline

CLSS Scheduling Timeline				
	Spring & Summer	Fall		
CLSS Opens for Plan Phase 1	Early April	Early November		
CLSS Plan Phase 1 Changes Due	End of June 30 <sup>th</sup>	Mid December by end of term		
CLSS Closes for Room Assignments	End of June through August 1st	Mid December through January 30 <sup>th</sup>		
CLSS Re-opens for Plan Phase 2	Early August	Early February		
CLSS Plan Phase 2 Changes Due*	By August 30 <sup>th</sup>	By February 28 <sup>th</sup>		
Publish Schedule	October 1 <sup>st</sup>	March 1 <sup>st</sup>		
Registration Opens	End of October	End of March		

<sup>\*</sup>Schedule should be as close to final in preparation for publication and advising.

# Appendix C – Standard Meeting Patterns

The standard meeting patterns of MWF 50-minutes and TR 75-minutes are represented in this chart. Prime hours are shaded.

Standard Meeting Times - Main Campus				
Monday	Tuesday	Wednesday	Thursday	Friday
8 - 8:50 AM	8-9:15 AM	8 - 8:50 AM	8-9:15 AM	8 - 8:50 AM
9 - 9:50 AM	9:30-10:45 AM	9 - 9:50 AM	9:30-10:45 AM	9 - 9:50 AM
