1. Weigh-in cards will be generated by a computer software program. Team Leaders must review their team rosters prior to 5:00PM the day before weigh-ins and make any corrections. Weigh-in cards will available preceding weigh-ins.

2. At registration, the day before weigh-ins, you will receive a team roster listing all your athletes per age group, per style, per weight class. You must correct all information and add state ranking designations and indicate which athletes should be separated by Level 1, Level 2 and Level 3 criteria, outlined in the USAW Rule Book page 67-68 & 70. List the accomplishments next to the name as we will verify all separation criteria.

3. It is mandatory that states use the online registration process for registering teams. It is also important that each state have a representative arrive prior to 3PM the day before weigh-ins to verify entries, designate state rankings and indicated Level 1, Level 2 and Level 3 separation criteria, outlined in the USAW Rule Book page 67-68 & 70. Again, all rosters have to be verified and returned by 5:00PM the day before weigh-ins. The information will be entered and then weigh-in cards will be printed and distributed proceeding weigh-ins.

If a state does not complete this requirement their athletes will not be entered into the tournament. **There can be no exceptions, as the data must be entered into the computer program in order to generate weigh-in cards.**
